

Fortune 438

Chapter 438: The Great Sun Sword Sect's Annihilation, Disaster Breaks Out!

"I'm innocent, what does it have to do with me?"

Jiang Fan heard the words from the Ten Thousand Transformations Pill Furnace, and he looked innocent.

After all, those two Tier Three Demon Beasts went to trouble the Great Sun Sword Sect, not because he provoked them.

It was the Great Sun Sword Sect that brought trouble upon themselves.

He was purely caught up in it.

They even said he was the one who cursed the Great Sun Sword Sect to death, he was truly too innocent.

"Husband."

"Just now, the Soldier Bees seemed to have heard the angry roars of those Tier Three Demon Beasts."

"They seemed to say something about handing over their children immediately, or they would flatten the Great Sun Sword Sect."

Su Weiwei blinked her beautiful eyes, with the surveillance of the Soldier Bees, she also got more detailed information.

Obviously, these two Tier Three Demon Beasts suddenly arriving at the Great Sun Sword Sect was not without reason.

It was for their children.

"Could it be that the young of the Azure Split Profound Eagle were stolen by someone from the Great Sun Sword Sect?"

"Is that why they were angered?!"

Jiang Fan immediately thought of the reason behind it.

Without a doubt, it must have been a daring cultivator from the Great Sun Sword Sect who stole the young of the Azure Split Profound Eagle.

This thoroughly enraged them, so they tracked all the way here.

To be honest, such things are quite common.

If one could indeed steal the young of a Tier Three Demon Beast and forcibly sign a contract to make it one's Spirit Beast, then it would undoubtedly be a powerful help in the future.

After all, as a young Tier Three Demon Beast, its potential is obvious.

At least it could become a Tier Two level Spirit Beast.

If lucky, it could even become a Tier Three Spirit Beast.

In that case, the Tier Three Spirit Beast could become the Mountain Guardian Spirit Beast of the Great Sun Sword Sect, protecting it for hundreds or even thousands of years.

Because the lifespan of a Spirit Beast far exceeds that of a human cultivator of the same rank.

It is precisely because of this that no cultivator can resist the temptation of such benefits.

The problem is that such actions have brought about a tremendous disaster, thoroughly enraging the Azure Split Profound Eagle.

Thereby, bringing an existential calamity to the Great Sun Sword Sect.

Sometimes opportunities are not easily obtained and may come with significant hazards.

The Great Sun Sword Sect serves as such an example.

"Husband, what should we do next?"

"The attack by Tier Three Demon Beasts on the Great Sun Sword Sect might also affect Purple Spirit Peak."

Su Weiwei said with a very serious expression.

She could completely imagine the terror of these two Tier Three Demon Beasts, and after attacking the Great Sun Sword Sect, they would surely affect other areas, and any human cultivator they saw would likely have no place to bury their bones.

After all, the Human Race and the Demon Race are inherently irreconcilable.

Not to mention, they have come for revenge, such anger is enough to burn everything to ashes.

So she also sensed a hint of danger.

If they continue to stay at Purple Spirit Peak, they might end up dying under the rage of the Tier Three Demon Beasts.

Boom~~

At this moment, the Fortune-Telling Talisman deep within Jiang Fan's Elixir Field and Sea of Qi started to tremble, buzzing, and a message instantly sank into the depths of his Consciousness Sea.

"Demon Beast disaster, affecting those nearby, act cautiously, turn misfortunes into blessings."

"Stay at Purple Spirit Peak to cultivate, or be affected by Demon Beasts, nine deaths and one life, very dangerous."

"Follow Yunquan River downstream, remain inconspicuous, act low-key, obtain nothing, remain stable."

"Follow Yunquan River upstream, in three days you can obtain a Fourth-Grade Opportunity, or encounter danger, but emerge unscathed, very auspicious."

Sensing this message, Jiang Fan's eyes revealed a glimmer of sharpness.

Without a doubt, the information provided by the Fortune-Telling Talisman was very clear.

If he continues to stay at the Purple Spirit Peak, the outlook is very grim.

Because the two Tier Three Demon Beasts joining forces will certainly affect an area of several hundred kilometers, causing countless deaths and injuries.

Even though he is now a Tier Three Body Cultivator, greatly enhanced in strength, it is hard to say if he can withstand the joint forces of two Tier Three Demon Beasts.

After all, they are not just early-stage Tier Three Demon Beasts, they might have already reached the late Tier Three stage.

Even a human cultivator who has just entered the Golden Core stage would not be their match.

Thus, this time the Great Sun Sword Sect might be in great trouble; even if not annihilated, it would suffer heavy losses.

"Leave along Yunquan River?"

Jiang Fan's gaze flickered.

The so-called Yunquan River is actually a massive river in the Ten Thousand Beasts Mountain Range, spanning thousands of kilometers.

It is said its source is a mountain deep within the Ten Thousand Beasts Mountain Range.

But to this day, no cultivator knows where the end of this river lies.

After all, deep within the Ten Thousand Beasts Mountain Range there are Tier Four Demon Beasts, and no human cultivator dares venture deep into the mountain range.

At the same time, this river also nourishes countless Demon Beasts and human cultivators.

Without the Yunquan River, it would be difficult to find a clean water source.

If he goes downstream, it means leaving the Ten Thousand Beasts Mountain Range along the Yunquan River, reaching the outermost regions.

To go upstream, that means continuously venturing deeper into the Ten Thousand Beasts Mountain Range.

"To actually obtain a Fourth-Grade Opportunity."

"Although this is indeed an undeserved disaster, it can also bring an opportunity."

Jiang Fan was very expectant.

After all, a Fourth-Grade Opportunity is quite remarkable.

The Gate of the Void he obtained before was a Third-Grade Opportunity, which was a Sub-Immortal Artifact, although a damaged Sub-Immortal Artifact, its preciousness is obvious.

And a Fourth-Grade Opportunity is only slightly inferior to a Third-Grade Opportunity.

So, one can imagine what great benefits he might obtain this time.

"Although after coming to the Great Sun Sword Sect, there have been constant disturbances, and calamities,"

"I've also been able to gain quite some opportunities."

"This place truly can be considered a blessed land."

Jiang Fan clenched his fist.
