

## Fortune 442

Chapter 442: Obtaining a Tier Three Spirit Vein, Foundation Establishment Perfection!

At this moment, hiding deep underground, Jiang Fan naturally sensed the words of the three Golden Core Demon Cultivators. He instantly understood the ins and outs of the Great Sun Sword Sect's calamity.

Clearly, the disaster that befell the Great Sun Sword Sect was because of these three Golden Core Demon Cultivators.

Although the Golden Core Demon Cultivators are indeed powerful, with the Exquisite Tower helping him conceal his aura and form, even if he is close at hand, he does not need to worry about being discovered by the opponent.

And so it is.

The three Golden Core Demon Cultivators found no trace of Teng Hao nearby, so they scattered around, determined to find the missing Teng Hao, hoping to locate the Great Sun Buddha Mirror.

Boom~~

At this moment, a message instantly transmitted from deep within Jiang Fan's sea of consciousness: "You've encountered an assault by a Golden Core Zhenren; fortunately, you were cautious and sprang into action, counterattacked, and killed the Golden Core Zhenren, narrowly escaping calamity, earning eighty thousand Luck Points and a Fourth-Grade Opportunity."

Without a doubt, he smoothly navigated through this disaster, harvesting a significant amount of luck.

"The Great Sun Buddha Mirror? The Sect Treasure of the Great Sun Sword Sect?"

"Is the Fourth-Grade Opportunity this ancient treasure?"

Jiang Fan's heart stirred. He immediately found a dark golden mirror from within his Storage Bag, palm-sized, with the frame engraved densely with mysterious symbols, seemingly containing inconceivable power.

However, no matter how he activated his Primordial Spiritual Power and infused it inside, it was like entering a quagmire; this ancient mirror showed no reaction.

Still, this desire from the three Golden Core Demon Cultivators to obtain the Great Sun Buddha Mirror speaks to its preciousness, reckoning that even Nascent Soul Cultivators would covet it.

Boom~~

Thinking of this, Jiang Fan immediately started to consume his Luck Points, as he was already familiar with refining this type of ancient treasure.

A wave of mysterious energy instantly merged into the dark golden mirror.

A large amount of Luck Points was consumed.

Ten thousand, thirty thousand, fifty thousand, seventy thousand...

Upon reaching one hundred thousand Luck Points, the mirror finally reacted.

Dong!

Instantly, Jiang Fan sensed an inexplicable connection between the mirror and his soul; strands of Soul Power penetrated into the core depth of the mirror.

He seemed to see endless sutra characters entwining at its core, resembling a golden sun, unleashing infinite energy, burning everything.

Immediately, a vast amount of information transmitted from the mirror.

The Great Sun Buddha Mirror!

At this moment, Jiang Fan knew he had completely refined the mysterious ancient treasure.

"No wonder the Great Sun Sword Sect has held this ancient treasure for thousands of years, trying every method but unable to refine it, as its Artifact Spirit had long perished."

Jiang Fan could sense the ancient treasure had suffered severe damage, extinguishing its Artifact Spirit.

Additionally, over time, the spirituality of the ancient treasure was continually worn away.

However, under the influence of destiny, it helped restore quite a bit of its spirituality.

Simultaneously allowing him to completely master the ancient treasure's power.

Obviously, this ancient treasure is incredibly powerful.

It possesses two abilities in total.

The first ability is reflection.

Once the Great Sun Buddha Mirror is activated, it can envelop an area, reflecting the surrounding scenes. Even without leaving the house, one can see what's happening around through this mirror.

Of course, the scope of the reflection relates to the user's cultivation.

The stronger the user's cultivation, the broader the reflection will be.

The second ability is to unleash the True Sun Fire.

The Great Sun Buddha Mirror can devour the True Sun Fire, storing it inside the mirror's internal space. When the mirror is activated, as long as it locks onto the enemy's aura, it can blast out the True Sun Fire.

Thus, the power of the Great Sun Buddha Mirror is evident.

Especially against Evil Cults and Demon Cultivators, this force is simply their nemesis.

If the Great Sun Buddha Mirror targets them, it spells certain death as they would be burned to ashes by the True Sun Fire, unable to resist.

Because of this, those Demon Cultivators were deeply fearful of the Great Sun Buddha Mirror, anxious to destroy this treasure at first opportunity.

It is said that in the Ancient Era, the Great Sun Buddha Mirror once displayed great might, eradicating countless demons, reducing evil cults, demons, and demon cultivators to ashes.

The emergence of the True Sun Fire swept away all sinister spirits.

"I see."

"No wonder it's called the Great Sun Sword Sect."

"Perhaps the sect's first-generation leader rose due to obtaining this ancient treasure."

"Moreover, they deliberately placed the sect in the Ten Thousand Beasts Mountain Range."

"Perhaps to leverage the Great Sun Buddha Mirror's power, expanding territories and exterminating evil cults."

"Unfortunately, none of the Great Sun Sword Sect disciples over generations were able to refine this ancient treasure."

Jiang Fan stroked his chin.

Undoubtedly, he indeed acquired a massive advantage this time.

This ancient treasure clearly is indeed a tool for devastating power.

If utilized properly, it would be a huge weapon, enabling him to be undefeated.

It can't be denied, he indeed profited greatly from the Fourth-Grade Opportunity.

Truth be told, had he not come to the Great Sun Sword Sect, this ancient treasure most likely would have fallen into demon cultivators' hands.

Then, as demon power swelled while the Dao waned, possibly fostering a significant disaster.

However, his actions now have disrupted the plans of the Demon Dao cultivators.
