Chapter 443: Acquiring a Tier Three Spirit Vein, Foundation Establishment Perfection!_2

This instead delayed the outbreak of calamity.

At the same time, it also increased the destiny of the Righteous Dao.

"By the way, I wonder if there are any other treasures inside the storage bag."

Thinking of this, Jiang Fan immediately put away the Great Sun Buddha Mirror. He thought, since this ancient treasure has been completely refined by him, it's no rush to familiarize himself with its abilities until later.

He continued to check the treasures within the storage bag.

Unfortunately, there weren't any treasures in the storage bag that surprised him.

It contained a million Spirit Stones, some Tier Two Elixirs, and some rare materials, among others.

It's estimated that the other party exhausted all their wealth for healing, so they didn't have much property left.

Of course, for Jiang Fan, it was quite a good harvest.

"Wait, this seems to be a map of the interior region of the Ten Thousand Beasts Mountain Range."

Suddenly, Jiang Fan's eyes lit up.

He discovered the detailed map of the Ten Thousand Beasts Mountain Range left by Golden Core Zhenren Teng Hao.

This map is something you can't buy in the outside world; it is the result of a thousand years of exploration of the Ten Thousand Beasts Mountain Range by the Great Sun Sword Sect.

And this map not only marks various peaks and terrains.

It also provides detailed information about some Spirit Veins and mineral veins.

Even certain dangerous places are marked as well.

With this map, traveling in the Ten Thousand Beasts Mountain Range would be much safer.

There is no need to worry about accidentally approaching the lair of a powerful demon beast and being killed by it.

"Tier Three Spirit Vein? There's actually a Tier Three Spirit Vein nearby?!"

"And it's still a hidden Golden Core Cave Mansion."

Jiang Fan carefully examined the map and couldn't help but feel pleasantly surprised.

Because he discovered the map marked a nearby Tier Three Spirit Vein.

Moreover, this Tier Three Spirit Vein had been occupied by successive Golden Core Zhenren of the Great Sun Sword Sect.

After a long period of construction, it became the second cave mansion of the sect's Golden Core Zhenren.

From a certain perspective, it could be considered as the clever rabbit having multiple burrows.

The reason why Golden Core Zhenren Teng Hao flew in this direction was not without cause.

Because he had a secret cave mansion left behind nearby.

Once he hid inside the cave mansion, those Golden Core Demon Cultivators wouldn't be able to find him.

Equivalent to a safe lodging.

"Really, searching the ends of the earth for what lies within reach."

Jiang Fan clenched his fists, feeling extremely pleased.

Originally, he was pondering where he could find a Tier Three Spirit Vein or a safe cave mansion.

After all, a Tier Three Spirit Vein is indispensable for his advancement to the Golden Core.

Who would have thought this Tier Three Spirit Vein would come to him naturally?

Moreover, it's still a hidden Golden Core Cave Mansion.

Now that Golden Core Zhenren Teng Hao is dead, this cave mansion naturally belongs to him.

Swoosh!

Thinking of this, Jiang Fan didn't hesitate and immediately headed towards the direction indicated by the map, activating the power of the Earth Escape Talisman to rapidly advance to the Golden Core Cave Mansion.

In just an hour or two, he reached the location of the Golden Core Cave Mansion.

"This."

Jiang Fan emerged from the earth, looked around, and found himself in a barren and desolate place—a valley surrounded by endless mountains.

From time to time, he could hear the distant roars of demon beasts, exuding a wild aura.

At the same time, he also saw the valley before him shrouded in a Tier Three Array.

If it weren't for the map's guidance, no one would probably know that this place has a Tier Three Spirit Vein and a Golden Core Cave Mansion—it is clearly very hidden.

Luckily, he found an array token inside the storage bag.

As long as he refines this array token, he could control the Tier Three Grand Array and freely access this Golden Core Cave Mansion.

Boom~~

Jiang Fan didn't hesitate, immediately taking out the array token. It resonated with the Tier Three Array, and a portal appeared before him.

He promptly stepped into the array.

Before him appeared a grand mansion, built like an estate.

Pavilions, water stages, carved beams, and painted rafters, with the scenery like spring all year round.

It was evident that the Golden Core Zhenren of the Great Sun Sword Sect spent considerable effort in building this Golden Core Cave Mansion.

More importantly, he could sense the dense Heaven and Earth Spiritual Qi within the array.

The concentration of Spiritual Qi here is dozens of times denser than outside.

Undoubtedly, there is indeed a Tier Three Spirit Vein here, at least a Tier Three Middle Grade Spirit Vein.

Cultivating in this place would surely yield twice the result with half the effort.

Swoosh!

At this moment, Su Weiwei also emerged from the Exquisite Tower, looked around, and was immediately delighted: "Husband, when did you find a Tier Three Spirit Vein?"

She was completely astonished by how quickly her husband found a cultivation blessed land.

"It was given by a Golden Core Zhenren."

Jiang Fan smiled slightly and recounted the recent events in detail.

"That old man was the Sect Leader of the Great Sun Sword Sect?"

"I never expected the Great Sun Sword Sect to be destroyed like this, it's truly unimaginable."

Su Weiwei was shocked upon hearing this.

She thought that after escaping the region of the Great Sun Sword Sect with her husband, they wouldn't encounter the sect's cultivators anymore.

Who would have thought that fate had other plans and led the Sect Leader of the Great Sun Sword Sect straight to them?

Not only did he bring a large amount of wealth and treasures but also delivered a Golden Core Cave Mansion.

It's almost like having a Wealth-Bringing Boy, a pie falling from the sky.

But she was more shocked by the fact that the renowned Great Sun Sword Sect was simply destroyed.

Upon first entering the Cultivation Realm, she had heard of the Great Sun Sword Sect—it was a Golden Core Influence that stood for a thousand years, a colossal entity that made countless loose cultivators tremble at its name.

Even if they were bullied and exploited by it, they dared not speak up and could only silently endure.

Yet now, destroyed just like that.

"Every age has its talents, each dominating for hundreds of years."

"The Great Sun Sword Sect's virtue did not match its position, and it couldn't produce new Golden Core Zhenren."

"Without any ability to resist risks, it was naturally prone to destruction."

"Being a Nascent Soul Sect is essential, continuously nurturing many Golden Cores to stand tall for long."

Jiang Fan said solemnly.

Evidently, in this land, aside from Nascent Soul Sects, influences below the Golden Core are fleeting.

Once a Golden Core Zhenren dies, the influence is also extinguished.

It's like a natural cycle of renewal.

However, this might not be a bad thing.

Since the Great Sun Sword Sect was destroyed, naturally, other influences would rise.

If it occupied all resources for too long, what chances would other cultivators have?

"Anyway, this Golden Core Cave Mansion belongs to us."

"We can at least cultivate here for a long time."

"Even husband can take the opportunity to advance to Golden Core."

Su Weiwei said hopefully.

She thought if her husband could become a Golden Core Zhenren, then traversing the Cultivation Realm in the future would be much less worrisome—not exactly walking sideways, but at least not fearing common dangers.

...

Soon, Su Weiwei and Jiang Fan completely settled in this place.

They didn't know what the valley was called, so they decided to name it Nameless Valley.

In any case, the name of this place was not important to them; what mattered was it being a cultivation blessed land.

Rumble~~~

Quickly, half a year flew by.

At this moment, inside a quiet chamber.

Jiang Fan sat cross-legged on the ground, practicing the Mixed Element Talisman Scripture.

A massive Spiritual Energy Vortex formed centered on his body.

Heaven and Earth Spiritual Qi from all directions surged in, pouring into his body.

Then it entered deep into his Elixir Field and Sea of Qi, being refined by the Primordial Talisman, gathering into drops of Primordial Spiritual Power.

The vast Primordial Spiritual Power circulates within his body.

Rotating again and again.

"Finally advancing my cultivation to Foundation Establishment Perfection."

At this time, Jiang Fan opened his eyes, revealing a terrifying gleam.

He sensed the Primordial Spiritual Power within him had penetrated one hundred and eight secondary meridians, forming a cycle.

Vast Primordial Spiritual Power streams like a river within his body.

Under the guidance of the Primordial Talisman, all Spiritual Power condensed into a strand, like a dragon swimming.

Each operation strengthens the Spiritual Power within him.
