Chapter 448: Golden Core Three Passes, Outer Celestial Demon

Nameless Valley.

After a short period, Jiang Fan finally returned to this Golden Core Cave Mansion.

With the protection of the Tier Three Array, he no longer needed to worry about other Golden Core Zhenren coming to his door.

In fact, if it weren't for Cen Bai Rui leading the way, even that Golden Core Demon Cultivator wouldn't have found this place.

So after the death of Cen Bai Rui, he was considered completely safe.

At least according to the prompt from the Fortune-Telling Talisman, his ordeal had temporarily vanished.

In the short term, he was in an absolutely safe state, which was the protection of Destiny.

"That Golden Core Demon Cultivator indeed had companions."

"They found me right after he died."

At this moment, Jiang Fan naturally sensed that two Golden Core Demon Cultivators had arrived at Ox Head Mountain just now.

He also remembered the previous message from the Fortune-Telling Talisman, urging him to take the initiative to go to Ox Head Mountain to nip the ordeal in the bud and pass the Golden Core Human Tribulation early.

If he remained in Nameless Valley, waiting for them to come looking for him, even if he killed these two, Nameless Valley wouldn't be a place to stay.

His location would definitely be discovered by the companions of the Golden Core Demon Cultivators.

But now these two died near Ox Head Mountain, even if their companions knew, they wouldn't be able to locate Nameless Valley precisely. Thus, he wouldn't need to abandon this residence.

Hence, he best take the initiative and slay the enemies outside Nameless Valley to completely overcome the ordeal.

Otherwise, he could only abandon this Golden Core Cave Mansion and seek a new Tier Three Spirit Vein for Core Formation.

Of course, it's not impossible to find a new Tier Three Spirit Vein; it just requires a lot of time.

This would also slow down his cultivation progress.

However, Jiang Fan wasn't in a hurry for Core Formation, as it was a crucial matter not to be taken lightly.

So he quietly cultivated for three months, affectionately intertwined with Su Weiwei.

Then he adjusted his Essence, Qi, and Spirit to the best state.

After completing all of this, he finally entered the quiet chamber to begin the Core Formation.

...

"Let's begin."

Jiang Fan sat cross-legged on the ground, his mind steady as he activated the Mixed Element Talisman Scripture.

In the depths of the Elixir Field and Sea of Qi, the Primordial Talisman began to spin.

The eighteen Life Talismans on the surface emitted a golden light, resonating with the Heaven and Earth Spiritual Qi.

The Tier Three Spirit Vein provided a continuous supply of immense Spiritual Qi.

At this moment, his entire body seemed to become a vortex, devouring a vast amount of Heaven and Earth Spiritual Qi.

Countless Spiritual Qi, like dragons and snakes, penetrated into his body.

The first barrier of the Golden Core Three Passes was the Spiritual Power Barrier.

Simply put, it meant solidifying the Spiritual Power, transforming Foundation Establishment Spiritual Power into Golden Core Spiritual Power.

Moreover, once this process begins, it cannot be stopped until all the Foundation Establishment Spiritual Power in the body thoroughly transforms into Golden Core Spiritual Power.

Boom~~~

In an instant, Jiang Fan activated the Mixed Element Talisman Scripture, compressing and further compressing the Primordial Spiritual Power and Liquid Spiritual Power in the depths of the Elixir Field and Sea of Qi.

After an undetermined period, a solid form of Spiritual Power finally appeared in the Elixir Field and Sea of Qi.

In terms of density, it was at least ten times that of Liquid Spiritual Power.

This solid Spiritual Power, like the sun, emitted endless golden light, seemingly illuminating the entire Sea of Qi.

Like a great sun slowly rising, dispelling endless darkness.

Evidently, the first step of Core Formation, solidifying Spiritual Power, had succeeded for him.

This step was of crucial importance.

For many Foundation Establishment Perfection cultivators, this was where they fell, as their Spiritual Power contained too many impurities.

No matter how they compressed the Liquid Spiritual Power, they couldn't refine it to coalesce into solid Spiritual Power.

But Jiang Fan was different; from the beginning, his Spiritual Power was incredibly pure, without any impurities.

So this step was never a problem for him.

"Is this Golden Core Spiritual Power?"

Jiang Fan's eyes revealed a gleam of brilliance, as he urged his Spiritual Sense to begin mastering this solid Spiritual Power.

The moment his Spiritual Sense penetrated the solid Spiritual Power, he felt as if he were sinking into a quagmire, an omnipresent sense of suffocation making him feel constrained.

Controlling it felt like running with a heavy stone on one's back.

Without a doubt, this was Golden Core Spiritual Power.

The difficulty of controlling it was incomparable to Foundation Establishment Spiritual Power.

"No wonder a Golden Core level Spiritual Sense is required for successful Core Formation."

"Without powerful Spiritual Sense, it's impossible to master Golden Core Spiritual Power."

"Otherwise, these Golden Core Spiritual Powers would rampage throughout the body, likely leading to an explosion and death."

Jiang Fan immediately realized the difficulty of Core Formation. Condensing Golden Core Spiritual Power was only the first step; next was mastering it, without which the result is death.

Fortunately, his Spiritual Sense was inherently strong, far exceeding Foundation Establishment cultivators of the same rank, already comparable to Golden Core Spiritual Sense.

Previously, his Spirit Root even evolved into a Celestial Spirit Root, so his Spiritual Sense power expanded several times over.

For other Foundation Establishment cultivators, manipulating Golden Core Spiritual Power was an ordeal.

But for him, it was a simple task, nothing concerning at all.

Boom~~

In an instant, this solid Spiritual Power flew into the core depths of the Primordial Talisman, as if becoming the planetary core, representing a beginning to devour the vast Primordial Spiritual Power of the Elixir Field and Sea of Qi.
