

## **Fortune 461**

Chapter 461: Protected by Destiny, Receiving the Golden Core Clan

Upon hearing this, Jiang Fan's eyes flashed with a hint of brilliance.

From this person's description, it seems that the Black Dragon Sea Region is not friendly to ordinary people.

If an ordinary person is not born into a major family, they will never have a chance to rise in this lifetime.

Even if they possess astonishing talent, they would need to be slaves or servants, and also loyal, to possibly be taught the Cultivation Method.

Therefore, for ordinary humans in this sea to rise, it is even more difficult.

Fortunately, I came to this sea region after advancing to the Golden Core.

After all, as a Golden Core Zhenren, I am considered a privileged person, fully qualified to establish a Golden Core Clan.

So I don't need to climb step by step like a lower-level cultivator.

"Senior, although my words may be presumptuous, I have a request."

Great Elder Zhu Bin of the Zhu Family bit his teeth but still spoke out.

He looked at Jiang Fan with extreme anxiety.

"Oh, speak freely."

Jiang Fan said calmly.

"Here is the situation."

"Not long ago, our Wu Family's Golden Core Ancestor Zhu Jin failed in a breakthrough and then was severely injured and died."

"Due to the suddenness of the event, our Wu Family was not prepared at all."

"Currently, there is no new Golden Core Zhenren in the Wu Family."

"If the Zhao Family finds this out, I'm afraid our Wu Family will be expelled from the Tier Three Island."

"At that time, our Wu Family will have nowhere to go."

"So I hope you can become the new Patriarch of our Wu Family."

Great Elder Zhu Bin of the Zhu Family straightforwardly stated his purpose, his lips bitter.

He chose this mysterious Golden Core Cultivator out of helplessness.

Because the competition in the Black Dragon Sea Region is indeed too fierce.

Once a Golden Core Ancestor falls, the status of a Golden Core Clan will immediately plummet.

Then even the Tier Three Island will be taken back.

This is no less than a catastrophe for the family.

So to avoid this from happening, they need to find a new Golden Core Zhenren.

In this way, they can maintain the status of the Zhu Family.

That's why they started desperately seeking help.

If they cannot find a new Golden Core Zhenren to protect the Zhu Family, then their enemies will likely add insult to injury, and it would be difficult for them to survive.

Therefore, even at great cost, they need to find a new Golden Core Zhenren to rely on.

"The new Patriarch?"

Jiang Fan raised an eyebrow, looking at this group indifferently.

"Yes, Senior is an outsider Golden Core Cultivator."

"You probably don't have a foothold in the Black Dragon Sea Region."

"Our Zhu Family Island happens to have a Tier Three Top-Grade Spirit Vein."

"It's an absolutely excellent Spirit Vein Island, envied by countless Golden Core Cultivators."

"If you can take residence on our Zhu Family Island, you won't have to worry about cultivation."

"Moreover, our Zhu Family is a millennium-old family, having produced three generations of Golden Cores, and is deeply rooted in this sea region."

"If you join our Zhu Family, we can handle all matters for you."

"Of course, if you are not satisfied with us, you can leave anytime."

Great Elder Zhu Bin of the Zhu Family said humbly.

To ensure the Zhu Family's continuation, he had no choice but to plead with this outsider Golden Core Zhenren.

He even thought this was a sign their Zhu Family's destiny was not exhausted, allowing them to encounter him at this time.

If they missed this outsider Golden Core, their Zhu Family would be doomed.

"The problem is I am not from your Zhu Family; can I really become your Zhu Family's Patriarch?"

"Can I also gain recognition from the Divinity Transformation Zhao Family?"

Jiang Fan's eyes flickered.

According to the Fortune-Telling Talisman, he came to the east, saving this group of Zhu Family Cultivators, which indeed was a great sign.

This time, he not only obtained a Sixth-Grade Opportunity.

He could also integrate smoothly into the Black Dragon Sea Region and become a local cultivator.

According to their description, cultivators in this sea region are extremely xenophobic.

They are basically connected by bloodline.

If not from the same family, they would likely be rejected, even unable to move freely.

Not to mention that the cultivators in this sea region are very powerful, even with Divinity Transformation Ancestors.

With his First-Layer Golden Core strength, it would be somewhat difficult to roam freely here.

A little carelessness could lead to encountering a Nascent Soul Old Monster, resulting in his demise.

So instead of fighting solo, it's better to join a family, hide within, and seek benefits.

The appearance of the Zhu Family gave him the best choice.

Just as they needed a Golden Core Zhenren to protect their family, he needed a local family to hide within.

It was indeed a perfect match.

As a Golden Core Zhenren, it's naturally important to maintain the initiative.

This matter should be them asking him, not him rushing forward, so as not to lower his value.

"Of course, there's no problem."

"We can publicly declare that you were originally an elder of our Zhu Family."

"You went missing for a long time, seeking to breakthrough."

"Now that you have broken through to the Golden Core, you have returned to the Zhu Family."

"Anyway, besides our Zhu Family, outsiders cannot know the truth."

"The Divinity Transformation Zhao Family won't care about such a small matter."

"To them, as long as we have a Golden Core Zhenren, and pay taxes on time every year, it's enough."

Great Elder Zhu Bin of the Zhu Family immediately said happily. He could tell that this mysterious Golden Core Cultivator seemed to have the intention to agree, so he hurriedly shared his plan to disguise him as a long-lost elder of the Zhu Family.
