Chapter 464: Calamity Reappears, Skilled Level Profound Turtle Talisman_2

Even when facing attacks from cultivators of the same realm, with the power of the Profound Turtle Talisman, it could still be easily defended against.

This also gave Jiang Fan a tremendous sense of security.

It's as if wearing a layer of armor.

Even when facing a barrage of bullets and arrows, he remained unafraid.

"Also, the Cloud Dream Tracing Talisman and the Five Elements Array-Breaking Talisman have also been elevated to the proficient level."

Clearly, over the past six months, Jiang Fan's cultivation and various skills have advanced by leaps and bounds.

The Cloud Dream Tracing Talisman, reaching proficient level, now has a coverage range expanded to twenty kilometers.

With a mere thought, the vast white fog could envelop an area of twenty kilometers.

It could be said that such a range is already quite impressive.

Once an enemy approaches the fog range, they would immediately be detected by him, and such power is comparable to an ordinary Tier Three defense array.

Of course, on Zhu Family Island, with the protection of a Tier Three array, he didn't need to use the power of the Cloud Dream Tracing Talisman.

Only during seclusion would he employ this talisman for double protection.

The Five Elements Array-Breaking Talisman has also been elevated to the proficient level.

At the proficient level, the Five Elements Array-Breaking Talisman could already break Tier Three arrays.

If he was within a Five Elements type array, it could easily be dismantled by him.

Naturally, the rapid improvement in the proficiency of Jiang Fan's Life Talismans was primarily due to the massive expenditure of Luck Points, and also because he had advanced to the Golden Core Realm.

With this, the difficulty in cultivating these Life Talismans decreased significantly.

Boom~~

Thinking of this, Jiang Fan's heart moved, and he immediately opened the virtual panel on his body.

[Name: Jiang Fan]

[Life Chart: Great Blessings Equal to Heaven, Attribute: Even enduring great difficulties, there will always be fortune afterwards]

[Lifespan: 6000]

[Spirit Root: Celestial Spirit Root]

[Luck Points: 240,000]

[Realm: First-Layer Golden Core (70%)]

[Profession: Tier Three Low-grade Rune Master (12%)]

There is no doubt that compared to six months ago, various abilities on his body have improved significantly.

Not only did the proficiency of the Life Talismans increase so much, but even the realm of Talisman Master advanced to the level of Tier Three Low-grade, meaning he is already a Tier Three Rune Master, capable of casually creating a large number of Tier Three Talismans.

Of course, the consumption of Luck Points was also astonishing.

Currently, he only has 240,000 Luck Points left.

However, he believes it's worth it.

After all, this is considered using it on the edge of a blade, and if it can enhance his various abilities, then spending more Luck Points doesn't matter; he can always earn them back.

Especially after becoming a First-Layer Golden Core cultivator, his speed of gaining Luck points also became increasingly fast.

This is the essence of the strong growing stronger.

"Ancestor."

At this moment, a cultivator from outside walked in, and it turned out to be the Great Elder Zhu Bin; the other party had a panicked expression, as if something extraordinary had happened.

However, when facing Jiang Fan, his manner remained exceptionally respectful.

The reason for such a transformation was undoubtedly due to the Perfection Level Bewitching Talisman.

Over the past six months, Jiang Fan has integrated the Bewitching Talisman into the Zhu Family's Foundation Establishment cultivators and Qi Cultivation Stage cultivators.

Under the influence of the Perfection Level Bewitching Talisman, they became loyally devoted without realizing it.

This even happened subtly without them being aware of it.

Now, they genuinely believe that Jiang Fan is an external breakthrough successful Golden Core cultivator of the Zhu Family.

This, of course, is a great advantage for both Jiang Fan and Su Weiwei.

Previously, these Zhu Family cultivators superficially obeyed Jiang Fan, but in reality, often greatly discounted his orders, sometimes even procrastinating and being feignedly compliant.

But ever since being controlled by the Bewitching Talisman, each one has been loyal, and their work efficiency has greatly improved.

It can be said that the entire Zhu Family has been crafted to be as impregnable as an iron wall by him.

This period marks the unparalleled strength of the Zhu Family.

"What's the matter?"

Jiang Fan inquired.

"Profound Ginseng Island has been attacked by hundreds of Tier Two Demon Beasts."

"Currently, Zhu Yin and others are on Profound Ginseng Island, activating the Tier Two array, struggling to hold on."

"I'm afraid they won't be able to hold on much longer."

"We hope the Ancestor can go to their aid."

The Great Elder Zhu Bin spoke.

There's no doubt that this is a considerable crisis for the Zhu Family.

The so-called Profound Ginseng Island is actually a Tier Two island controlled by the Zhu Family, where a large number of Profound Ginseng is grown, some of high quality comparable to Tier Two Spirit Medicine, of considerable value.

Even Spirit Medicine and Spirit Rice are cultivated on this island.

It can be said to be a critically important economic source for the Zhu Family.

If this island is breached, it would be an immense blow to the Zhu Family.

More importantly, the cultivators on Profound Ginseng Island are also Zhu Family cultivators.

If they perish, the Zhu Family would have no idea how long it would take to train replacements.

"Why would Profound Ginseng Island be suddenly attacked by so many demon beasts?"

Jiang Fan squinted his eyes, instinctively sensing something was off about this matter.

"I am not entirely sure either."

"But recently, sea beasts and demon beasts in the surrounding seas have indeed been restless."

"Our Zhu Family's caravans have often been assaulted by demon beasts when they venture out."

"It seems that such incidents have become more frequent lately."

The Great Elder Zhu Bin shook his head, also not knowing why so many demon beasts would target Profound Ginseng Island.

This is something that has never happened before.

Hundreds of Tier Two Demon Beasts are simply too terrifying, and no one apart from a Golden Core cultivator could resolve this.

Boom~~

At this moment, the Fortune-Telling Talisman deep in Jiang Fan's Dantian and Sea of Qi suddenly vibrated, and a surge of information instantly flooded into the depths of Jiang Fan's consciousness.

"Profound Ginseng Island under attack, conspiracy unfolds, killing intent lurking, handle with care, fortune and misfortune depend on the person."

"Going to Profound Ginseng Island to aid, might encounter an attack, but can overcome the danger and obtain a Sixth-Grade Opportunity, minor fortune."

"Staying on Zhu Family Island, not aiding Profound Ginseng Island, may leave a hidden danger, gaining nothing, minor misfortune."

Perceiving this information, Jiang Fan touched his chin.

Evidently, he only has two choices regarding this matter: to go, or not to go.

There is no doubt that this matter is indeed a conspiracy.

Someone wants to use the matter of Profound Ginseng Island to ambush him.

But the other side clearly underestimated his strength, as they are entirely no match for him.

So for him, being attacked by the enemy may not be a bad thing.

He might even lure the enemy out and catch them all in one go.

But if he chooses not to go, naturally, he will not be hit by the enemy's attack, and the enemy's plot cannot succeed.

However, this would result in all Zhu Family cultivators on Profound Ginseng Island perishing, causing significant losses to the Zhu Family.

More crucially, he still wouldn't know the identity of the mastermind in the shadows.

And this would leave him with a latent danger.

After all, there's never been a case of a thief who never stops, nor of a guard who always prevails against them.

Of course, if the enemy were overly powerful, he naturally wouldn't foolishly step into a trap.

The problem is that the enemy evidently isn't more powerful than him.

Thus, he could indeed turn the tables.

He might even follow the clues to capture all the masterminds behind the scenes.

To see exactly who is targeting him and the Zhu Family.

"Understood, we will proceed to Profound Ginseng Island."

Jiang Fan nodded.

"Yes, Ancestor."

Upon hearing this, the Great Elder Zhu Bin was overjoyed. With the Ancestor choosing to act, the group of Tier Two Demon Beasts clearly would not be a match for him.

As long as the Zhu Family cultivators on Profound Ginseng Island can hold on for a while, there will be no safety concerns.

After all, the gap between Tier Two and Tier Three is vast.

It's impossible to quantify with mere numbers.

Whoosh!

In an instant, Jiang Fan's figure flashed, using the power of the Light Body Talisman, flying towards Profound Ginseng Island.

In fact, the distance between Zhu Family Island and Profound Ginseng Island isn't very far.

At his speed, he could quickly reach the vicinity of Profound Ginseng Island.
