

## Fortune 466

Chapter 466: Obtain Sixth-Grade Opportunity, 120,000 Destiny\_2

Without a doubt, this unfamiliar Golden Core Zhenren must be Zhu Jun, the newly promoted Golden Core of the Zhu Family.

Because in this sea area, the number of Golden Core Zhenren is still small.

Aside from the Zhu Family's Golden Core, it is utterly impossible for any other Golden Core Zhenren to exist.

"Not bad, it seems our plan is going smoothly."

"Then stop the chatter."

"Let's strike together and kill this beast."

At this moment, Golden Core Zhenren Zhang Tong felt very satisfied. He didn't expect his plan this time to be so smooth. This Zhu Family Golden Core was so foolish; he merely used a small trick and managed to lure the other party out.

However, the opponent probably wouldn't know he was calculating against him, so letting his guard down is also quite normal.

The chance to assassinate the other party is likely just this one time.

If he misses this chance, there might not be a second one.

Boom~~

In an instant, Zhang Tong and Wei Zi, the two Golden Core Zhenren, exchanged glances, and without another word, both locked onto the aura of this Zhu Family Golden Core Zhenren and took out their lower-grade spiritual artifacts.

The two activated the enormous Golden Core Spiritual Power within them, immediately launching an attack towards this Zhu Family Golden Core Zhenren.

These two forces were indeed incredibly terrifying; an attack like this, a Golden Core Zhenren of the same rank would basically be unable to withstand.

They were also using every ounce of their strength, determined that this attack would succeed.

They were convinced the opponent would not be able to fend it off.

Dong~~~

But at this moment, two layers of Spiritual Energy Shields immediately appeared automatically on the body of this Zhu Family Golden Core, resembling the shell of a Profound Turtle, densely covered with Profound Turtle Runes.

Moreover, each layer of Spiritual Energy Shield was extremely thick and exceptionally hard.

As if a Profound Turtle's shell had manifested in the world.

Also, it was 360 degrees without any blind spots.

When the two Golden Core Zhenren's forces struck this Profound Turtle Shield, it was as if they were caught in quicksand.

All attacking power was devoured cleanly.

Not to mention killing this Zhu Family Golden Core, breaking this Profound Turtle Shield was simply impossible.

"Impossible, what kind of defense technique is this? How can it be so strong?"

"When did the Zhu Family master such a magical tradition?"

Upon seeing this, Golden Core Zhenren Zhang Tong was instantly dumbfounded. Previously, he had considered many unexpected incidents but never imagined this one; this Zhu Family Golden Core managed to block his assassination just by virtue of a defense technique.

Their attack was like scratching an itch to this Zhu Family Golden Core.

In an instant, he realized there was a major problem with his assassination plan.

This Zhu Family Golden Core's power was more terrifying and formidable than imagined.

"Damn, this guy is not an ordinary Golden Core Zhenren."

Golden Core Zhenren Wei Zi's expression changed dramatically.

He had also been hunted by many Noble Families' Golden Core Zhenrens before, so he had researched various Golden Core Zhenrens' powers.

However, this Zhu Family Golden Core in front of him, even though the opponent had not yet started counterattacking, he could still sense the opponent's abyss-like power, simply unfathomable.

Such a person is definitely not someone the Zhu Family could cultivate.

Without a doubt, this time they had indeed kicked an iron plate.

As a fugitive chased for many years, he immediately wanted to escape.

Faced with such a mysterious enemy, he didn't want to entangle with the opponent even for a second.

"Dare to attack me? You are quite bold."

"If that's the case, then go die."

Evidently, the attacked Golden Core Zhenren was Jiang Fan, but he had already foreseen enemies plotting to assassinate him using the Fortune-Telling Talisman, so he had prepared in advance.

Nevertheless, the Skilled level Profound Turtle Talisman still pleasantly surprised him.

Facing the attack of the two Golden Core Zhenren, he effortlessly blocked it.

Not even one layer of the Profound Turtle Spiritual Energy Shield was broken by the opponent.

This proves the immense power of the Profound Turtle Talisman, definitely able to rank among the Golden Core level magic.

But as for these two enemies attempting to assassinate him, he wouldn't show any mercy.

Swoosh!

Instantly, Jiang Fan took out the Ancient Demon-Vibrating Bell from his body, needing to go all out facing the two Golden Core Zhenrens, giving the enemy no chance to retaliate.

The vast Primordial Spiritual Power within him poured into the Demon-Vibrating Bell.

Suddenly, the Demon-Vibrating Bell appeared above his head, starting to shake continuously.

Clang~~ Clang~~~

In an instant, a terrifying Power of Sound Waves burst forth, sweeping in all directions, covering an area of tens of kilometers.

This Power of Sound Waves transformed into visible ripples, causing a horrifying earthquake in the sea area, containing destructive power.

Compared to before, the destructive power had increased by more than tenfold.

Undoubtedly, the Demon-Vibrating Bell's destructive power was so formidable because of Jiang Fan's cultivation improvement.

After he promoted to the First-Layer Golden Core, he could activate more of the ancient treasure's power.

Both complement each other.

"Escape!"

Zhang Tong and Wei Zi's faces changed dramatically, deathly pale. They could feel the terrifying power of this, which they absolutely could not resist.

Unfortunately, now it is too late to escape, because the speed of the Demon-Vibrating Bell's Power of Sound Waves is so unimaginable.

In just a moment, this Power of Sound Waves struck the bodies of the two Golden Core Zhenren.

Even though they hurriedly deployed defense techniques and activated their Defensive Magic Robe, it was all in vain.

Because this shock wave and Power of Sound Waves easily penetrated their defenses, directly attacking their souls.

Boom~~~

With just one strike, the souls of the two Golden Core Zhenren were shattered, turning entirely into dust.

Blood flowed from their eyes, mouths, noses, and ears.

Their eyes widened, revealing endless fear and disbelief, as if unable to believe as Golden Core Zhenren, they were killed in an instant by the enemy with no chance to fight back.

With a plop, their corpses fell from the sky, crashing heavily onto the sea surface.

Massive amounts of blood flowed out, reddening this sea area.

"The master is truly more and more abnormal."

"Two Early Stage of Golden Core Zhenrens killed so easily, like killing chickens."

The Ten Thousand Transformations Pill Furnace looked at this scene and sighed repeatedly.

It had seen a lot of Golden Core Zhenren, but none like its master's abnormality.

Clearly, he was ambushed by enemies, yet unscathed.

No, not just unscathed but promptly counterattacked, then instantly killed the enemy.

If not witnessed firsthand, who would believe such absurdity.

"Hehe, the master is indeed amazing."

"But without me, the Demon-Vibrating Bell, how could he easily kill two Golden Core Zhenren."

"Can you, this useless Pill Furnace, do such a thing?"

The Demon-Vibrating Bell looked at the Ten Thousand Transformations Pill Furnace disdainfully.

"It's only natural for an attack-type magical treasure to achieve such things."

"Cannot do it would be incredibly shameful."

"However, as a cultivator, the most important is cultivation."

"Only cultivation can lead to enlightenment and longevity."

"Can a Foundation Establishment Cultivator compare with a Golden Core?"

"Therefore, I am the most important magical treasure of the master, you are merely a brute."

The Ten Thousand Transformations Pill Furnace chuckled stubbornly in response.

"A mere Pill Furnace dares to be so arrogant."

"Looks like you haven't been beaten enough."

The Demon-Vibrating Bell was utterly furious, immediately wanting to go over and thump the Ten Thousand Transformations Pill Furnace.

Arguing with this guy was impossible; only a good thump would make it act properly.

But Jiang Fan, with a thought, immediately suppressed the two ancient treasures, causing them to enter sleep.

Otherwise, if they really fought, it would be an unnecessary complication.

Boom~~

At this moment, a message instantly entered the depths of Jiang Fan's consciousness sea: "You encountered an attack from two ferocious Golden Core cultivators, and after a deadly combat, ultimately killed the enemies, narrowly surviving. You obtained 120,000 Luck Points and a Sixth-Grade Opportunity."

Without a doubt, after killing these two Golden Core cultivators, Jiang Fan naturally overcame this disaster.

But he didn't expect the benefits obtained to be so great, receiving 120,000 Luck Points.

Evidently, the Luck Points of these two Golden Core Zhenren weren't small.

However, after killing them, their Luck Points naturally belonged to him.
