

Fortune 467

Chapter 467: Obtaining the Great Wilderness Dragon Ridge, Cultivating the Soaring Snake Technique
Bone Forging Chapter

Whoosh!

Jiang Fan waved his hand, immediately collecting the corpses of two Golden Core Zhenrens, and also obtained the storage bags from their bodies. The wealth of these two Golden Core Zhenrens now completely fell into his hands.

But he didn't have time to explore the treasures inside the storage bags.

Because Profound Ginseng Island was in critical danger at this moment, facing the assault of hundreds of Tier Two Demon Beasts.

His figure flashed, arriving above Profound Ginseng Island.

Golden Core Domain~~

Boom~~

A vast domain enveloped the entire Profound Ginseng Island, and the Tier Two Demon Beasts within the domain were immediately severely injured.

They seemed to be crushed by a gravitational force, unable to move their bodies.

At this moment, terror appeared on their faces; they hadn't expected to encounter an enemy here.

However, Jiang Fan didn't give these Demon Beasts any chance to fight back.

Ten Thousand Swords Return to the Sect Talisman!

In an instant, terrifying Sword Qi erupted, seemingly covering the sky and earth, precisely locking onto the Qi of these Tier Two Demon Beasts, leaving them with nowhere to escape and nowhere to hide.

In just a split second, hundreds of Tier Two Demon Beasts were slain, dying on Profound Ginseng Island.

"Golden Core's fight against Foundation Establishment is indeed a crushing situation."

Seeing this scene, Jiang Fan felt quite emotional.

He recalled when he encountered Tier Two Demon Beasts in the past, he was trembling in fear, not daring to face them.

Those Tier Two Demon Beasts were virtually invincible; a casual strike could kill him.

But now, time has changed.

Hundreds of Tier Two Demon Beasts are insignificant to him, like ants.

"Haha, we won, we won."

"Ancestor has finally arrived."

"My heavens, hundreds of Tier Two Demon Beasts were instantly slaughtered."

"Truly worthy of Ancestor, incredibly powerful."

Originally struggling to hold on, the Zhu Family cultivators were ecstatic seeing this scene.

They originally thought they were doomed, but didn't expect the tables to turn.

This could be described as a narrow escape from death.

Each of them felt immense gratitude towards the Zhu Family Ancestor, their loyalty soaring.

"Do any of you recognize these two Golden Core Zhenrens?"

Jiang Fan waved his hand, activating Spiritual Power, and Spiritual Qi condensed in mid-air, forming portraits of two Golden Core Zhenrens.

After all, he wasn't very familiar with the cultivators of this sea area and needed to rely on the locals' knowledge.

"Ancestor, this one is Zhang Tong from the Zhang Family, and the other is the wanted Golden Core Zhenren Wei Zi."

Someone immediately replied, clearly familiar with these two Golden Core Zhenrens.

Because the former was a mortal enemy of the Zhu Family, and the latter was a notorious wanted criminal.

It was impossible for them not to be familiar.

"No wonder they came to assassinate me."

Hearing this, Jiang Fan nodded, understanding why these two Golden Core Zhenrens schemed against him.

They probably truly thought he was the Golden Core Ancestor of the Zhu Family and therefore plotted an ambush.

This was an unavoidable matter.

Since he intended to control the Zhu Family, he naturally needed to bear the Zhu Family's karma.

He explained the events that had transpired, informing the numerous Zhu Family cultivators.

"No wonder Profound Ginseng Island suddenly encountered so many Tier Two Demon Beasts, turns out it's all Zhang Family's conspiracy."

"Fortunately, Ancestor is formidable and not afraid of threats; otherwise, this would have been a catastrophe for our Zhu Family."

"Damn Zhang Family, they never give up their intent to destroy our Zhu Family."

Many Zhu Family cultivators gritted their teeth and said.

Recalling previous events, each of them was furious and filled with lingering fear.

If their family Ancestor had truly fallen into the trap, then the Zhu Family would have been completely finished.

Potentially, countless Zhu Family cultivators would have tragically died at the hands of the Zhang Family.

"Ancestor, since Zhang Family's Golden Core Zhenren Zhang Tong was slain by Ancestor, we can seize the opportunity to attack the Zhang Family and capture their foundation." One Foundation Establishment cultivator immediately said, implying using their methods against them.

Since the enemy could do the first of the month, they could do the fifteenth.

Other Zhu Family cultivators revealed ruthless expressions in their eyes.

- They clearly knew that being merciful to the enemy is being cruel to themselves.

Boom~~

At this moment, Jiang Fan sensed the Fortune-Telling Talisman deep in his Elixir Field and Sea of Qi vibrating, a message instantly penetrating his Sea of Consciousness.

"Do not pursue desperate enemies, ensure a breach in siege, wait for the opportunity, and fortune will come."

"Singly eradicating the Zhang Family can gain a Fifth-Grade Opportunity, but falling into a quagmire, facing disaster, great misfortune."

"Joining with other families to jointly eradicate the Zhang Family can gain a Sixth-Grade Opportunity, but falling into conflict, minor misfortune."

"Calmly observing the clouds rolling and clouds unrolling, quietly listening to flowers blooming and flowers falling, can gain a Fifth-Grade Opportunity, great fortune."

Perceiving this message, Jiang Fan's eyes flickered; he hadn't expected the decision this time to trigger the Fortune-Telling Talisman, but clearly, eradicating the Zhang Family wasn't such an easy task.

Even though the only Golden Core Zhenren of the Zhang Family had already been slain by him, as a millennium Golden Core Clan, the Zhang Family wasn't easy to deal with. Any carelessness could lead to a downfall.

And the Fortune-Telling Talisman already showed this.

Clearly, the Zhang Family's lair was akin to a dragon's pool and tiger's den, and even entering with his cultivation would be an omen of great misfortune, potentially leading to endless woes while gaining no opportunity.

Of course, if he united with other Golden Core Clans to fight against the Zhang Family, perhaps it could mitigate the disaster and let other Noble Families share the risk for him.
