Chapter 468: Obtaining the Great Wilderness Dragon Ridge, Cultivating the Soaring Snake Technique
Bone Forging Chapter_2

The issue is that this could lead to an uneven distribution of spoils.

In serious cases, it might even provoke enemies from other Golden Core Clans.

So, the third option is the best—do nothing, and still gain a Fifth-Grade Opportunity.

"Is this what they call 'watching the tigers fight from the mountain'?"

"Do nothing and still gain a Fifth-Grade Opportunity? And with no hidden dangers?!"

Jiang Fan smiled faintly. His favorite thing was getting rewards without any effort.

If he could reap the benefits, why take such a huge risk to deal with the Zhang Family?

Undoubtedly, the Zhang Family, having lost a Golden Core Zhenren, would surely become a coveted target for other families.

Even if the Zhu Family didn't take action, other families would.

So, he didn't need to be the one sticking out.

Even if the Zhang Family was really eradicated and their wealth was obtained, it would probably become a thorn in the sides of other Golden Core Clans, attracting more powerful enemies.

Playing the pig to eat the tiger is currently the best choice for the Zhu Family.

Thinking of this, Jiang Fan said, "No need to deal with the Zhang Family, let this matter end here."

"What?"

Upon hearing this, the numerous Zhu Family cultivators were dumbfounded, looking at each other in dismay.

They were completely unprepared for their family's patriarch to suddenly give up such a golden opportunity.

Clearly, having been assassinated by an enemy and nearly losing his life, not retaliating at all was truly perplexing.

However, since this was the patriarch's decision, they had no grounds to argue.

Each could only suppress their urge for revenge.

It was late at night.

Jiang Fan also returned to Zhu Family Island from Profound Ginseng Island, having easily resolved the matter.

Not only did he gain 120,000 Luck Points, but he also obtained a Sixth-Grade Opportunity.

Sitting cross-legged on the ground, he began to examine the storage bags he had obtained this time.

After all, these were the storage bags of a Golden Core Zhenren, containing a Sixth-Grade Opportunity, so he was very eager to see what treasures were inside.

Boom~~

Thinking of this, Jiang Fan sent a thought, scanning the two storage bags.

Immediately, the treasures inside appeared in his sea of consciousness.

"Wait, what is this thing?"

Suddenly, Jiang Fan saw that inside Wei Zi's storage bag was a finger-sized bone, entirely dark gold, covered with densely packed special runes.

Don't be deceived by how it's just a small piece of bone, yet it exudes the aura of a towering mountain.

It was as if a terrifying exotic beast had appeared before him, enveloped in formidable power of the Law Domain.

If it were an ordinary cultivator, they probably wouldn't be able to withstand such an aura and would be crushed instantly.

Thinking of this, Jiang Fan immediately took out the bone to let his ancient treasures identify it.

After all, his numerous ancient treasures had existed for many years, far surpassing his own knowledge.

"Master, this is the Great Wilderness Dragon Ridge."

At this moment, the Ten Thousand Transformations Pill Furnace suddenly exclaimed, "I didn't expect this Golden Core Zhenren to actually possess such a supreme treasure. It's truly incredulous. No wonder he was hunted by so many Noble Families, it was probably because he seized the Great Wilderness Dragon Ridge."

Naturally, it knew that the Golden Core Zhenren Wei Zi was being hunted by many families in the Black Dragon Sea Region, becoming a wanted criminal.

Normally, someone like Wei Zi, a Golden Core Zhenren, would be a welcome guest wherever they went.

He could even establish a Golden Core Clan, dominate an area.

The other party couldn't be foolish. Knowing the deep background of the other side, but still choosing to act.

So the result was obvious, it was to seize precious treasures, so Wei Zi would be willing to pay such a price.

This Great Wilderness Dragon Ridge is such a precious treasure.

"Great Wilderness Dragon Ridge? What exactly is that?"

Jiang Fan asked curiously.

"Master, the Great Wilderness Dragon Ridge is said to come from a dragon's spine."

"Even though it's been washed by countless years, it still retains much spirituality."

"If one can completely refine the Great Wilderness Dragon Ridge and integrate it into the body, they can even acquire some of the characteristics of dragon bones."

"This is simply an unparalleled treasure for body cultivators."

"Besides, refining the Great Wilderness Dragon Ridge not only strengthens the physique but also enhances soul power, and could even endow the soul with some dragon might characteristics."

"Once, a Golden Core Cultivator obtained the Great Wilderness Dragon Ridge and became an extremely powerful Tier Three Body Cultivator, even mastering a powerful Golden Core Domain, being an invincible presence in the Golden Core Realm."

"Previously, I was doubting whether the so-called Black Dragon Sea Region truly had a black dragon. Now it seems this sea region may have really been ruled by a black dragon, hence treasures like the Great Wilderness Dragon Ridge could appear."

The Ten Thousand Transformations Pill Furnace was full of marvel.

It felt its master's luck was simply extraordinary.

It was just casually slaying one or two Golden Core Zhenren, yet acquired such a treasure from them.

This was something countless cultivators dreamt of.

But its master obtained it effortlessly.

"Master indeed has unparalleled destiny."

"After obtaining the Great Wilderness Dragon Ridge, Master's Soaring Snake Technique might rise to another level."

"The progress will also be faster than before; it might even soon reach Tier Three Middle Stage for body cultivation."

The Demon-Vibrating Bell was also thrilled.

It felt its master's fortune had become more and more prominent after advancing to the Golden Core.

Other cultivators face slower cultivation speeds after reaching the Golden Core.

But its master seemed carefree in this aspect and continued to progress rapidly.

"Breaking through the Soaring Snake Technique again?"

The Primordial Talisman Pen was stirred within.

To be honest, it knew how miraculous the Soaring Snake Technique was in ancient times; it's a True Spirit Technique.

Rumor has it that if one successfully cultivates the True Spirit Technique, they can obtain the True Spirit Bloodline.

They might even gain the talents and lifespan of a True Spirit.

Unfortunately, few can successfully cultivate a True Spirit Technique.

It's said that in ancient times, True Spirit Techniques suffered from divine retribution, becoming fragmented and impossible to fully restore.

Even the Primordial Talisman Sect only acquired the Introduction and Qi Cultivation Chapters.

But now, its chosen successor not only found the Foundation Establishment and Golden Core Chapters.

He even advanced his body cultivation realm to Tier Three Early Stage.

This was truly shocking.

To be honest, its successor's talent in body cultivation seemed more extraordinary than in talisman cultivation.

Could it be that the Primordial Talisman Sect's inheritance was holding him back?

If he focused solely on becoming a body cultivator, wouldn't his cultivation speed be even faster?!

"It's indeed a good thing."

Hearing this, Jiang Fan's eyes brightened.

Although the Black Dragon Sea Region is fraught with danger, even housing Divinity Transformation Clans.

Given his current strength, he couldn't run rampant in this sea region.

With slight carelessness facing powerful enemies, he might perish.

But undeniably, this sea region is full of opportunities and treasures.

If he could endure many tribulations and gain numerous opportunities, his growth would surely be swift.

"The Soaring Snake Golden Core Chapter is actually the Bone Forging Chapter."

"To fully succeed in cultivation, 207 bones need to be inscribed with the Soaring Serpent Rune."

"Now having obtained the Great Wilderness Dragon Ridge."

"If it can be fully refined, it will improve the quality of one's bones."

"That way, the probability of inscribing the Soaring Serpent Rune will be higher."

Jiang Fan clenched his fist.

Obviously, the cultivation difficulty of the Soaring Snake Golden Core Chapter is high; to successfully inscribe the Soaring Serpent Rune on bones, the bones must be extremely resilient and solid.

Otherwise, the bones wouldn't withstand the power of the Soaring Serpent Rune and would shatter.

Thus, to successfully inscribe a Soaring Serpent Rune, one needs to continuously temper each bone.

So the bones reach the stage of flawless jade bones.

Initially, fully cultivating the Soaring Snake Golden Core Chapter required consuming large amounts of Spirit Medicine.

But now he has obtained the Great Wilderness Dragon Ridge, if refined, he can temper his bones early, enabling them to withstand the power of the Soaring Serpent Rune.

Indeed, this is a great opportunity for him.

Rumble~~

Thinking of this, Jiang Fan sat cross-legged on the ground, and immediately began refining the Great Wilderness Dragon Ridge.

The thumb-sized bone then merged into his body.

Immense Primordial Spiritual Power within him tried to melt it completely into drop after drop of dark golden liquid.

If successful, he could fully digest the special substance within, strengthening his bones.
