Chapter 469: The Zhang Family is Annihilated, Gaining a Fifth-Grade Opportunity

In the blink of an eye, another three months passed.

On Zhu Family Island, in a quiet chamber.

Boom~~

An invisible pressure spread out, enveloping an area of hundreds of kilometers.

Any cultivator that approached this area felt a terrifying pressure, rendering even their spiritual power unable to circulate.

Weaker cultivators would be shocked into unconsciousness.

This area became forbidden to the Zhu Family.

"Is this the place where our ancestor is in seclusion? I didn't imagine that within just a hundred kilometers, such pressure could be felt."

"It is said that three months ago, Ancestor Zhu Jun killed two Golden Cores, eliminating great threats for our Zhu Family. Such power is truly astounding, shaking the heavens and earth."

"Indeed. Luckily, he is our Zhu Family's ancestor. If he were a Golden Core Zhenren from another family, our Zhu Family would have been doomed. Our family's current prosperity is entirely due to the ancestor's merits."

Many Zhu Family cultivators felt this formless pressure, trembling with fear.

At the same time, they also showed a look of reverence.

This was not just reverence for the ancestor, but awe for the Golden Core Zhenren and their power.

No matter what their identity, anyone with such strength is a dominant figure, ruling a region.

At this moment, Jiang Fan sat cross-legged on the ground, a faint Dragon Wei emanating from his body.

After three months of intense cultivation, he finally refined a section of the Great Wilderness Dragon Ridge.

He also integrated the power of the Dragon Ridge into each of his bones.

Now, he had engraved twenty-eight Soaring Serpent Runes into his bones.

Continuing like this, he would soon elevate his Soaring Snake Technique to the Tier Three Middle Stage.

"No wonder Wei Zi couldn't refine the Great Wilderness Dragon Spine despite having it for so long."

"A treasure like this cannot be refined without strong soul power."

At this moment, Jiang Fan opened his eyes, a glint of light deep in his pupils, an aura of terrifying pressure emanating from him.

It seemed with a mere thought, he could stun countless low-tier cultivators.

He now understood why Wei Zi couldn't refine the Great Wilderness Dragon Ridge all this time.

Because it contained a faint trace of True Dragon Thought.

To completely refine the Great Wilderness Dragon Ridge, one needed to constantly eliminate this wisp of True Dragon Thought.

The problem was Wei Zi's soul power wasn't strong enough to do such a thing.

So even after obtaining the Dragon Ridge for so long, he was at a loss.

Ultimately, it ended up benefiting Jiang Fan.

But Jiang Fan was different; his soul power easily rivaled that of a First-Layer Nascent Soul cultivator.

Compared to Wei Zi, he was multiples stronger.

Utilizing this immense soul power, he could naturally eliminate the True Dragon Thought in the dragon spine.

So he effortlessly refined this section of the Great Wilderness Dragon Ridge.

And indeed, it was worthy of being the spine of a dragon.

Despite the passage of time, losing much of its spirituality.

It remained a precious treasure for a Golden Core Zhenren.

After integrating this section of the Dragon Ridge, the hardness of his bones increased several times over.

More importantly, he also gained traces of Dragon Wei.

Which endowed his soul with the power of Dragon Wei.

With a mere thought, he could render enemies unconscious.

Even facing a high-tier cultivator, he could shake their spirit and power.

One could say, this section of the Great Wilderness Dragon Ridge was tremendously beneficial to him.

An all-encompassing enhancement.

Boom~~

Thinking of this, Jiang Fan, stirred in spirit, immediately opened the virtual panel.

Unquestionably, compared to before, his cultivation had increased considerably.

Even in just three short months, he made rapid progress.

This was naturally due to refining the Great Wilderness Dragon Spine.

It not only promoted his body cultivation realm but also enhanced his cultivation.

Clearly, his cultivation progress reached 90%.

It is expected that with more cultivation, he could advance to the Second-Layer Golden Core.

"Luck Points reaching 320,000?"

"With abundant Luck Points, there is indeed abundant security."

Jiang Fan stroked his chin.

He felt his Luck Points were unprecedentedly prosperous.

He gained so many Luck Points by eliminating the two Golden Core Zhenrens, which granted him an immediate 120,000 Luck Points.

However, he spent tens of thousands of luck points to cultivate the Soaring Snake Technique, so now he only had 320,000 left.

But that was more than enough.

With such abundant Luck Points, he could raise the skill level of each of his life talismans to the utmost heights.

Meanwhile, the number of spirit stones he held reached five million.

This wealth was also thanks to the fortunes of the two Golden Core Zhenrens.
