Chapter 471: Zhang Family Annihilated, Obtained Fifth-Grade Opportunity_3

Moreover, these descendants of the Zhang Family might be carrying treasures accumulated over a thousand years.

Among them, there might exist a Fifth-Grade Opportunity.

However, whether it is as he speculated, by midday tomorrow it will become clear.

"Ancestor, what should we do next?"

Many of the Zhu Family Foundation Establishment members looked at Jiang Fan expectantly.

"Since the Zhang Family has been destroyed, we should go and take over their territory."

"I believe no other family can hinder us now."

Jiang Fan spoke.

"Yes, Ancestor."

Everyone was overjoyed.

Although not obtaining the wealth accumulated by the Zhang Family over a thousand years is truly a pity, the Zhang Family controlled many Tier Two Islands as well as Tier One Islands, and these are significant assets.

If managed properly, it could certainly elevate the Zhu Family to a higher level.

.....

By midday the next day.

Jiang Fan silently left the Zhu Family Island, without informing any Zhu Family Cultivator.

After all, the fewer people know about this, the better, or else it could lead to unnecessary complications.

In no time, he found an uninhabited island indicated by the opportunity, surrounded by barren wilderness, the island was lush with vegetation, but filled with numerous wild beasts, with no presence of a Spirit Vein.

And hidden on the island were a group of cultivators.

They were the direct descendants of the Zhang Family who escaped from the Zhang Family Island.

There were also a few Foundation Establishment Elders.

"I never thought our Zhang Family, which has been passed down for a thousand years, would end just like that."

"It's all because of that Zhu Family Golden Core Ancestor; if it weren't for that bastard, we wouldn't be so miserable."

"Indeed, if it weren't for Zhang Tong Ancestor's downfall, our Zhang Family wouldn't be in this situation."

"Having survived and left this time, we must not forget this hatred; if there's a chance, we must take revenge on the Zhu Family and annihilate them completely, burying them along with our Zhang Family."

"You're right; although our Zhang Family lost a lot of territory, as long as we're alive, there's still hope. If anyone among us can ascend to the Golden Core, we can reclaim those islands."

The many Zhang Family cultivators gritted their teeth, full of killing intent.

They hated the Zhu Family's Golden Core Ancestor to the core, wishing to tear him limb from limb.

If they had the chance, they definitely wouldn't spare the Zhu Family's Golden Core Ancestor.

Boom~~~

At that moment, a formless pressure enveloped.

This was the power from the Golden Core Domain.

With just one strike, this group of Zhang Family cultivators hadn't realized what happened, their souls instantly shattered.

This was the power of the Perfection Level Soul-Shaking Talisman.

For Low-Tier Cultivators, it was simply an irresistible deadly divine technique.

Unless one's soul was powerful enough, death was inevitable.

In an instant, this group of Zhang Family cultivators perished, collapsing lifelessly to the ground.

Swish!

The next second, Jiang Fan's figure appeared before the corpses of the Zhang Family cultivators.

He looked at these corpses indifferently, neither happy nor sad.

For a Golden Core Zhenren, killing these low-tier cultivators was truly child's play.

Moreover, to such enemies, he definitely would not be soft-hearted, letting the wolf back into the mountains.

So in one move, he exterminated these remnants of the Zhang Family.

"Is the Fifth-Grade Opportunity here?"

Jiang Fan waved his arm, immediately collecting these storage bags. His spiritual sense swept lightly, and the treasures inside the storage bags were all presented in his consciousness.

He also discovered this Fifth-Grade Opportunity immediately.
