Chapter 472: Acquire Tier Four Spirit Plant, Promoted to Second-Layer Golden Core

"Is this a spirit plant?!"

Jiang Fan took out this Fifth-Grade Opportunity; it was a three-meter-high fruit tree, covered entirely with dense, special runes, exuding a dragon's aura, with every leaf a fiery red, as if condensed from flames.

The moment it appeared, a scorching heat was immediately felt, seemingly capable of burning everything.

"Master, this should be a Tier Four Spirit Plant, Dragon Fire Fruit Tree."

"This is a spirit plant that even Nascent Soul cultivators covet, and I didn't expect to acquire such a treasure."

The Ten Thousand Transformations Pill Furnace exclaimed excitedly.

"Dragon Fire Fruit Tree? What exactly is its use?"

Jiang Fan asked curiously.

"This spirit plant, when planted in a spirit vein, can nurture Dragon Fire Spirit Fruit."

"If a cultivator consumes such Dragon Fire Spirit Fruit, its medicinal power is comparable to any elixir."

"It can also purify the spiritual energy impurities inside a cultivator."

"Furthermore, it has a certain degree of effect on tempering the physique."

"No wonder the Zhang family has an endless stream of Foundation Establishment cultivators, it's probably largely related to this Dragon Fire Fruit Tree."

The Ten Thousand Transformations Pill Furnace exclaimed in awe.

It completely didn't expect just a Golden Core clan to have taken out a Tier Four spirit plant.

Previously, in the Southern Continent, finding a Tier Four spirit plant was extremely difficult.

And they were basically always owned.

Who could have thought, in this sea region, even a Golden Core clan possesses such treasures.

It is evident from this that the cultivation resources contained in this sea region far surpass the Southern Continent.

No wonder Divinity Transformation cultivators can be born here.

If those genius cultivators from the Southern Continent were to come here, probably more of them would become Nascent Souls.

"Are the Dragon Fire Spirit Fruits you mentioned these spirit fruits?"

Jiang Fan blinked and took out three fist-sized spirit fruits from the storage bag, they had special flame runes on the surface, seemingly with dragon patterns.

Faintly, even dragon roars could be heard, extraordinarily strange.

"Correct, these are Dragon Fire Spirit Fruits."

"However, they are only equivalent to Tier Three Spirit Fruits, possessing three hundred years of medicinal power."

"If they were truly mature Dragon Fire Spirit Fruits, they would possess at least a thousand years of medicinal power."

"But I estimate the Zhang family could not possibly wait such a long time."

"Most likely, they harvested them before they were mature."

The Ten Thousand Transformations Pill Furnace explained.

Evidently, truly mature Dragon Fire Spirit Fruits require at least a thousand years of growth.

These fruits already belong to Tier Four Spirit Medicine, coveted by Nascent Soul cultivators, their value is priceless.

But for the Zhang family, there is no necessity to obtain Tier Four Spirit Medicine, and it's impossible for them to wait a millennium.

After all, the entire history of their family is only a thousand years.

So after merely three hundred years of growth, they harvested the Dragon Fire Spirit Fruits.

Still, even so, these are extremely precious spirit fruits for Golden Core cultivators.

Consuming just one can quickly increase the Golden Core spiritual power within.

"I see."

Jiang Fan nodded, only able to say that this really deserves to be a Fifth-Grade Opportunity; it greatly benefits him.

Just these three Dragon Fire Spirit Fruits could greatly increase his cultivation.

Not to mention, if he could plant this Tier Four Spirit Plant in the Exquisite Tower, then in the future, he could continuously harvest Dragon Fire Spirit Fruits, a sustainable cultivation resource.

"There are still so many spirit stones?!"

Jiang Fan continued examining the treasures inside the storage bag; apart from the Dragon Fire Fruit Tree, there were vast amounts of spirit stones, totaling at least five million spirit stones.

It's imaginable how wealthy the Golden Core Zhang family truly is.

Naturally accumulating over a thousand years.

And this is just part of the Zhang family's wealth.

One could say, after dealing with these Zhang family cultivators, he became overnight rich.

Of course, this isn't the usual wealth situation for a Golden Core clan.

Probably the abundant cultivation resources in the Black Dragon Sea Region caused the Golden Core Zhang family to be so wealthy.

If in the Southern Continent, a Golden Core clan likely wouldn't possess so many spirit stones.

Besides spirit stones, there were also many special materials and spirit medicine, etc.

But for Jiang Fan, these aren't particularly rare treasures, so he wasn't especially interested.

Swoosh!

Thinking of this, Jiang Fan immediately destroyed the corpses of these Zhang family cultivators, erasing traces here.

In this way, no one would know he had been here.

Before long, his figure quickly disappeared from this place.

.....

Meanwhile, elsewhere.

The other fleeing Zhang family cultivators also immediately knew of the death of this group of Zhang family cultivators.

After all, they all had information of their own soul lamps.

Once dead, they would know.

"Elder Zhang Hui and the others are dead? The soul lamp extinguished?"

A Foundation Establishment elder's face changed drastically, completely unexpected by this happening.

"Impossible, Elder Zhang Hui and the others had already escaped safely, why did they die so quickly, could someone have set their sights on Elder Zhang Hui and the others?"

Someone was incredulous, originally thinking they had escaped safely, but who could have thought the real escape had just begun, not completely over.

"Without a doubt, someone targeted Elder Zhang Hui and the others, otherwise they wouldn't have been killed just after leaving, and those people knew Elder Zhang Hui had the Dragon Fire Fruit Tree, likely an unseen force was watching our Zhang family before." The Foundation Establishment elder said, gnashing his teeth, feeling chills all over.
