

Fortune 474

Chapter 474: The Battle of Divinity Transformation, Calamity Strikes Again!

Boom~~

In an instant, Jiang Fan consumed a large amount of Luck Points, and a mysterious energy infiltrated deep into his soul.

This also led him into a state of epiphany.

It was as if, at this moment, he appeared in a void space, continually comprehending the Dragon Vein House Charm.

The Primordial Golden Core deep in his Elixir Field and Sea of Qi began to slowly rotate.

Magical inscriptions were etched onto its surface.

For Jiang Fan, inscribing the Life Talisman was as easy as pie, with absolutely no hindrance.

Three days and three nights passed in a flash.

When the final inscription was completed, an additional talisman appeared on the surface of the Primordial Golden Core, which was the Dragon Vein House Charm.

Immediately, this talisman emitted a golden glow, as though a True Dragon was hidden within.

Then it flew out from the depths of his Elixir Field and Sea of Qi, roaming above Jiang Fan's head, excitedly roaring.

"It's done."

Jiang Fan opened his eyes and sensed an additional Life Talisman on his Primordial Golden Core, with the talisman's power completely under his control, as if it were a part of his body.

With just a thought, he could activate this talisman, unleashing amazing power.

"Let's test the power of this talisman."

With that thought, Jiang Fan immediately activated the Dragon Vein House Charm, and instantly it emitted an endless golden light, a golden giant dragon flew out and merged into the spirit vein.

The next moment, the entire Tier Three Spirit Vein started to tremble and buzz, akin to a small earthquake.

It seemed, at this moment, the entire Tier Three Spirit Vein came to life, as if it had been endowed with spirituality.

Like a giant dragon coiled in the depths of the spirit vein, easily controlling every bit of Spiritual Qi in the vein.

"This."

Jiang Fan sensed the Dragon Vein House Charm had merged into the deepest part of the Tier Three Spirit Vein, transforming into the controlling dragon of the vein. Through the power of this talisman, he could easily command all Heaven and Earth Spiritual Qi in this area.

If he wished, not a trace of Spiritual Qi would escape, and other cultivators would not gain any Spiritual Qi.

Of course, he wouldn't do that now.

Additionally, an invisible barrier enveloped Zhu Family Island.

This was the Barrier Power from the Dragon Vein House Charm.

During normal times, this invisible barrier had no effect.

But once faced with danger, a Tier Three Barrier would immediately appear to block enemy attacks.

If confronted with evil creatures like demons, this talisman would restrain them.

It could easily suppress and eliminate these demons and evil spirits.

"The Dragon Vein House Charm is indeed remarkable."

"If its power is combined with the Cloud Dream Tracing Talisman, it won't be as simple as one plus one."

"The fusion of these two talismans' power would definitely rival a Tier Three Defense Array."

Jiang Fan clenched his fists, feeling quite satisfied.

After all, with these two Life Talismans, he wouldn't have to worry about surviving in the wild in the future.

No matter if he randomly found a spirit vein without the protection of an array, he could still go into seclusion and cultivate.

He wouldn't have to worry about enemy disturbances.

"No way, it succeeded in comprehending the Dragon Vein House Charm just like that?"

"And it took so little time to inscribe it successfully and become a Life Talisman."

At this moment, the Primordial Talisman Pen also sensed this scene, deeply shocked.

No one understood better than it how difficult it was to successfully inscribe a Life Talisman.

Moreover, the more complex a talisman is, the harder it is to inscribe.

Even for a supremely talented person, spending years, even over a decade, is quite normal.

But this lad surprisingly didn't even need a full day and successfully inscribed a Life Talisman.

If this happened in the old Primordial Talisman Sect, he would definitely be considered a peerless genius.

Even the founding ancestor of the Primordial Talisman Sect wouldn't be this impressive.

Now it knows just how terrifying this lad's comprehension and talent truly are.

No wonder he ascended to the Second-Layer Golden Core so quickly, he truly is a monster.

...

A few days passed.

Jiang Fan thoroughly consolidated his Cultivation at the Second-Layer Golden Core.

To celebrate his advancement, he spent a tender day with Su Weiwei.

The two harmonized Yin and Yang, reaching a state of perfect blending.

This was immensely beneficial for Su Weiwei, helping her Cultivation progress significantly.

"How have you been at Zhu Family Island recently?"

Jiang Fan embraced Su Weiwei's perfect delicate body. After advancing to the Foundation Establishment Realm, Su Weiwei's physique had become even more flawless, with graceful curves, smooth skin, and natural beauty.

Her every move, every smile, exuded alluring charm and infinite appeal.

Of course, her Cultivation progress was also rapid, she was already a Second-Layer Foundation Establishment cultivator.

Meanwhile, she cultivated a large number of Six-winged Poison Bees.

In terms of combat power, she was even stronger than the true disciples of Nascent Soul Sect.

Though now, on Zhu Family Island, she didn't need to personally engage.

"The experience here is quite good."

"After all, it is a Tier Three Spirit Vein, as if living in a Golden Core Sect."

"Moreover, the surrounding Cultivation Resources are quite abundant."

"Better than the Yiling Island Group."

Su Weiwei smiled.

After all, Jiang Fan controlled the entire Zhu Family, as Jiang Fan's Dao Companion, she naturally was the matron of Zhu Family.

Other cultivators also showed great respect to Su Weiwei.

Even in the Mortal World, an Empress would likely receive similar treatment.
