

## **Fortune 476**

### Chapter 476: Crossing the Tribulation with Ease, Gaining a Fourth-Grade Opportunity

In the blink of an eye, a few more days had passed.

The demon army indeed launched a massive attack, with a large number of demon beasts striking.

However, their main targets were still those Nascent Soul clans, as their numbers weren't sufficient to cover every human island.

But even so, islands like Zhu Family Island, a Tier Three Island, still received a fair share of attention from the demon beasts.

Even the numerous Tier Two islands governed by the Zhu Family similarly suffered attacks.

"We're doomed, how can there be so many demon beasts?"

"No wonder we've been encountering Tier Three demon beasts, Tier Two demon beasts before; this was just the rehearsal."

"Honestly, our area isn't considered severe; the truly severe battles are happening on the islands of those Nascent Soul clans, reportedly being intensely targeted by the demon army, with more brutal war conditions."

"Isn't that right? We've only been attacked by a small number of demon beasts, so the situation isn't considered dire."

"How can this not be dire? An amount like this of demon beasts is enough to overwhelm us."

The many Zhu Family cultivators were talking nervously, their expressions quite grim.

They looked at the countless demon beasts outside the island, feeling utterly hopeless.

Not a single person could survive faced with such a large group of demon beasts.

Yet now, they could only rely on the island's array, not daring to leave.

Otherwise, leaving would undoubtedly mean becoming food for the demon beasts.

Rumbling~~~

Immediately, a large number of demon beasts began attacking the island.

They seemed to have received orders, instantly going berserk, each fearless in the face of danger.

But right at that moment, the spirit vein of the entire island began to tremble and buzz.

Countless spiritual qi gathered together, shining with golden light, surprisingly transforming into a giant dragon, solidifying, revealing densely packed mysterious runes, like a true dragon emerging.

Roar~~

In an instant, this golden dragon let out a roar, unleashing a terrifying power of sound waves endowed with devastating force; those demon beasts close to the island were caught off guard, with no chance to defend.

One by one, demon beasts were shattered in soul, and their internal organs severely injured.

Many demon beasts suffered casualties, blood flowing like rivers.

"What happened?"

Many Zhu Family cultivators looked at each other, having no idea what had transpired.

"I understand now; previously, the ancestor came to our island and set a mysterious talisman, saying it had some protective power for the island, telling us not to worry about demon beast attacks. But I never expected this talisman to be so powerful, easily killing these demon beasts; the ancestor is indeed incredibly strong."

Someone immediately recalled events from the previous day.

"Unbelievable, what kind of talisman is this that possesses the power to protect the island?"

"The ancestor's cultivation is indeed unfathomable, incredibly strong."

"Enough talking; now it's time to beat the drowning dog."

"You're right; with so many demon beasts, if we kill them all, it'd be immense wealth."

At this moment, many cultivators became excited.

They felt their sense of safety surge.

With the protection of this mysterious talisman, they were safe and secure, allowing them to slaughter these demon beasts at will.

By then, they would undoubtedly earn massively.

Indeed, if it's completely safe, this is a prime opportunity for them to make a fortune.

Instantly, many cultivators became excited and launched a counterattack against the demon beasts.

Undoubtedly, this mysterious talisman was the Dragon Vein House Charm.

Since Jiang Fan learned that war was unavoidable, he prepared in advance, embedding a Dragon Vein House Charm into each island.

In this way, even if the island lacked array protection, the cultivators on the island wouldn't be in much danger.

Unless the demon beasts were too powerful, breaking through the power of the Dragon Vein House Charm, otherwise, there wouldn't be significant issues.

So from now onwards, this talisman has indeed played a crucial role in the war.

...

Several more days passed.

Since defending against the first wave of demon beast attacks, Zhu Family cultivators had slain many demon beasts, which caused the demon beast assault to weaken significantly, no longer daring to attack Zhu Family Island lightly.

This also greatly relieved the pressure on Zhu Family cultivators.

"So many demon beasts?"

Staying on Zhu Family Island, Jiang Fan sensed the surroundings, feeling quite emotional. He perceived the sea teeming with countless demon beasts, extending endlessly as far as the eye could see.

Undeniably, the demon beasts in the Black Dragon Sea Region surpassed even those in the Ten Thousand Beasts Mountain Range.

He had never seen so many demon beasts in his entire life.

But luckily, he was already a Golden Core cultivator, so no matter how numerous these demon beasts were, they weren't a major threat to him.

However, he also knew that previously, it was just the appetizer; the real danger hadn't arrived yet.

After all, in the previous days, only Tier One demon beasts and Tier Two demon beasts were encountered.

But Tier Three demon beasts had yet to appear.

So he remained vigilant against the emergence of Tier Three demon beasts, constantly staying alert.

Boom~~

At that moment, a wave of black demonic wind appeared over the distant sea, revealing two Tier Three demon beasts, along with one Golden Core Human Race cultivator, and a large number of demon beasts.

Clearly, they intended to attack Zhu Family Island.

"Why is there a human Golden Core cultivator?"

Jiang Fan narrowed his eyes, looking at the human Golden Core cultivator wearing a black robe, feeling very puzzled, as normally the human race wouldn't align with the demon race.
