

Fortune 481

Chapter 481: Escape from Zhu Family Island, Great Calamity Breaks Out_2

At the same time, in order to improve the skill level of the Life Talisman, a considerable amount was consumed.

But all of this is worth it.

First is the Ten Thousand Swords Return to the Sect Talisman, its skill level was raised to the Mastery Level, reaching Mastery Level allows him to instantly condense thousands of Sword Qi.

If it were only at the Skilled Level, it could at most condense only hundreds of Sword Qi, so this is a qualitative enhancement.

Once the Ten Thousand Swords Return to the Sect Talisman is activated, thousands of Sword Qi unleashed simultaneously are simply unstoppable.

Even if surrounded by numerous cultivators, he remains calm and unafraid, able to handle it easily.

Also, the Cloud Dream Tracing Talisman has reached the Mastery Level, which expands the mist coverage area to a full fifty kilometers, previously it was only twenty kilometers.

At the same time, its capability to bewilder has grown stronger, even a Golden Core Cultivator within the talisman's range might be confused and completely lose direction.

Of course, the greatest progress is naturally in the recently carved Dragon Vein House Charm.

Although it was just recently successfully carved, due to the war during this period, Jiang Fan has been using this talisman to protect many islands, leading to its skill level increasing at an astonishing pace.

Now it is already at the Mastery Level.

It's fair to say that war promotes the progress of cultivators, without this war, the skill level of the Dragon Vein House Charm wouldn't have increased so rapidly, beyond imagination.

To be honest, a Mastery Level Dragon Vein House Charm is already quite powerful.

If an Entry Level Dragon Vein House Charm only possesses simple defensive and offensive capabilities, the Skilled Level Dragon Vein House Charm can actively attack enemies, and even discern their aura.

And a Mastery Level Dragon Vein House Charm? Once it merges with the Spirit Vein and forms a Spirit Vein Dragon, it can perfectly utilize the Spirit Vein's power, its strength equals any ordinary Golden Core Cultivator.

As long as the talisman's spiritual power isn't depleted, it stands invincible.

If the skill level could be raised to the Great Success Level, the power of the Dragon Vein House Charm would become even more terrifying, able to automatically search for enemies and passively warn of impending threats.

It is said the Perfection Level Dragon Vein House Charm is more formidable, capable of enlightenment of the Spirit Vein to the extent of allowing simple spirituality and wisdom to emerge within the Spirit Vein, even drawing in the destiny of countless beings residing nearby.

Linking the Spirit Vein with the destiny of all living beings.

Thus, if the destiny of living beings continues to increase, it could promote the growth and evolution of the Spirit Vein, causing a transformation.

"The Dragon Vein House Charm is indeed unfathomably mysterious."

"No wonder it was so popular in the Ancient Era."

Jiang Fan felt quite sentimental.

The more he cultivates this Life Talisman, the more he realizes its wonders, endlessly profound.

Of course, improving its skill level isn't easy.

Even during the Ancient Era, cultivators of the Primordial Talisman Sect who obtained this talisman could at most cultivate it to the Skilled Level, very few could reach Mastery Level.

As for Great Success, it was even rarer.

The Perfection Level Dragon Vein House Charm? Even more scarce.

But this also proves the talisman's strength, once successfully cultivated, it's extremely useful.

Swoosh!

After some time, Jiang Fan fully consolidated his cultivation and walked out of the meditation room, only to see Su Weiwei with a worried expression, seemingly something bad had happened.

"Husband, I'm afraid trouble is coming."

Su Weiwei said solemnly to Jiang Fan.

"What trouble?"

Jiang Fan asked, knowing Su Weiwei has been managing the Zhu Family's affairs and is very familiar with various intelligence, surely aware of some bad news.

"Husband, due to the Divinity Transformation Zhao Family's unfavorable battles with the Demon Race, with fierce combat resulting in heavy losses."

"To rally all forces, it's feared the Divinity Transformation Zhao Family will summon other families' Golden Core Cultivators."

"And the Zhu Family is among them."

Su Weiwei said gravely.

Summoning Golden Core Cultivators?!

Upon hearing this, Jiang Fan squinted his eyes, realizing why trouble has arrived.

Honestly, coming to the Zhu Family as a Golden Core Ancestor was to utilize the Tier Three Spirit Vein for cultivation, but he didn't want to take on various obligations.

If truly summoned by the Divinity Transformation Zhao Family, wouldn't that mean becoming a lackey of the Divinity Transformation Clan?!

And with his current strength, against such a formidable clan, he naturally has no ability to resist.

Of course, if any benefits were attained, he wouldn't mind going to battle.

But the greatest fear is becoming cannon fodder for the Divinity Transformation Clan, gaining nothing and instead falling in war.

Yet leaving the Zhu Family would be quite regrettable.

After all, he's been here for quite some time, even transforming the entire Golden Core Zhu Family into an impregnable fortress, and the Zhu Family's development is thriving.

Abandoning such a vast foundation would certainly be too unfortunate.

However, compared to personal safety, any amount of interest truly becomes insignificant.

Boom~~

At this moment, deep within Jiang Fan's Elixir Field and Sea of Qi, the Fortune-Telling Talisman began to vibrate, and a message instantly entered his consciousness.

"Summoned by Divinity Transformation, in the chaos of war, distance offers open skies."

"Staying on Zhu Family Island, faced with Divinity Transformation Clan summons, entangled in the war, a chance at Fourth-Grade Opportunity, but might face peril, caution advised, grave danger."

"Leave Zhu Family Island, head seventy miles northeast to Spiritual Snake Island, a chance at Fifth-Grade Opportunity, auspicious."

"Refuse Divinity Transformation Clan summons, hide on any island in Zhu Family Territory, a chance at Sixth-Grade Opportunity, but dangers abound, lurking killing intent, ominous."

Sensing this message, Jiang Fan's eyes flickered, according to the Fortune-Telling Talisman's hint, if he remains on Zhu Family Island, he not only wouldn't gain significant benefits but might encounter calamity.

There's no doubt, the Zhao Family's summons from the Divinity Transformation Clan is mandatory, no family is allowed to reject, otherwise, that defiance of the clan's authority would almost guarantee death.

If he refuses the summons, it would mean opposing the Zhao Family from the Divinity Transformation Clan, which is pure suicide.

So the only way out is to leave Zhu Family Island and find refuge elsewhere.

Although abandoning Zhu Family Island's Tier Three Spirit Vein is regrettable, there's no other choice.

Compared to personal safety, the Tier Three Spirit Vein is insignificant.

The Cultivation Realm is vast, where can't a Tier Three Spirit Vein be found?

"Spiritual Snake Island, what kind of place is it to possess Fifth-Grade Opportunity?"

Jiang Fan stroked his chin.

Since deciding to leave Zhu Family Island, naturally, he needs to find a good destination.

Otherwise, in the vast Black Dragon Sea Region, randomly choosing a place would be like a headless fly.

A slight mistake could lead to numerous calamities.

Considering the ongoing war between the Human Race and Demon Race, Tier Three and Tier Four Demon Beasts are endlessly emerging.

As a Golden Core Cultivator, his strength seems quite decent.

But if unlucky, encountering a Tier Four Demon Beast comparable to a Nascent Soul Cultivator would still mean death.

Fortunately, the Fortune-Telling Talisman provided him a hint to head to Spiritual Snake Island.

Though he doesn't know what kind of place Spiritual Snake Island is, obviously opportunities exist there.

Moreover, leaving now also avoids a calamity, making it a win-win.

Thinking of this, Jiang Fan said to Su Weiwei, "In that case, let's leave Zhu Family Island, after all, this place is just a temporary sanctuary for us."

Although it feels a bit unfair to the Zhu Family, during this time, he has protected the Zhu Family from many disasters, preventing many Zhu Family cultivators from dying, fulfilling his duties.

Thus, both sides are mutually indebted.

"Mm."

Su Weiwei nodded, she also thinks the same, such treacherous war, she and her husband certainly can't be involved, the fate of the cultivators in this region has little connection to them.

No way would they be dragged down together.

Even if they joined the war, it wouldn't change the course of the war.
