Chapter 484: Obtaining the Soaring Snake Nascent Soul Chapter, Great Harvest

"Elder Fu, your power truly is extraordinary."

At this moment, Jiang Fan communicated with the Primordial Talisman Pen, not sparing any words of praise.

He felt that aside from the talisman-drawing skill of the Primordial Talisman Pen, the pen itself was an extremely powerful sword, containing a terrifying Power of Sharpness, unmatched even by the edge of a supreme Treasure Sword.

Therefore, he didn't need to activate any other powers of the Primordial Talisman Pen.

The sharpness at its tip alone was enough to tear enemies apart and slay anything.

"It's just a minor trial, that's all."

"Having not acted for many years, the attack power has weakened quite a bit."

The Primordial Talisman Pen was quite pleased but still showed a humble expression.

To be honest, it also felt quite exhilarated.

Although it was merely a minor trial, it marked its first battle after its complete recovery.

Previously, it had been critically ill, in a condition where it could die at any moment.

But now, it was fully healed.

So it reveled in the feeling of unleashing its power.

Unfortunately, the opponents were not strong enough to make it exert its full strength.

Boom~~

At that moment, a message abruptly appeared in Jiang Fan's sea of consciousness: "You have left Zhu Family Island just in time, narrowly avoiding a Death Tribulation, earning one hundred and twenty thousand Luck Points and a Fifth-Grade Opportunity."

Clearly, he had safely passed through a calamity.

And also gained a Fifth-Grade Opportunity.

With this in mind, Jiang Fan waved his hand, storing the Primordial Talisman Pen, and then also placed the corpses of the two Golden Core Zhenrens and their Storage Bags into the Exquisite Tower.

After all, these treasures couldn't be wasted lightly.

Immediately after, he turned to look at the woman beside him, Lu Youyou, and asked, "Who exactly are you? Why are you being hunted by two Golden Core Zhenrens?"

Upon hearing this, Lu Youyou instinctively wanted to lie, but Jiang Fan's voice carried the power of a Perfection Level Bewitching Talisman, causing her to become momentarily dazed and involuntarily speak: "I am Lu Youyou, a direct descendant of the Nascent Soul Lu Family. Because the Nascent Soul Ancestor of the Lu Family exhausted his lifespan and passed away, the family declined and fell apart, hunted by enemies.

To preserve the Lu Family's lineage, the descendants scattered with the family's legacy, but even so, I was still targeted by two Golden Core cultivators and was chased all the way until I was saved by you, senior."

She began recounting her experiences in great detail.

Originally, she was a direct descendant of the Lu Family in the Black Dragon Sea Region, living a worry-free life with a bright future.

No one could have imagined that the Lu Family's pillar would suddenly fall, yet the family had no successors.

The massive Nascent Soul Clan crumbled in an instant.

Enemies of the Lu Family immediately bared their fangs and launched attacks on them.

As the saying goes, two fists cannot beat four hands—the Lu Family couldn't resist and fragmented, each fleeing in different directions.

To survive, many Lu Family members fled quickly with family treasures, hoping to stay alive.

And as the cherished granddaughter of the ancestor, Lu Youyou also received one of the most precious treasures.

Who could have imagined that her whereabouts would be exposed, drawing the attention of two Golden Core Zhenrens.

No matter how hard she tried, she was unable to escape.

If she hadn't encountered Jiang Fan, she would likely have faced certain death today.

After saying all this, Lu Youyou was suddenly shocked, not expecting to reveal all her secrets like this, showing an expression of anxiety and fear on her face.

"What are the backgrounds of those two Golden Core Zhenrens?"

Jiang Fan ignored the woman's expression and continued to inquire.

"The two are known as the Black Wind Double Evil, both Golden Core Honored Guest Elders of the Nascent Soul Lei Family."

"I suspect this operation is not unrelated to the Lei Family."

Lu Youyou said through clenched teeth, knowing that the Lei Family had long been enemies of the Lu Family, with countless conflicts between them; now that the Lu Family was down on its luck, the other side would obviously add insult to injury.

It can be said that the Lu Family's tragic fate cannot be separated from the Lei Family.

Clearly, the Lei Family is the Lu Family's greatest enemy, wishing nothing more than to tear them apart.

The issue is that with the Lu Family in its current state, revenge seems impossible in this lifetime.

In fact, similar events occur sporadically in the Black Dragon Sea Region.

Though these Noble Families appear mighty, annihilation can happen in an instant.

This illustrates just how fierce the competition in this sea region is.

Even cultivation families have to tread carefully.

"So, you're carrying a lot of the Lu Family's treasures on you?"

"Show them to me."

Jiang Fan straightforwardly said.

"This."

Lu Youyou's face turned pale. She realized she had just escaped the tiger's den only to enter the wolf's lair. This damn Golden Core Zhenren might have saved her, but wasn't he coveting the treasures on her just like the Black Wind Double Evil?

But now, under the eaves, she had to bow her head.

Especially falling into his hands, if she didn't want to die, all she could do was obediently comply.

"Yes, senior."

With this thought, Lu Youyou immediately offered her Storage Bag with both hands, her face filled with agony.

Though she was a direct descendant of the Lu Family and favored by the ancestor, the truly precious treasures had already been taken by other Golden Core Lu Family members; there was no way they would end up with her.

Of course, even so, the numerous treasures she carried were enough to incite greed in Golden Core cultivators.
