Chapter 489: Easily Crossing the Tribulation, Gaining a Sixth-Grade Opportunity

"It's said there are only three entrances into the Black Dragon Secret Realm."

"Black Scale Island, Longgu Island, and Pine Leaf Island should be those three secret realm entrances."

"If I enter through these conventional entrances, I might get an opportunity."

"But I will surely be targeted by other cultivators."

Jiang Fan's eyes flickered.

He actually understood very well why entering the Black Dragon Secret Realm from these places would be dangerous for him.

The saying 'innocent man with a treasure becomes guilty' rings true.

As a second-layer Golden Core cultivator, he is like an ant compared to those Nascent Soul cultivators.

Not worth mentioning at all.

Once targeted by these high-tier cultivators, if they harbor any malice, then he's certain to die.

So he didn't plan to enter the Black Dragon Secret Realm from these places.

Compared to the safety of his life, any opportunity is a minor matter.

"However, it's possible to enter the Black Dragon Secret Realm through the Gate of the Void."

"This counts as another method of entering the Secret Realm World."

Jiang Fan stroked his chin.

After all, the Gate of the Void is extremely profound; it can transport to any place.

The Black Dragon Secret Realm is indeed powerful, but it can't withstand the power of the Gate of the Void.

However, to transport somewhere with the Gate of the Void requires precise space coordinates.

Otherwise, it becomes random teleportation, and once activated, it's unknown where he will be sent.

But now it seems that this Black Dragon Secret Realm token likely stores the Secret Realm World's token.

If devoured by the Gate of the Void, then naturally, he'll obtain the space coordinates of the Black Dragon Secret Realm.

Thinking of this, Jiang Fan didn't hesitate; he took out the Gate of the Void from his possession.

Instantly, a Bronze Gate appeared right in front of him.

Soon after, he placed the token on the Gate of the Void, which began to tremble as if it had seen something delicious, releasing a stream of void energy and swiftly capturing the token.

In just one second, the Black Dragon token was absorbed into the Gate of the Void, aiding in the healing of its physique.

Boom~~

Suddenly, Jiang Fan's body shook; he received some information from the Gate of the Void, clearly obtaining a space coordinate location after devouring the token.

This location most likely is the Black Dragon Secret Realm.

"It really is possible to enter through the Gate of the Void."

Jiang Fan was immediately delighted, though opening the Gate of the Void this time requires consuming a million spirit stones, but it doesn't matter; if he can obtain treasures from the Black Dragon Secret Realm, then it's all worth it.

Moreover, if he encounters any danger, he can rely on the power of the Gate of the Void to leave immediately.

Swoosh!

Thinking of this, Jiang Fan didn't hesitate; he first left the inner world of the Exquisite Tower, put away the Exquisite Tower, and then opened the Gate of the Void outside.

A large number of spirit stones were swiftly devoured by the Gate of the Void.

In the next second, the portal opened, and Jiang Fan, without hesitation, stepped inside.

...

Meanwhile, the news of the Black Dragon Secret Realm's opening quickly spread throughout this sea area, known by numerous Nascent Soul and Golden Core cultivators.

"What? The Black Dragon Secret Realm has opened? So suddenly?"

"It's not really sudden, though. The opening time of the Black Dragon Secret Realm is never fixed; sometimes it might be hundreds of years, sometimes maybe a hundred years. It all depends on fate."

"The Black Dragon Secret Realm is a Divinity Transformation level Secret Realm World; it used to be the Dragon Palace of the Black Dragon. The opportunities inside are coveted even by Divinity Transformation cultivators, let alone Nascent Soul cultivators and Golden Core cultivators."

"The problem is we are currently at war with the Demon Race; there's no time to enter the Black Dragon Secret Realm now."

"Exactly, if we really did enter the Black Dragon Secret Realm, we might lose our base to them."

"Actually, there's no need to worry about this, because it's not just us wanting to enter the Black Dragon Secret Realm. Do you think those Tier Four Demon Beasts, Tier Three Demon Beasts don't want to enter? For them, this is also a huge opportunity."

"Indeed, this is the case. It's said that the Tier Five Demon Beast Five Poison Flood Dragon had obtained great opportunities in the Black Dragon Secret Realm, enabling it to break through step by step, finally advancing to Tier Five. The opportunities inside are probably even greater for these demon cultivators."

"In this way, we can negotiate, temporarily ceasefire; it's beneficial for both sides."

Various Nascent Soul cultivators were discussing eagerly.

They were also ecstatic about the sudden emergence of the Black Dragon Secret Realm.

Because this Divinity Transformation level secret realm is mysterious and unpredictable, filled with countless opportunities within.

Unknown how many cultivators have benefited from it before.

Even Divinity Transformation Ancestor Zhao Xuan obtained a great opportunity inside, which allowed him to advance to Divinity Transformation.

So many Nascent Soul cultivators naturally wouldn't miss such an opportunity.

Otherwise, if they missed it, who knows how long they'd have to wait.

Moreover, this time entering the Black Dragon Secret Realm isn't limited to Nascent Soul cultivators; even Golden Core cultivators will enter.

After all, this Secret Realm world is truly vast.

Nascent Soul cultivators alone can't possibly explore all of it.

Thus, a large number of Golden Core cultivators are naturally needed to help.

However, it's very unfavorable for loose cultivators.

Especially those lone Golden Core cultivators, if they dare enter the Black Dragon Secret Realm, they basically face a life-and-death struggle.

After all, without the protection of Nascent Soul cultivators, even if they really obtained treasures, they can't take them away.
