Chapter 490: Easily Crossing the Tribulation, Gaining a Sixth-Grade Opportunity_2

The Black Dragon Secret Realm can be said to be the battlefield of major forces, impossible for a loose cultivator to touch.

...

Boom~~

At this moment, Jiang Fan entered the Black Dragon Secret Realm ahead of everyone else.

"Such dense Heaven and Earth Spiritual Qi."

"There must be at least a Tier Five Spirit Vein here."

"Possibly even Tier Five Upper Grade, infinitely close to a Tier Six Spirit Vein."

Just entering the Black Dragon Secret Realm instantaneously, Jiang Fan immediately felt the omnipresent dense spiritual qi, at least a hundred times more than the outside world, like he was bathing in spiritual liquid.

He felt that with just a slight breath, a vast amount of spiritual qi would enter his body.

His cultivation efficiency compared to before increased more than tenfold.

"I was right to come here, truly right."

Jiang Fan clenched his fist.

To be honest, even if he didn't obtain any treasures in the Black Dragon Secret Realm, just soaking in the spiritual qi from the Tier Five Spirit Vein here would already be considered a decent gain.

He felt that if he could bitterly cultivate here for a while, even without consuming any elixirs or spirit medicines, he could naturally advance to the Third Layer Golden Core.

Undoubtedly, this place is simply a cultivation holy land.

"Are those Divinity Transformation Sects and Divinity Transformation Influences always eating this well?"

"No wonder the cultivators from these forces progress rapidly one by one."

"Other forces' cultivators simply can't compare."

Jiang Fan marvelled endlessly, realizing just how enormous the gap between major forces was.

He had previously entered the Yiling Secret Realm, but it couldn't compare to the Black Dragon Secret Realm.

"However, this place seems quite unusual."

At this moment, Jiang Fan began to observe the surrounding environment, his spiritual sense expanding, enveloping everywhere.

He sensed he was amid a primitive forest.

However, the surrounding trees were extraordinarily tall; each was at least a hundred meters, even several hundred meters high, and it required a dozen people to encircle them, yet they might not be able to embrace it.

Ordinary people appearing in this forest seemed to enter a realm of giants.

If it were only this, it wouldn't matter much; more importantly, the depths of the forest were filled with many powerful demon beast auras, intensely thick; this was simply a paradise, even a kingdom of demon beasts.

Moreover, the strength of these demon beasts was extremely powerful.

At least they were Tier Two Demon Beast level, with Tier Three Demon Beasts everywhere.

Occasionally, the aura of Tier Four Demon Beasts could be sensed.

Clearly, this Secret Realm World is quite peculiar, inhabited by countless powerful demon beasts.

"Roar!"

At this moment, a Tier Three Demon Beast deep in the forest seemed to sense Jiang Fan's aura; it leapt lightly, instantly appearing before Jiang Fan.

Its physique was immensely large, like a small mountain, giving a deadly oppressive feeling, its body covered in densely packed black scales, with a purple unicorn on its head, seemingly containing faint dragon might.

"Master, be careful."

"This is a Tier Three Demon Beast Unicorn Dragon-Scaled Beast."

"It's said to contain a trace of dragon bloodline, belonging to dragon-type creatures."

"Its combat power is quite formidable among many Tier Three Demon Beasts."

At this moment, the Ten Thousand Transformations Pill Furnace immediately spoke to warn, having evidently seen many powerful demon beasts.

This Unicorn Dragon-Scaled Beast's strength was quite unusual, not simple at all.

Ordinary Golden Core Cultivators wanting to counter such a Tier Three Demon Beast would generally be impossible.

Boom~~

In an instant, Jiang Fan acted.

Life Talisman — Ten Thousand Swords Return to the Sect Talisman!

During this period, he had already increased the skill level of this life talisman to proficient level, able to condense a thousand sword qis in one go, which was quite a terrifying power.

At this moment, the talisman floated in mid-air, instantly condensing thousands of primordial sword qis around.

Then merged into one, finally forming a sword qi, which was the Union of Thousand Swords.

Dong!

In the next second, this primordial sword qi locked onto the aura of the Tier Three Unicorn Dragon-Scaled Beast, instantly striking out, its speed as fast as lightning, reaching this Tier Three Demon Beast in the blink of an eye.

Just one strike, this primordial sword qi effortlessly pierced through its head.

The originally extremely hard scales before this primordial sword qi were as fragile as tofu.

Couldn't withstand even a second.

With a boom, the Tier Three Unicorn Dragon-Scaled Beast's body was pierced through, split in half, blood sprayed out, spilling across the ground, thoroughly then.

Its corpse collapsed to the ground, kicking up dust everywhere.

Its eyes opened wide, pupils deep in disbelief.

Seemingly not daring to believe it was instantly slain by the enemy.

"Master, are you actually a Sword Cultivator instead of a Talisman Cultivator?"

Witnessing this scene, the Ten Thousand Transformations Pill Furnace was speechless, not knowing what to say.

It had seen many Tier Three Sword Cultivators, but compared to its master, they were merely so.

Yet its master was just a Talisman Cultivator, not having cultivated the Sword Dao.

However, managed to unleash power not inferior to any Sword Cultivators simply by relying on the Ten Thousand Swords Return to the Sect Talisman, highly exaggerated.

"You understand nothing, this is the greatness of the Primordial Talisman Sect."

"If the Ten Thousand Swords Return to the Sect Talisman can be cultivated to Perfection Level, it wouldn't be inferior to any Sword Immortal."

"However, this talisman is also extremely difficult to cultivate."

"Usually, a disciple would only cultivate to Entry Level."

"It's extremely difficult to cultivate to Skilled Level."

The Primordial Talisman Pen was also amazed.

Even though it already knew Jiang Fan's extraordinary aptitude, it didn't expect him to cultivate the Ten Thousand Swords Return to the Sect Talisman to proficient level, equivalent to a Tier Three Sword Cultivator level.

Just because of this, the condensed primordial sword qi could instantly kill a Tier Three Demon Beast.

It couldn't use any words to describe the excellence of this inheritor.

Boom~~~

At this time, Jiang Fan sensed a message entering his conscious sea: "You used the Gate of the Void to enter the Black Dragon Secret Realm, escaping a life-and-death calamity, you gained one hundred thousand luck points, a Sixth-Grade Opportunity."

Undoubtedly, passing through to the Black Dragon Secret Realm, he overcame a tribulation.

"A Sixth-Grade Opportunity?"

"Could it be this spirit fruit?"

Jiang Fan squinted, sensing a valley not far away, where a spirit plant grew, bearing a purple spirit fruit, its surroundings filled with a rich aroma.

Undoubtedly, guarding the valley was the Tier Three Unicorn Dragon-Scaled Beast.

However, the Tier Three Demon Beast had already been slain, naturally, no one could prevent him from acquiring this special spirit fruit.

Swish!

Thinking of this, Jiang Fan waved a big hand, immediately storing the Tier Three Demon Beast's corpse into the Exquisite Tower, then blinked into the valley.

"Master, you've struck it rich."

"This is a Tier Three Spirit Fruit Purple Gold Jade Marrow Fruit, it requires absorbing a large amount of Sun and Moon Yin and Yang Qi to grow."

"For Golden Core Cultivators, this is a top spirit fruit."

"If consumed, it can greatly enhance cultivation, saving cultivation time."

"Its effects are no less than any Tier Three Elixir."

Ten Thousand Transformations Pill Furnace spoke excitedly.

It didn't expect to acquire such a precious Tier Three Spirit Fruit upon entering this Secret Realm World.

After all, this isn't a commonly seen spirit medicine.

Outside, unknown numbers of Golden Core Cultivators would break their heads for the Purple Gold Jade Marrow Fruit, even resorting to murder.

"Oh, talking like this, if able to fully refine the medicinal power of this spirit fruit, perhaps my cultivation can be elevated to the Third-Layer Golden Core realm." Upon hearing this, Jiang Fan's eyes lit up.

Truly deserving of a Sixth-Grade Opportunity, truly worthy of the Black Dragon Secret Realm.

Without venturing elsewhere.

Just arriving at an ordinary Nameless Valley, surprisingly finding the Purple Gold Jade Marrow Fruit.

No wonder even Nascent Soul Cultivators, even Divinity Transformation Cultivators covet this Secret Realm World.

The treasures within contained are overwhelmingly abundant.

However, plentiful opportunities and treasures mean this place is extremely perilous.

Considering the numerous Tier Three and Tier Four Demon Beasts here.

A slight mistake, failing to obtain treasures or opportunities, might lead to dying here.

"Still need to be careful, avoid rash action."

"If opportunities are indeed elusive, cultivating here is also a viable choice."

Jiang Fan's eyes flickered, contemplating his next course of action.
