

Fortune 491

Chapter 491: Advancement to Third-Layer Golden Core

Boom~

At this moment, Jiang Fan sensed the Fortune-Telling Talisman deep within his Elixir Field and Sea of Qi vibrating, clearly indicating that this Life Talisman had also detected the crossroads of destiny.

A message instantly pierced into the depths of his sea of consciousness.

"The journey through the Secret Realm, fraught with dangers, stay calm and collected, and opportunities will come."

"Heading east, you may gain a Fourth-Grade Opportunity, or encounter a Tier Four Demon Beast, a great misfortune."

"Heading west, you may gain a Fifth-Grade Opportunity, or encounter a Nascent Soul Tribulation Cultivator, a great misfortune."

"Heading north, you may gain a Fourth-Grade Opportunity, or be caught in a deadly peril, with only a one-in-ten chance of survival, a great misfortune."

"Heading south, there's a chance to gain a Third-Grade Opportunity, but you may face a chase with no escape, a great misfortune."

"Staying in the Nameless Valley for cultivation, you will gain nothing, get nothing, neutral."

Sensing this message, Jiang Fan blinked his eyes.

This was the first time he saw such a message, four consecutive misfortunes.

It was clear just how dangerous the Black Dragon Secret Realm was.

Indeed, it's perilous at every step, and everywhere there's calamity.

Casually going to any place means a sign of great misfortune, entering an assuredly deadly situation.

One could only say that the Black Dragon Secret Realm is worthy of being a Divinity Transformation level realm, a place not meant for mere Golden Core Cultivators.

In fact, if it weren't for the Fortune-Telling Talisman giving him confidence, he wouldn't dare to step into the Black Dragon Secret Realm.

"Clearly, it's better to stay here for cultivation."

Jiang Fan sighed inwardly.

Although staying in this valley for cultivation will not yield any rewards or opportunities, it is safe and free from any calamities or disturbances.

In fact, from a certain perspective, this is already quite good.

After all, this Secret Realm World has a Tier Five Spirit Vein, making it a Grotto Heaven Blessed Land for cultivation.

A year of cultivation here is equivalent to twenty years of cultivation outside.

Such a cultivation treatment alone is something that many cultivators would fight for.

Moreover, it's not always the case that passing through calamities will yield opportunities or rewards.

Being able to cultivate peacefully like this is indeed remarkable.

"Let's set up this valley."

"After all, this is a temporary cultivation cave mansion."

With a wave of his hand, Jiang Fan stored away the Tier Three Purple Gold Jade Marrow Fruit, then looked around the surroundings, noticing that the valley is encircled by mountains, which obviously makes its location quite hidden.

If a Grand Array were set up, this place could be completely concealed.

In this way, other cultivators and demon beasts would not detect this place.

Cloud Dream Tracing Talisman!

Instantly, Jiang Fan moved his thoughts and set up the Cloud Dream Tracing Talisman in this place.

Centered around his body, a mass of white mist enveloped in all directions, spreading over an area of fifty kilometers, thus covering the entire region in white mist.

Ordinary demon beasts entering this place would be bewildered by the power of the Cloud Dream Tracing Talisman, thereby losing their way.

"I shall temporarily stay here for cultivation."

"I'll explore other places later."

Jiang Fan temporarily decided not to explore other areas of the Black Dragon Secret Realm, as currently his strength is far too weak in this Secret Realm World, barely worth mentioning.

It's better to stay honestly in this place for cultivation.

Of course, if there really is any opportunity, the Fortune-Telling Talisman would remind him.

He believes that as long as he waits patiently, opportunities will eventually present themselves.

...

Meanwhile, Su Weiwei and Lu Youyou, inside the Exquisite Tower, discovered the Tier Three Unicorn Dragon-Scaled Beast's corpse, after all, such a massive demon beast corpse is a tremendous treasure.

If sold, it would be of great value, and any cultivator would covet it.

Simultaneously, the corpse of this Tier Three demon beast was permeating with a fierce evil qi, even forming an oppressive aura.

The air itself was twisted by this evil qi, the oppression almost tangible.

Even a Foundation Establishment Cultivator standing before this corpse would feel immense pressure.

There's no doubt that the strength of this Tier Three demon beast in life was incredibly terrifying.

Yet even so, this beast was slain, its head severed by a single sword stroke.

"My heavens, this guy has slain another Tier Three demon beast."

"Killing a Tier Three demon beast seems as easy as killing a chicken, this is simply too effortless."

Standing beside the corpse of the Tier Three demon beast, Lu Youyou widened her beautiful eyes, full of astonishment.

After all, back in the Lu Family, even a Nascent Soul Clan couldn't always obtain a Tier Three demon beast corpse.

Usually, to hunt a Tier Three demon beast, several Golden Core Cultivators would need to team up, only then it might succeed.

Even then, if careless, the hunt could fail, leading to the Golden Core Cultivator's demise.

Therefore, hunting a Tier Three demon beast is an extremely difficult task.

Unlike this guy, who kills a Tier Three demon beast as easily as a chicken.

"It can only be said that this boy's combat power is too strong, truly invincible among the same rank."

"And this isn't just any ordinary Tier Three demon beast, but a Tier Three Unicorn Dragon-Scaled Beast, a Dragon Beast."

"An ordinary Golden Core Cultivator facing such a Dragon Beast would only face the result of fleeing in panic."

Cloud Fairy sighed as she spoke.

Though this level of strength was nothing for her at her peak, for someone currently at the Golden Core Realm, being able to effortlessly hunt Tier Three demon beasts is already impressive.

If he continues to improve his cultivation, who knows what heights he might reach.

She believes her fortune-telling skills are indeed unparalleled.
