Chapter 502: Skillful Crossing the Tribulation, Obtaining Fifth-Grade Opportunity_2

The many human cultivators were talking animatedly.

They were deeply wary of those demon race cultivators.

After all, over the past few days, they've been engaged in fierce battles with the demon race cultivators, with both sides suffering numerous casualties.

Even some Nascent Soul level cultivators have fallen.

...

Several hours later.

Jiang Fan appeared at Cyan Stone Mountain, having arrived using an Earth Escape Talisman.

After all, using a Light Body Talisman to fly through the air would easily make him a target and possibly attract the attention of other cultivators, thus encountering danger.

However, by burrowing deep into the earth, other cultivators would find it hard to detect his whereabouts.

This indeed was the case.

From his original hiding place all the way here, Jiang Fan was hardly detected by any cultivator, effortlessly reaching the Cyan Stone Mountain as indicated by the Fortune-Telling Talisman.

What appeared before Jiang Fan was a massive stone mountain, entirely composed of cyan stone, with no vegetation growing on it. However, due to the earthquake, cracks had appeared all over the mountain as if it was on the verge of collapsing.

"Wait, is this the Fifth-Grade Opportunity? Could it be a Space Ring?"

At this moment, Jiang Fan focused his gaze and surprisingly discovered an ancient-looking cyan ring nestled within the stone crevices, seemingly hidden there for countless years.

In fact, if not for this earthquake that caused the stone mountain to fracture, it's likely that this Space Ring would not have been exposed, nor detected by him.

And the Second-Grade Opportunity indicated by the Fortune-Telling Talisman was clearly hidden within this Space Ring.

He didn't expect to acquire a Fifth-Grade Opportunity so easily.

Just then, three figures suddenly flew from afar, arriving at Cyan Stone Mountain in the blink of an eye.

These three were indeed three Golden Core cultivators.

Initially, they intended to leave this place, but upon sensing Jiang Fan's presence, they stopped immediately.

Among them, the cultivator in a blue robe had particularly sharp eyes, instantly noticing the Space Ring Jiang Fan had just acquired, a look of greed flashing in his eyes: "This fellow cultivator, the Space Ring in your hand is precisely the one I lost earlier. Could you possibly return it to me?"

Though he didn't know what treasures were inside this Space Ring, since it came from the Black Dragon Secret Realm, it might very well contain valuable treasures.

Even if there were no treasures, obtaining this Space Ring wouldn't be a loss.

"Your lost item? This fellow cultivator must be joking."

Seeing the three appear, Jiang Fan recalled the previous prompt of the Fortune-Telling Talisman, predicting that his acquisition of the Fifth-Grade Opportunity might not come without some disturbances. So this was what it meant?!

Evidently, if he hadn't come to Cyan Stone Mountain, these three Golden Core cultivators would likely have acquired the Space Ring.

He figured his arrival here was just a matter of seizing the opportunity first.

"I'm not joking with you."

"If you're wise, hand over the treasure immediately."

"Otherwise, today you might not be able to handle the consequences."

Another Golden Core cultivator in a black robe sneered, taking a more straightforward threatening stance.

In his eyes, Jiang Fan was alone, and also a Golden Core cultivator.

But there were three of them, which clearly gave them the upper hand.

In the Black Dragon Secret Realm, treasures always belonged to those with strength.

If you don't have the power to protect the treasure, it's bound to be taken away.

"We are Golden Core cultivators of the Divinity Transformation Zhao Family."

"Don't blame me for not warning you."

"Offending us is tantamount to offending the Divinity Transformation Zhao Family."

"Even if you manage to escape with the treasure, the Black Dragon Sea Region will have no place for you."

"You need to weigh the consequences."

The last Golden Core cultivator in white robes revealed his identity, speaking with both soft threat and firmness, hoping to use his family background to intimidate the opponent without a fight.

After all, the opponent was a Golden Core Zhenren, daring to enter the Black Dragon Secret Realm, surely possessed many abilities.

If they really had to fight, even if the opponent wasn't a match for the three, if he set his mind to escape, it would be tough for them to catch up.

Therefore, using his family background to pressurize seemed more practical to make the opponent surrender the treasure willingly.

This method, in fact, was quite effective.

Most loose cultivators wouldn't dare offend the Divinity Transformation Zhao Family, and naturally, when faced with such threats, they would comply obediently.

This was an ingrained impression among many family cultivators in the Black Dragon Sea Region.

Because as long as you needed to live in the Black Dragon Sea Region, offending the Zhao Family wasn't an option.

"Divinity Transformation Zhao Family? You talk too much."

"Dare to rob my opportunity, no matter who you are, you must die."

Jiang Fan coldly looked at the three Golden Core Zhenren, without hesitation, he immediately took out an ancient treasure, which was the Great Sun Buddha Mirror.

The vast Primordial Spiritual Power within his body poured into the Great Sun Buddha Mirror, causing it to emit endless golden light, with the frame displaying dense Great Sun Buddha runes, mysteriously profound and unfathomable.

"This!"

The three Zhao Family Golden Core cultivators turned pale, feeling the mirror's overwhelming destructive aura, making them tremble all over.

They had never expected this Golden Core Loose Cultivator to be so ruthless, merely threatening with a few words, but he intended to kill them mercilessly, which was simply too outrageous.

After all, they previously used the reputation of the Divinity Transformation Zhao Family to intimidate numerous cultivators.

Who would have thought they'd hit a steel plate in front of this guy.

At this moment, they each took out a magical treasure, attempting to resist Jiang Fan.

But Jiang Fan's attack was indeed too fast, leaving no room for mercy.

Armed with the Great Sun Buddha Mirror, he locked onto the auras of the three Zhao Family Golden Core cultivators, then the power of the Great Sun Buddha Mirror erupted explosively, unleashing three beams of golden light.

Moreover, these weren't ordinary golden beams; they were concentrated with True Sun Fire, containing destructive power and terrifying Flame Power.

Boom~~~

Before the three Zhao Family Golden Core cultivators could even react, the force arrived before them, effortlessly piercing through their bodies.

"Oh no."

The three Zhao Family Golden Core cultivators realized their defensive magical treasures were as fragile as paper, unable to resist the power of the True Sun Fire, pierced instantly.

A sharp pain quickly engulfed their entire bodies.

Originally, they intended to let out a horrifying scream, but the True Sun Fire gave them no chance to do so, the flames burst instantaneously, engulfing their entire bodies.

With a thud, a ball of golden flame ensnared them, burning ferociously.

In just a moment, their bodies were reduced to ashes, leaving only remnants.

"No wonder it's called the Great Sun Buddha Mirror; truly powerful."

Jiang Fan held the Great Sun Buddha Mirror, greatly satisfied with its power.

Especially after he'd advanced to the Third-Layer Golden Core, his Primordial Spiritual Power significantly increased.

This way, he could unleash more power from the Great Sun Buddha Mirror.

This was merely a casual trial, yet it instantly slew three Golden Core cultivators, leaving them no chance to fight back, showcasing the might of the Great Sun Buddha Mirror.

As expected, it was a Sect Treasure from the Great Sun Sword Sect.

But previously, falling into others' hands, it was truly undervalued.

Having refined it himself, it finally reattained its former glory.

"This magical treasure is indeed a Sect Treasure too."

The Primordial Talisman Pen was stunned witnessing this, its heart unable to settle for a long time.

As a Sect Treasure, it naturally knew the power of many magical treasures.

And when the Great Sun Buddha Mirror was at its peak, it was truly terrifying, its power capable of burning mountains and boiling seas.

However, Jiang Fan obtaining this Sect Treasure was indeed inconceivable.

Boom~~

But at that very moment, when the three Zhao Family Golden Core cultivators died, three beams of black light instantly approached, harboring resentment, curses, death, and slaughter, seemingly attempting to penetrate Jiang Fan's body immediately.

"Damn it, what's this?"

Jiang Fan's expression changed; he instinctively realized that if he allowed these three beams of black light to touch him, it would undoubtedly lead to immense trouble, potential endless future woes.
