Chapter 510: Internal Conflict in the Divinity Transformation Zhao Family, Great Calamity Approaches_3

But the simultaneous disappearance of the two Divinity Transformation Cultivators likely means they are already dead.

This is a great opportunity for Nascent Soul Cultivators.

If someone can seize this Divinity Transformation Opportunity, then they have hope of becoming the next Divinity Transformation.

No Nascent Soul would possibly give up the chance to become Divinity Transformation.

"If that's the case, will the internal strife of the Divinity Transformation Zhao Family affect the Zhu Family?"

Jiang Fan asked.

He finally found a stable place for cultivation and didn't wish to be forced to leave like this.

However, if it's unavoidable, he wouldn't foolishly stay here either.

After all, the Cultivation Realm is vast; anywhere is suitable for practice, there is no need to stay in the Black Dragon Sea Region.

As long as the power of the Gate of the Void is present, he can cultivate anywhere.

"For now, it hasn't affected the Zhu Family."

"But if the Zhao Family is having an internal strife, it's likely the entire Black Dragon Sea Region will be thrown into chaos."

"Previously, the stability and peace of the Black Dragon Sea Region were due to Zhao Family's suppression."

"Even if the other clans were ambitious, they dared not act too outrageously."

"But if the Zhao Family is troubled, then it's likely every ambitious figure will emerge to vie for power and profit."

"By then, even if our Zhu Family does not seek power and profit, we will be drawn into the whirlpool of war."

Foundation Establishment Elder Zhu Bin said helplessly.

He felt that over the years, the Black Dragon Sea Region has been fraught with calamities.

Finally ending the war with the Demon Race, they saw a glimmer of peace.

Who would have thought the Zhao Family having internal strife, starting power struggles and conflicts?

Facing such dire circumstances, even a Golden Core Clan could not guarantee its survival.

Bang~~

At this moment, Jiang Fan's Elixir Field and Sea of Qi shook with the Fortune-Telling Talisman's vibration, and a message instantly sunk into the depths of his consciousness.

"Heroes vie for supremacy, fires of war rise, Tribulation Cultivators run rampant, proceed with caution."

"Staying on Zhu Family Island means facing potential attacks from Golden Core Tribulation Cultivators; while thrilling, can gain a Fifth-Grade Opportunity, however may leave significant hidden danger, minor misfortune."

"Leaving Zhu Family Island, returning to Ten Thousand Beasts Mountain Range, gains nothing, neutral."

"Reach Nanchong Island at noon tomorrow, prematurely confront Golden Core Tribulation Cultivators, acquire Fifth-Grade Opportunity without future trouble, auspicious."

Perceiving this message, Jiang Fan squinted his eyes, clearly a significant calamity was approaching.

Due to the turmoil of the Divinity Transformation Zhao Family, various ambitious individuals in the Black Dragon Sea Region began to emerge.

Especially those wanted Tribulation Cultivators, undoubtedly taking advantage of Zhao Family's instability, starting chaos everywhere, looting, and scavenging various cultivation resources.

And as the Zhu Family is a Golden Core Clan, naturally it would be targeted by those ruthless Golden Core Tribulation Cultivators.

For those Tribulation Cultivators, the Zhu Family without Golden Core Zhenren is a fat sheep.

"What does this mean, staying on Zhu Family Island may face Golden Core Tribulation Cultivators?"

"But mere Golden Core Tribulation Cultivators are naturally not my opponents, thus it's thrilling but without danger."

"The problem is even if I deal with the Golden Core Tribulation Cultivators, it still leaves significant hidden danger, sowing disaster for the future?"

Jiang Fan's eyes flickered.

Evidently, this calamity is not simple, perhaps the beginning of a series of calamities.

If he resolves the Tribulation Cultivators on Zhu Family Island, it equates to completely exposing himself.

Some mindful individuals would know that Zhu Family Island hides a Golden Core Zhenren.

In this way, the future likely would not be peaceful.

This is truly the key issue.
