

Fortune 511

Chapter 511: Resolve the Catastrophe, Gain Fifth-Grade Opportunity

"To resolve this hidden threat, we must deal with the enemy in advance."

"If we secretly eliminate that Golden Core Tribulation Cultivator, then the calamity will naturally dissipate."

"Other cultivators won't know that the Zhu Family has a second Golden Core Zhenren."

"Thus, my identity won't be exposed."

Jiang Fan stroked his chin; he somewhat understood the message from the Fortune-Telling Talisman.

It must be said that future changes are indeed intricate and complex.

If the wrong choice is made, it will lead to different futures, producing various consequences.

Of course, some of these consequences are extremely dire, while others might bring opportunity.

"Ancestor, what should we do now?"

Foundation Establishment Elder Zhu Bin and others looked eagerly at Jiang Fan, hoping he could make a decision.

After all, the original Golden Core Zhenren Zhu Han has not yet returned.

Currently, only Jiang Fan can oversee the overall situation.

"Don't worry, when the soldiers come, the general will block them; when the water comes, the earth will cover it."

"With me here, there will be no problems for the Zhu Family."

Jiang Fan comforted.

"Yes, Ancestor."

Upon hearing this, everyone was immediately relieved, since the Ancestor has made such a guarantee, there's nothing to worry about.

One by one, they quickly left the place.

"Husband."

At this time, Su Weiwei and Lu Youyou came over from a distance.

Clearly, both of them had heard about the news of the Divinity Transformation Zhao Family.

They were very concerned about the future of the Black Dragon Sea Region, fearing it might affect Zhu Family Island.

"Weiwei, your cultivation is improving quickly; you've actually advanced to the Third-Layer Foundation Establishment."

Jiang Fan, with a thought, sensed Su Weiwei's rapid progress. In just one year, she had reached the Third-Layer Foundation Establishment realm, which was naturally no big deal to him.

But for an ordinary Foundation Establishment cultivator, the progress speed was incredibly fast.

"It's all thanks to Youyou."

"Youyou is a Tier Three Alchemist, capable of refining many elixirs."

"Previously, Youyou refined numerous Tier Two Elixirs, which made my cultivation advance so quickly."

Su Weiwei sighed.

Normally, purchasing Tier Two Elixirs would be quite expensive.

But Lu Youyou, being a Tier Three Alchemist, as long as there are sufficient spirit medicines, can refine the elixirs.

So over the past year, her cultivation had progressed significantly too.

After all, with the aid of elixirs, much cultivation time was saved.

"No, it's purely due to Sister Weiwei's talent."

"Even if there are ample elixirs, without sufficient talent, the efficiency would still be slow."

Lu Youyou said modestly.

What she said was naturally true; elixirs are indeed crucial.

But without strong cultivation talent, the speed of cultivation can't be so fast.

Previously in the Lu Family, she had seen many cultivators.

Even when these Lu Family cultivators consumed many elixirs, they were still as slow as snails.

This sufficiently proves how strong Su Weiwei's cultivation talent is.

If she had stayed in the former Lu Family, she would definitely be a key nurtured direct descendant.

"A Tier Three Alchemist, huh? No wonder you're a descendant of a Nascent Soul Clan; you indeed have a profound heritage."

Jiang Fan deeply looked at Lu Youyou, instinctively sensing that this woman was not simple, perhaps hiding a tremendous secret, but his Fortune-Telling Talisman told him that this woman poses no significant harm to him, instead, she holds a great opportunity, so he kept her.

If there was really harm, he would have eliminated or driven her away long ago.

So currently, it seems this woman indeed has some skills.

After all, with her presence, Su Weiwei's cultivation resources need not be concerned.

For him, it's also somewhat beneficial.

"You're too kind, Senior."

Lu Youyou said very humbly, always feeling a deep apprehension towards this unfathomable man, fearing her secrets might be discovered by him.

If discovered, she might be unable to escape disaster.

Fortunately, she stayed well-behaved and careful, without exposing any flaws.

"You both stay here; I have some matters to attend to."

Jiang Fan said to Su Weiwei.

"Alright, be careful on the road."

Su Weiwei nodded, although she didn't know what her husband was going to do, she was quite accustomed to such things.

Swish!

Jiang Fan's figure flashed and quickly left the place.

.....

Noon the next day.

Following the message of the Fortune-Telling Talisman, Jiang Fan soon arrived at Nanchong Island.

This island is only a few hundred kilometers away from Zhu Family Island.

At the same time, it's just an ordinary Tier One Island, with many mortals residing on it, but very few cultivators, mostly early-stage Qi Cultivation cultivators, as it only has a Tier One Spirit Vein.

Any cultivator with ambition would leave, heading to more high-tier islands for cultivation.

He sat cross-legged atop a mountain peak, silently waiting.

Swish swish!!

At this moment, two unexpected guests suddenly appeared in the distant sky.

Terrifying demonic qi emanated from the two, sending chills down one's spine.

Apparently, their cultivation had reached the Golden Core Level.

"The Divinity Transformation Zhao Family has finally had an internal conflict, unable to attend to other places for a short time, now our Blood Demon Sect is also ready to resurface." a red-haired Golden Core Demon Cultivator said.

As a demon cultivator, they are naturally hunted by everyone.

Especially here in the Black Dragon Sea Region, where the Zhao Family is the absolute ruler; naturally, they won't allow demon cultivators to disrupt the environment here; upon finding demon cultivators, they'd hunt them down worldwide.
