Chapter 513: Resolve the Catastrophe, Gain Fifth-Grade Opportunity\_3

"So they're Demon Cultivators?"

"I didn't expect Blood Demon Sect cultivators to exist in this sea area."

"However, encountering me here marks your death sentence."

Jiang Fan looked calmly at the two Golden Core Demon Cultivators, as an invisible pressure spread out. After advancing to the Tier Three Middle Stage as a Body Cultivator, the power of the Golden Core Domain on him became increasingly formidable.

If he were to encounter Foundation Establishment Cultivators, his Law Domain would immobilize them instantly. Even against Golden Core Cultivators, it would exert a certain degree of suppression.

Boom~~

At this moment, Jiang Fan infused his enormous Primordial Spiritual Power into the Ancient Demon-Vibrating Bell. After all, when dealing with Demon Cultivators, this Magical Treasure proved to be more effective.

Instantly, countless runes on the Demon-Vibrating Bell lit up, radiating ancient, mysterious, and sacred auras, merging together as if ancient scriptures emerged.

Faintly, a Dao sound of exorcism seemed to surface.

Under Jiang Fan's urging, it began to shake, and waves of terrifying Power of Sound Waves surged forth.

Clang~~ Clang~~ Clang~~

This terrifying destructive power swept in all directions, turning the surrounding air into substantial ripples, containing the dreadful Demon-Vanquishing Power.

The next second, this power struck the two Golden Core Demon Cultivators.

"Damn it."

The two Golden Core Demon Cultivators' faces changed dramatically. They originally intended to unleash a massacre in this sea area, blood-sacrificing countless humans to increase their cultivation.

Who would have thought, just upon entering this sea area, a mysterious Golden Core Cultivator awaited them as if knowing they would come, like waiting for a rabbit.

Though they did not know how their whereabouts were exposed, this was not the time to ponder that question.

They operated the Blood Demon Scripture, intending to perform the Blood Escape Technique and flee.

Unfortunately, it was already too late to escape.

Boom~~

With just one strike, the power of the Demon-Vibrating Bell hit the two Golden Core Demon Cultivators, its overwhelming strength shattering their souls with a mere gentle collision, dispersing them entirely.

"How could this be? Did we actually die just like that?"

Before dying, the two Golden Core Demon Cultivators widened their eyes in disbelief that they perished so quickly.

Unable to withstand even a second, all their defensive measures proved futile.

They had intended to continue advancing to become Nascent Soul Demon Cultivators.

How could they encounter such a terrifying Golden Core Cultivator here?!

Why did this happen?!

With a thud, despite their unwillingness, nothing could be done. The life force within them vanished entirely, leaving behind two corpses that fell from the sky and crashed heavily onto the ocean below.

"Demon Cultivators, must be exterminated!"

The Demon-Vibrating Bell snorted coldly, for it no longer needed to speak when encountering Demon Cultivators or demons.

Boom~~

At that moment, a message surged from the depths of Jiang Fan's sea of consciousness: "You encountered two Golden Core Demon Cultivators, and after a life-and-death struggle, you fortunately killed the two Golden Core Demon Cultivators, successfully avoiding disaster. You've gained 100,000 Luck Points and a Fifth-Grade Opportunity."

Apparently, he had easily survived a calamity.
