

## Fortune 515

### Chapter 515: Great Gains, Obtaining the 2nd True Spirit Technique\_2

"Moreover, the place they went to is a sea region dominated by a Golden Core Clan, not the territory of a Nascent Soul Clan."

"I didn't expect them to suddenly die, and it seems like they had no chance to fight back."

"It's likely they encountered a Nascent Soul Cultivator, that's why they died so quickly."

This Golden Core Demon Cultivator said solemnly, expressing his opinion, because the deaths of Blood Sixteen and Xue Shiqi were too swift, completely unlike encountering a Golden Core Cultivator.

Only when facing a Nascent Soul Cultivator would one have no chance to fight back and be killed instantly.

"It was really foolish; the Zhao Family is only embroiled in internal conflict and hasn't completely broken out in turmoil."

"To dare venture out at this moment, it's practically seeking death."

"But those two fools were incredibly unlucky to run into a Nascent Soul Cultivator."

The Nascent Soul Demon Cultivator Jiang Yizhen said helplessly.

"Lord Sect Master, what should we do now?"

Many demon cultivators looked at the Sect Master.

"What else can we do? We can only endure it in silence."

"Now is not the time for our Blood Demon Sect to fully emerge."

"Blood Sixteen and the others died, it's simply their bad luck."

The Nascent Soul Demon Cultivator Jiang Yizhen said coldly and emotionlessly. As a demon cultivator, he naturally did not have much sympathy. If the enemy was weak, perhaps there would be revenge, but if the enemy was too strong, then it's a matter of turning a blind eye.

After all, now is not the time to emerge.

If he really exposed himself, he might face the siege of numerous Nascent Soul Cultivators.

He certainly doesn't want to fall into that besieged situation like in the past.

"Yes, Lord Sect Master."

Many demon cultivators nodded. Since the Lord Sect Master had no plans for revenge, they naturally wouldn't do so either. After all, with the death of those two, it frees up more cultivation resources.

This is the cruelty of the Demon Sect.

Another day passed.

Zhu Family Island, a secluded chamber.

At this time, Jiang Fan quietly returned to Zhu Family Island.

Clearly, his actions were very secretive; no one knew he had previously killed two Golden Core Demon Cultivators.

And this sea region remained calm, as if nothing had happened.

Even the Blood Demon Sect showed no movement, as if the deaths of two Golden Core Demon Cultivators were nothing at all.

Of course, this situation is naturally favorable for Jiang Fan.

Boom~

At this moment, Jiang Fan moved with intent, scanning the Space Ring he acquired from the two Golden Core Demon Cultivators, and the treasures inside appeared in the depths of his consciousness.

Indeed, being Golden Core Demon Cultivators, the treasures inside were truly dazzling.

It's hard to know how many cultivators they had killed to acquire so many treasures.

"Wait, what is this thing?"

Jiang Fan narrowed his eyes. He unexpectedly found an ancient Jade Scroll inside the Space Ring, carved with special runes, clearly representing the Fifth-Grade Opportunity he was about to receive.

He originally thought the Fifth-Grade Opportunity would be some elixir or spirit medicine, but unexpectedly it was a Jade Scroll.

And this Jade Scroll looked very ancient, who knows how many years it had witnessed.

Dong!

Thinking of this, he moved with intent, pouring his Spiritual Sense into the Jade Scroll, and a torrent of massive information surged, revealing countless special patterns and ancient texts.

Undoubtedly, this ancient Jade Scroll contained a cultivation technique from the Ancient Era.

"No way, actually a True Spirit Level Technique — the Jade Rabbit Scripture!"

Jiang Fan clenched his fists, his heart stirred with waves of shock.

He never expected to get a second True Spirit Level Technique from the two Golden Core Demon Cultivators, which was truly incredible.

However, this technique is incomplete and can only be cultivated to the Nascent Soul Realm, but even so, it's entirely sufficient.

But he wasn't very familiar with this technique, so he consulted a few Ancient Treasures he had.

"What? You actually obtained a second True Spirit Level Technique — the Jade Rabbit Scripture?"

The Primordial Talisman Pen was dumbfounded, utterly incredulous at what it had heard, after all, the Primordial Talisman Sect had existed for so long and only obtained fragments of the Soaring Snake Technique, with no way to get a second True Spirit Technique.

But this kid, on the other hand, easily obtained a second True Spirit Technique, such luck is simply defying the heavens.

"Master, this True Spirit Technique is not simple."

"Once during the Ancient Era, this technique was renowned."

"It's said that cultivating this technique can gain the bloodline of the Taiyin Jade Rabbit and wield incredible Divine Power."

"But even so, ordinary cultivators attempting to cultivate this technique successfully is practically impossible."

The Exquisite Tower's voice suddenly echoed, recalling some information about the Jade Rabbit Scripture from its memory, clearly having interacted with cultivators who practiced the Jade Rabbit Scripture.

"Why is it impossible to cultivate successfully?"

Jiang Fan asked curiously.

"Master, True Spirit Level Techniques have an extremely high difficulty in cultivation."

"Initially, the cultivators able to practice True Spirit Techniques all possessed the True Spirit Bloodline."

"They naturally inherited the True Spirit Blood, born with extraordinary talent."

"Therefore, their progress was swift when cultivating True Spirit Level Techniques, complementing their physique."

"If someone has no bloodline within them, it's essentially impossible to successfully cultivate True Spirit Level Techniques."

"A situation like yours, Master, has never been seen even during the Ancient Era."

The Exquisite Tower said with great emotion.
