Chapter 519: Cyan Dragon Armor Wood Talisman, Power of the Cyan Dragon

At this moment, in another wing room on Zhu Family Island.

This is precisely where Lu Youyou is cultivating.

"Hmm? No way, that kid broke through again?"

"How could the cultivation speed be so fast? How much time has passed?"

Cloud Fairy was startled from her meditation by the sudden fluctuation of the Spirit Vein and was very shocked, sensing the Spiritual Qi swirling in the quiet chamber not far away. Clearly, a Golden Core Cultivator just had a breakthrough.

This caused the Spirit Vein to undergo tremendous changes.

"Master, what broke through again?"

Lu Youyou asked in a perplexed manner. After all, she didn't have Cloud Fairy's mighty perception and wasn't very clear about what had just happened.

"It's that Jiang Fan, I'm afraid his cultivation has reached the fourth-layer Golden Core."

Cloud Fairy said in a deep voice.

"How is that possible? How much time has passed, and Elder Jiang has already reached the middle stage of Golden Core?"

Hearing this, Lu Youyou was dumbfounded, finding it hard to believe.

After all, her cultivation is only at the third-layer Foundation Establishment, and there's still a long distance to reach the fourth-layer Foundation Establishment.

Who could have thought Jiang Fan's breakthrough speed would be faster than hers, and this is still a Golden Core Cultivator?

"I've told you before, this guy's destiny is overwhelming; he is definitely the son of destiny."

"Yet you're still dawdling here, why not quickly make a move on him?"

"If you wait until this kid promotes to Nascent Soul, even if you want to make a move, you might not be able to."

Cloud Fairy said a bit resentfully, thinking Lu Youyou's actions were too slow and that she didn't seize the opportunity, thus missing such a great chance.

"Master, I don't know how to attract men, I have no experience at all."

Lu Youyou said with a flushed face.

No matter what, she is a proper young lady from a Nascent Soul clan's direct descendants, and she never learned such means of attracting men, as she's not a cultivator of Demon Cultivator background.

"Foolish, given your beauty and figure, if you present yourself, which man could resist?"

"Even if he could resist, you can drug him, and turn cooked rice into a meal."

"At that time, even if he wants to deny it, he won't be able to."

Cloud Fairy said openly, giving Lu Youyou ideas.

"Master, isn't this too exaggerated?"

"What if Elder Jiang deserts me afterward, wouldn't I be at a big loss?"

Lu Youyou never thought her master would come up with such a bad idea.

She is not one of those women, how could she do something so shameless.

"Heh, at a loss? What loss could you possibly have."

"It might not even be clear who's at a loss."

Cloud Fairy said with much disdain.

Hearing this, Lu Youyou was very angry, but thinking carefully, her words might actually be right, as Jiang Fan has a bright future and outstanding talent; he is bound to become a Nascent Soul, perhaps even reach Divinity Transformation.

If she ended up with him, it might not even be clear who is truly at a disadvantage.

If many female cultivators outside knew about this, who knows how many would swarm like bees.

So, this matter might not be impossible to do.

.....

Inside the quiet chamber.

"Finally reached the fourth-layer Golden Core."

At this moment, Jiang Fan sensed his Primordial Golden Core in the Dantian and Sea of Qi had become much larger than before.

The Primordial Spiritual Power inside his body had increased by at least two-thirds.

As for the increase in spiritual sense's strength, it was even more, already comparable to a fourth-layer Nascent Soul cultivator.

Compared to before, it's like a qualitative improvement.

After all, there is a considerable gap between the early stage of Golden Core and the middle stage of Golden Core.

With a thought, many life talismans on his body lit up.

His control over these life talismans had clearly become stronger.

"I advanced to the middle stage of Golden Core just like that? It's really too fast."

Seeing this scene, the Primordial Talisman Pen couldn't help but sigh with emotion.

Even during ancient times, among the disciples of Primordial Talisman Sect, few possessed such a cultivation speed. If this continues, who knows, he might soon become a Nascent Soul.

Then, there would be a chance to return to the ruins of Primordial Talisman Sect and fully inherit all its legacies.

Just thinking of this, it felt extremely expectant.

So many years of unfulfilled desire finally have a chance to be realized.

"Elder Fu, what do you think should be the new life talisman to inscribe?"

Jiang Fan asked the Primordial Talisman Pen, wanting to hear its opinion. After all, the previous life talismans had given him tremendous help, clearly proving the Primordial Talisman Pen to be quite a good teacher.

"Perhaps you can try the Four Symbols Spirit Talisman."

The Primordial Talisman Pen thought for a moment and gave its suggestion.

"Four Symbols Spirit Talisman? What kind of talisman is that?"

Jiang Fan asked curiously.

"The Four Symbols Spirit Talisman is not a single talisman but four talismans, containing the power of the Four Symbols."

"They are the Cyan Dragon Armor Wood Talisman, Black Tortoise Water Abyss Talisman, Vermilion Bird Heaven-Burning Talisman, and White Tiger Geng Gold Talisman."

"These four spirit talismans make up the Four Symbols Spirit Talisman."

"They simulate the power of the four Divine Beasts and are some of the most powerful spirit talismans."

"If the four talismans are merged, they can unleash incredible power, virtually invincible at the same stage."

"With the power of these four spirit talismans, you can even contend against Nascent Soul, challenging across realms."

"However, integrating the Four Symbols Spirit Talisman is extremely difficult, not something an ordinary Golden Core cultivator can achieve."

"In the past Primordial Talisman Sect, they would only attempt to engrave the Four Symbols Spirit Talisman after promoting to Nascent Soul."

"But given your astonishing comprehension, you might be able to give it a try."
