

Seeking Fortune and Avoiding Evil in the Cultivation World

Chapter 52: Chapter 52: Mysterious Token, Tiger and Leopard Pill

First, Jiang Fan discovered a white jade bottle containing three elixirs.

As soon as he opened the lid, a rich medicinal aroma immediately surged out.

This greatly invigorated him, as if every cell was restless, generating a sense of hunger.

It was as if he couldn't wait to swallow these three elixirs.

"Wait, is this the Tiger and Leopard Pill?!"

Jiang Fan's eyes instantly brightened, extremely excited.

The Cao's Poison Scripture he studied not only recorded various poisons but also many elixirs, specifically suitable for martial artists.

Once consumed, they can accelerate the martial artist's progress and improve cultivation efficiency.

Often, just a single elixir can save you several months, even over a year, of arduous cultivation.

The disciples of noble families cultivate so quickly, thanks to various treasure medicines and elixirs.

If he could take these elixirs, he would surpass the decades of hard training of ordinary martial artists in just a few years.

It is conceivable how vast the difference is.

The Tiger and Leopard Pill is a renowned body tempering elixir.

Made from tiger gall, leopard heart, and various precious herbs, the value of a single Tiger and Leopard Pill is beyond measure in silver taels.

More importantly, such Tiger and Leopard Pills cannot be bought merely with money.

As some of the ingredients have long been monopolized by noble families.

If you are not someone with connections, no one will sell them to you, no matter how wealthy you are.

Consuming these three Tiger and Leopard Pills would undoubtedly accelerate his cultivation.

It would also save him a significant amount of luck points.

"Is there no other treasure?"

"Only a single token left?!"

Jiang Fan blinked in surprise.

Initially, he thought there were many treasures in the package.

Unexpectedly, apart from the bottle of elixirs and token, there was nothing else.

The appearance of the token was quite peculiar, neither gold, copper, nor iron, with unknown composition.

On the token, a character symbol appeared.

It emitted a profound and mysterious aura.

Giving him the feeling that this token was not of mortal origin.

"If it's not mortal, could it be an immortal treasure?"

Jiang Fan couldn't help but think.

After all, he had previously acquired an immortal treasure—Space Ring, so gaining another immortal treasure would not be impossible but its purpose was unknown.

Thinking about this, he wanted to use the power of luck points to refine this treasure.

However, he quickly discovered that his luck points were insufficient.

He already possessed 410 luck points, which is considerable.

But still not enough.

It's conceivable that this token is incredibly special, even more precious than the Space Ring.

There's no doubt that this token is truly the Eighth-Grade Opportunity.

He just doesn't know its purpose for now.

Swish!

With this thought, Jiang Fan quickly placed the token and Tiger and Leopard Pills into the Space Ring and swiftly left.

Although he knew this place was rarely visited and no one would discover him.

For safety's sake, he decided to return home first.

As expected, as Jiang Fan predicted, no one noticed his previous arrival on Shoe Mountain Island.

It seemed all the fishermen instinctively avoided encountering him.

Perhaps not. It might be due to choosing such a unique time that allowed Jiang Fan to avoid all unexpected factors, unobtrusively obtaining this opportunity without anyone noticing or any calamity arising.

This is the protection of destiny.

Afternoon.

Jiang Fan safely returned home.

Eagerly, he consumed one of the Tiger and Leopard Pills.

Boom~~

Instantly, as Jiang Fan operated the Soaring Snake Breathing Technique, the elixir was rapidly digested upon entering his body.

A massive mysterious substance spread throughout his body, reaching every corner.

It felt like warm currents wrapping around his body.

Causing his body temperature to rise swiftly, as if soaking in a hot spring.

The medicinal power was so fierce that it made his hairs stand on end.

If a person with weak physical constitution consumed this Tiger and Leopard Pill, they would be overwhelmed by the replenishment.

It might even lead to bleeding from seven orifices and death.

However, for a martial artist, it's an absolute tonic.

Quickly enhancing the martial artist's cultivation efficiency, refining every corner within.

Rumble~~~

Suddenly, Jiang Fan stood on the ground, operating the Soaring Snake Breathing Technique; steam emerged from his body, shrouding the room in mist as if enveloped by clouds.

Like a soaring snake appearing from clouds.

Simultaneously, his meridians were astonishingly strengthened.

His cultivation progress in the Strong Sinew Realm steadily improved.

30%, 40%, 50%, 60%...

In an instant, his cultivation progress reached 80% of the Strong Sinew Realm.

With continued cultivation, he would certainly break through to the Bone Forging Realm.

It's evident how important elixirs are for martial artists.

A single elixir can save martial artists months, even a year of arduous cultivation.

With long-term use, they could rapidly ascend to high realms.

But not every martial artist's family is affluent.

Even a single Tiger and Leopard Pill is quite valuable.

Not something ordinary noble families can afford.

"Wait, now do I have enough luck points to advance to the Bone Forging Realm?"

Suddenly, Jiang Fan's eyes widened.

He immediately realized his martial arts realm could continue to ascend.

Originally, advancing to the Bone Forging Realm required at least 500 luck points.

But now, after consuming this Tiger and Leopard Pill, the needed luck points have reduced.

Essentially, just consuming 400 luck points was completely sufficient.

"Since it's enough, then let's advance."

Jiang Fan clenched his fist, feeling tremendously excited.

He had no intention of hesitating.

After experiencing the threat from the Red Eyebrow Army, he realized his weakness deeply.

Strong Sinew Realm alone was insufficient for survival in such turbulent times.

If surrounded by an army, even he couldn't guarantee escape.

Let alone taking Su Weiwei with him.

Thus, he longed to enhance his martial arts realm, strengthening his capabilities.

Conventional methods to advance the martial arts realm were too slow.

Far inferior to the effect of luck points.

Moreover, using luck points for elevation makes cultivation perfect without flaws.

Also without any hidden dangers.

Thud!

At this moment, Jiang Fan immediately used his luck points to elevate his martial arts realm.

A mysterious warm current surged from the depths of his consciousness sea, quickly flooding his body.

This mysterious warm current's effect on physical enhancement was unimaginably greater than the Tiger and Leopard Pill.

Each of his meridians seemed thoroughly refined and strengthened.

Making him as robust as a bull.
