Chapter 529: Seeking Fortune and Avoiding Evil Again, Great Opportunity Arrives_2

Especially the Cloud Dream Tracing Talisman, Dragon Vein House Charm, and Soul Restriction Talisman - these three Life Talismans have all achieved the Perfection Level.

As for the Perfection Level Cloud Dream Tracing Talisman, with just a thought, white mist will envelop an area of a thousand kilometers, and all living beings within the mist will lose their sense of direction, even falling into an illusion realm.

Clearly, this talisman is akin to a Tier Three Array, effortlessly capable of altering the power of heavenly phenomena.

It belongs to the range-type talismans.

Its cultivation difficulty is also extremely high.

The Perfection Level Dragon Vein House Charm is equally remarkable. If this talisman is integrated into a spirit vein, it can enlighten the spirit vein, allowing it to develop a hint of spirituality.

Even more powerful is, if spirituality is developed, then this spirit vein can transform into a dragon vein, absorbing the destiny of countless beings, thereby forming a vast kingdom's fortune.

In ancient times, there were cultivators who used the Dragon Vein House Charm to enlighten cultivator realms, nurturing powerful dragon veins and creating kingdoms lasting a thousand years, or even ten thousand years, ruling over a land for countless ages.

"For now, limited by my cultivation, I can only enlighten Tier Three spirit veins."

"But even so, the power of this talisman is exceptionally strong and full of mysteries."

"It can completely be used to forge a powerful Human Race Kingdom."

Jiang Fan stroked his chin.

He could feel the power of the Dragon Vein House Charm, clearly a force capable of enlightening dragon veins.

This is not something any random cultivator can achieve.

Even in ancient times, people who obtained the cultivation method of the Dragon Vein House Charm could at most cultivate it to the Mastery Level, as for the Great Success Realm or even Perfection Realm, those were exceedingly rare.

Enlightening spirit veins is not so easily accomplished.

However, with the help of Luck Points, his progress in cultivating the Life Talisman has been rapid.

As for the Perfection Level Soul Restriction Talisman, it needs no further mention.

Once activated, it can completely restrict the soul of other cultivators, preventing them from divulging any information.

If combined with the Enchantment Talisman, the two together can enslave cultivators.

For example, Golden Core cultivator Yuan Hongming is such a case, becoming his servant.

Boom~~

Thinking of this, Jiang Fan felt a stir in his heart and opened the virtual panel on himself.

[Name: Jiang Fan]

[Realm: Fourth-Layer Golden Core (40%)]

[Profession: Tier Three Middle Grade Talisman Master (12%)]

Undoubtedly, compared to a year ago, his cultivation has progressed greatly.

The progress of the Fourth-Layer Golden Core has reached 40%.

The reason for such rapid advancement is naturally due to the Thousand-year-old Spirit Medicine Snow Jade Bone Ginseng previously consumed.

After thoroughly digesting the medicinal power of this Snow Jade Bone Ginseng, his Primordial Spiritual Power rapidly increased.

Thus, the efficiency was so remarkable.

If relying solely on his own bitter cultivation, he definitely could not progress this quickly.

Of course, besides the progress in cultivation, he has also smoothly advanced to become a Tier Three Middle Grade Talisman Master.

Can easily draw various Tier Three Talismans.

But now, he no longer needs to earn money by making talismans.

The crafted Tier Three Talismans are mainly for personal use, never for sale.

Whiz!

Soon, Jiang Fan finished his cultivation and walked out of the meditation room.

"Master, the Secret Realm No. 5 of Primordial Ruins has opened."

"A Golden Core friend invited me to venture together, should I accept?"

At this time, Golden Core cultivator Yuan Hongming approached Jiang Fan and spoke promptly.

It is evident that this nearby Ancient Ruins area is also referred to by the world as the Primordial Ruins, as it was once the location of the Ancient Sect, the Primordial Talisman Sect, making it easier for many cultivators to distinguish it.

Because there are many similar Ancient Ruins across the Eastern Continent, not just the Primordial Ruins alone.

It is said that sects like the Taiyi Sect, the Celestial Secret Mansion, and others rose to prominence because they obtained treasures and inheritances from the Ancient Ruins, inheriting the Taoist tradition of the Ancient Sects.

Therefore, countless cultivators still flock to the Ancient Ruins on the Eastern Continent.

"Secret Realm No. 5?"

Upon hearing this, Jiang Fan squinted his eyes.

He has stayed in the Ten Thousand Talisman City for a whole year and naturally understands a lot about the Primordial Ruins. The entire Ancient Ruins area is vast beyond compare, enveloped by a powerful void barrier.

There are about eighteen entrances and exits, occupied by different forces.

The Ten Thousand Talisman City also occupies one of these exits, which is why so many loose cultivators come here.

Within the Primordial Ruins, there are nine great Secret Realm Worlds.

Basically from the first to the ninth Secret Realm.

The timing of the opening of different Secret Realm Worlds is different, some last longer, others shorter.

The reason why the Primordial Ruins, after countless ages, still attract an endless stream of cultivators is precisely because these Secret Realm Worlds contain innumerable treasures from the Ancient Era.

They also nurture a large number of spirit medicines and spiritual objects.

This place is practically an inexhaustible treasure trove.

Of course, these Secret Realm Worlds are also extremely dangerous, filled with innumerable demons and monsters, and even a large number of demons and evil cults.

If cultivators lacking sufficient strength enter, they are simply seeking death.

However, if one is lucky and obtains treasures inside, it could lead to overnight wealth.

In pursuit of opportunities, many loose cultivators still flock to enter.

After all, for loose cultivators, only these Ancient Ruins offer a chance to gain opportunities and treasures.

Treasures in other places have long been taken by large forces, leaving the loose cultivators with nothing.

Bang~~

In an instant, the Fortune-Telling Talisman deep within Jiang Fan's sea of Qi began to tremble, seemingly stirred by the power of fortune, a message instantly seeping into the depths of his consciousness sea.

"Staying in Ten Thousand Talisman City for cultivation will yield nothing, average."

"Follow other Golden Core cultivators to Secret Realm No. 5 of the Primordial Ruins to obtain a Fourth-Grade Opportunity, or face calamities, but with minor scares, great luck."

"Choose to go alone to the Fifth Secret Realm, to obtain a Fifth-Grade Opportunity, or face coveting by Tribulation Cultivators, endless troubles, minor misfortune."

Feeling this message, Jiang Fan's eyes flickered.

Undoubtedly, the opening of Secret Realm No. 5 this time is indeed a huge opportunity for him.

There's even a chance to obtain a Fourth-Grade Opportunity, equivalent to a Divinity Transformation level opportunity, not easily acquired.

This is truly the Eastern Continent, the holy land of cultivation in the Void Realm; I've only been on this continent for a short time, and already there's a chance to gain a Fourth-Grade Opportunity.

This place indeed has countless opportunities.

"But I actually need to choose to follow other Golden Core cultivators and cannot go alone?"

"Does that mean if I am alone, I might be targeted by Tribulation Cultivators?!"

Jiang Fan stroked his chin.

Honestly, many cultivators in Ten Thousand Talisman City choose to team up, rarely going solo.

Because the Primordial Ruins are extremely dangerous.

Here appear not only cultivators from all major sects, holy land cultivators, but also numerous wicked loose cultivators, and possibly even demon cultivators and demon cultivators among others.

It can be said that the Ancient Ruins is a huge battlefield.

Choosing to go alone will certainly make one a target, seen as an easy mark.

If it were just that, it would be fine, but once the enemy is killed, if the enemy has countless friends and allies, and forces backing them, it would inevitably lead to endless troubles.

Just like stirring up a hornet's nest.

Precisely because of this, to avoid many troubles, it is better to team up with other cultivators.

This way, at least other cultivators will be somewhat scrupulous when they see it, not daring to provoke easily.

Sometimes, blending in harmoniously is a good choice, not necessarily needing to fight alone.

"I could give it a try."

"After all, the opening of Secret Realm No. 5 is indeed a good opportunity."

"Count me in."

Jiang Fan stated straightforwardly. He had been cultivating in the Ten Thousand Talisman City for a year, and it was time to enter the Primordial Ruins and see what the scenery was like.

"With the master leading, this action will surely go without a hitch."

Upon hearing this, Yuan Hongming was overjoyed.
