

## Fortune 532

### Chapter 532: Primordial Reincarnation Array, Gaining Fourth-Grade Opportunity\_3

At this moment, after entering Secret Realm No. 5, various groups of cultivators seemed to have predetermined destinations, scattering in all directions at once with great vigilance, fearing that other cultivators might follow them.

"Follow me."

Ni Sihai and others led the way, flying southwest.

A group quickly flew forward, passing over mountains.

It's unclear just how many kilometers they crossed.

Finally, under Ni Sihai's guidance, they arrived in front of a valley.

"Finally here, this is the place."

Ni Sihai and group sighed in relief, as if completing some task.

"Haha, the three of you are indeed excellent, accomplishing the task very efficiently."

"You even brought two Golden Core cultivators."

At this point, demonic clouds surged in the depths of the valley, emitting waves of demonic sounds, followed by two or three Golden Core Demon Cultivators suddenly flying out, instantly appearing before Jiang Fan and others.

They looked at Jiang Fan and Yuan Hongming mockingly, as if gazing at food on a plate.

"What's going on? You're actually colluding with Demon Cultivators?"

Yuan Hongming's face changed drastically, never expecting such a thing to happen.

Although he never thought Ni Sihai and his group particularly trustworthy, he didn't think they'd cooperate with Demon Cultivators.

"Sorry, Fellow Daoist Yuan, we were forced."

"Last time we came to Secret Realm No. 5, we were captured by these Demon Cultivators and poisoned."

"If we want to survive, we can only follow their orders."

Ni Sihai and his group looked fierce.

They felt no remorse, only wanting to survive.

If they didn't follow the orders of these Demon Cultivators, they might die in an instant.

But they didn't want to die, so they obediently followed the orders, bringing one Golden Core Cultivator after another for the ease of these Demon Cultivators to consume.

Previously, Ni Sihai and others successfully completed several tasks, and this was the last one.

If successful, they would regain freedom and receive the antidote.

"Believing the words of Demon Cultivators? Utterly foolish."

"Even if you complete the task, they might not keep their promises."

"You're just harming yourselves and aiding evil."

Yuan Hongming shouted angrily, outraged.

"Haha, just two morsels, why waste time talking."

"Once I consume you two Great Medicines, let's see if you still have such sharp tongues."

The three Golden Core Demon Cultivators sneered coldly, not wanting to waste words, eager to act immediately.

To them, Righteous Cultivators were as valuable as several hundred-year-old Spirit Medicines.

If they could consume one, their cultivation would advance significantly.

Therefore, the battle between righteousness and evil was intensely fierce, like fire and water.

But at that moment, Jiang Fan made his move, immediately taking out the Ancient Treasure Exquisite Tower from himself.

Boom~~

The tower unleashed an invisible power of the Magical Domain, enveloping the surroundings, instantly covering the group of Golden Core Cultivators.

A total of six Golden Cores were suppressed by the tower's power.

This was the Exquisite Tower that had opened up the Second Layer World.

The power of its domain was now many times stronger than before.

In an instant, these six Golden Core cultivators were suppressed, completely immobilized.

"What's happening?"

Ni Sihai and others were instantly bewildered, looking at Jiang Fan in disbelief.

They couldn't have imagined that this guy actually possessed such a treasure.

Now they knew they'd hit a hard wall.

"I must thank you, without your guidance, how would I obtain an opportunity."

"Enter the Exquisite Tower."

Jiang Fan felt neither joy nor sorrow, he immediately activated the tower's power, an invisible force binding these six Golden Core cultivators, like a beast about to devour its prey.
