

Fortune 536

Chapter 536: Creating the Dragon Vein, the Calamity Arrives_2

Boom~~

Thinking of this, Jiang Fan sat cross-legged on the ground, operating the Mixed Element Talisman Scripture, beginning to absorb the surrounding spiritual energy.

He also noticed that cultivating within the dragon vein yielded higher efficiency compared to a regular spirit vein.

It seemed as if endless spiritual energy surged in, rapidly refining into pure primordial spiritual power.

It was likely because the dragon vein had the ability to purify spiritual energy, making it almost free of impurities after purification, thus increasing the efficiency of refining it.

.....

In the blink of an eye, half a year passed swiftly.

Jiang Fan had been in the Secret Realm No. 5 for half a year.

As for the Golden Core Cultivator Yuan Hongming, he had already left.

After all, he was worried that something might happen to Su Weiwei if she stayed in Ten Thousand Talisman City, so he had Yuan Hongming leave in advance to go back and protect Su Weiwei and Lu Youyou.

Anyway, he alone was more than sufficient to stay here now.

More importantly, the spiritual energy at this safe point could only satisfy the cultivation of one Golden Core.

Adding another Golden Core would be a bit of a stretch.

"The spirituality of this dragon vein has grown even stronger."

At this moment, Jiang Fan sat cross-legged on the ground.

He sensed the dragon vein deep within the earth and found that compared to half a year ago, its size had expanded several times over.

His eyes were bright and full of spirit, his injuries had long since completely healed.

Therefore, the spiritual energy that the dragon vein could nurture was even greater.

However, worried that it might attract other demons' attention, the spiritual energy was confined within this cave.

After all, at this point, quietly amassing wealth was better than acting rashly.

Of course, during these six months, he had also made considerable progress.

Boom~~

At this moment, Jiang Fan's heart stirred, and he immediately opened the virtual panel on his body.

[Name: Jiang Fan]

[Life Chart: Great Blessings Equal to Heaven, Attribute: Surviving Great Calamities Will Bring Great Blessings]

[Lifespan: 8000]

[Spirit Root: Celestial Spirit Root]

[Luck Points: 400,000]

[Wealth: 10 million Spirit Stones]

[Cultivation Technique: Soaring Snake Technique, Golden Core Chapter (Tier Three Middle Stage)]

[Cultivation Technique: Mixed Element Talisman Scripture, Third Layer]

[Innate Divine Techniques: Emperor's Gaze, Shrinking Earth into Inches, Palm Wind, Water Control]

[Life Talisman: Cyan Lotus Earth Fire Talisman (Great Success), Yin Yang Mandarin Duck Talisman (Mastery), Fortune-Telling Talisman (Great Success), Profound Turtle Talisman (Skilled), Ten Thousand Swords Return to the Sect Talisman (Mastery), Five Elements Array-Breaking Talisman (Skilled), Cyan Dragon Armor Wood Talisman (Mastery)]

[Realm: Fourth-Layer Golden Core (80%)]

[Profession: Tier Three Middle Grade Talisman Master (20%)]

Without a doubt, his cultivation had achieved tremendous advancement, reaching 80% progress in the Fourth-Layer Golden Core.

For an ordinary Golden Core Cultivator, this would be considered rapid progress.

The reason for such swift advancement was naturally due to the spirit medicine Snow Jade Bone Ginseng.

He had used the power of Immortal Dew to allow a Snow Jade Bone Ginseng to grow to its limit, becoming a thousand-year-old spirit medicine.

By refining part of this spirit medicine's medicinal power, his cultivation advanced rapidly.

If he continued at this pace, it wouldn't take much time to be promoted to the Fifth-Layer Golden Core.

Additionally, Jiang Fan had used a large amount of Luck Points to elevate the skill level of the Cyan Lotus Earth Fire Talisman to Great Success level, and meanwhile raised the Cyan Dragon Armor Wood Talisman to Mastery level.

This also greatly enhanced the power of these two Life Talismans.

"I've finally raised the Cyan Lotus Earth Fire Talisman."

With a thought, a cluster of cyan flames appeared in Jiang Fan's palm, blooming like a lotus, exuding a peaceful, harmonious aura, and looking extraordinarily beautiful.

Upon rising to the Great Success Realm, his control over the Cyan Lotus Earth Fire had reached a higher level.

He had already achieved a level of mind-will fusion.

The Cyan Lotus Earth Fire could be shaped into various forms, like blades, swords, arrows, spears, axes, bullets, and so on.

It could also morph into various birds and beasts.

There were basically no limitations on its shape.

Moreover, its power had increased several times over.

This flame could not only burn away numerous demons and monsters but also incinerate heart demons.

If the Cyan Lotus Earth Fire was used frequently, it could eliminate one's distracting thoughts, purging the heart demon.

This was very beneficial for overcoming the Heart Demon Tribulation.

If fully activated, it could trigger volcanic eruptions, as if hundreds and thousands of volcanoes were simultaneously exploding, engulfing the heavens and earth like an endless fire domain.

"The amount of Spirit Stones has also been restored to ten million."

Jiang Fan glanced at his total wealth. Originally, he only had six million Spirit Stones, but now it had skyrocketed to ten million. The increase was naturally thanks to the wealth gained from slaying several Golden Core Cultivators previously.

From them, he had gained three to four million Spirit Stones in wealth.

Honestly, to him, Spirit Stones were beneficial in large numbers.

Because each time the Gate of the Void was activated, a large number of Spirit Stones had to be expended.

If there were no Spirit Stones, then the function of the Gate of the Void would be significantly reduced.

But there was no denying that the cultivators of Eastern Continent were indeed wealthy; even the wealth of Golden Core Cultivators was at least several times more than those in the Black Dragon Sea Region and Southern Continent.

So after dealing with these Golden Core Cultivators, he obtained so many Spirit Stones and so many treasures.

Rumble~~

At this moment, a huge tremor suddenly came from the earth, like a massive earthquake, affecting countless miles, shaking many mountains.

Infinite demonic Qi swept through Nine Heavens and Ten Lands, forming a storm.

"What's going on?"

Sitting cross-legged on the ground, Jiang Fan frowned, feeling very puzzled.

After all, he had been cultivating here for half a year and had never encountered such an occurrence.

Boom~~

In an instant, the Fortune-Telling Talisman deep in his Elixir Field and Sea of Qi began to vibrate, a piece of information instantly penetrating into the depths of his consciousness: "A dance of the demons, blood rains on the secret realm, fortune descends from the heavens, good or bad depends on oneself."

"Immediately head east, spanning 1,300 miles, to reach Ghost Lake, to obtain a Fifth-Grade Opportunity, but the danger is immense, caution must be taken, great danger."

"Head north tomorrow, spanning 930 miles, to reach Ning Gao Mountain, to obtain a Sixth-Grade Opportunity, yet the danger is sequential, inescapable, unavoidable, great danger."

"Stay in the current location to cultivate, nothing gained, nothing lost, peaceful."

"Head south three days later, spanning 845 miles, reaching Jade Field Valley at midnight, to obtain a Fourth-Grade Opportunity, tumultuous and risky, great fortune."

Perceiving this information, Jiang Fan's eyes immediately lit up, filled with excitement.

Another Fourth-Grade Opportunity had appeared, which was fantastic.

It hadn't been in vain for him to painstakingly wait here for half a year for the chance to attain a fortune.

Now it seemed that he had indeed waited for this great opportunity.

After all, a Fourth-Grade Opportunity was not something easily obtained or waited for.

If it weren't within this Primordial Ruins, it's unlikely a Divinity Transformation level opportunity would exist.

"The reason the opportunity is appearing now is likely due to the extraordinary earthquake just now, causing opportunities to emerge."

"After all, through countless ages and transformations, many treasures from the ancient era are buried deep within the earth."

"But the emergence of the earthquake made these opportunities reveal themselves."

"However, such occurrences might not be a blessing for ordinary cultivators, but rather a disaster."

"After all, if opportunities manifest, they would inevitably be snatched by innumerable cultivators."

"Whether they are Demon Cultivators, Loose Cultivators, or Sect Cultivators, all would rush forth."

"Because of this, Secret Realm No. 5 is exceedingly perilous now."

"A single misstep could lead to untimely death."

Jiang Fan caressed his chin.

From the information provided by the Fortune-Telling Talisman, he could discern the level of risk involved this time.

If the location was wrong or the timing was incorrect, he might face calamity and be pursued by enemies.

Only by departing at the right time and arriving at the right place could he attain the opportunity.

It was akin to drawing chestnuts from the fire.

For other cultivators, this sort of undertaking was virtually impossible.

However, the Fortune-Telling Talisman helped identify the safest and most rewarding future from numerous possibilities.

"It requires three days before I can set out?"

"Indeed, sometimes leaving too early isn't beneficial."

"Departing too soon might get me noticed by others, resulting in an ambush."

"It's better to wait for the cultivators in the Secret Realm to start fighting, then fish in troubled waters."

"This way, perhaps I could quietly obtain the treasure and leave Secret Realm No. 5."

Jiang Fan's eyes sparkled.

He was very much anticipating this Fourth-Grade Opportunity. The previous Fourth-Grade Opportunity had earned him the low-grade Celestial Spiritual Treasure Taiyi Five Smoke Net, and he wondered what treasure this opportunity would yield.
