

## **Fortune 537**

Chapter 537: Obtaining a Fourth-Grade Opportunity, Heaven and Earth's Wondrous Treasures from the Ancient Era

Three days later.

Jiang Fan left the Nameless Cave and set off southward.

He used the power of the Earth Escape Talisman to burrow into the ground, avoiding any cultivators that might be around.

It wasn't until nightfall that he leisurely arrived at the Jade Field Valley, as indicated by the Fortune-Telling Talisman.

"Could there be a fourth-grade opportunity in this place?"

Jiang Fan curiously looked around, finding that it seemed to be just an ordinary valley.

However, the area did look picturesque, with lush vegetation all around, as if it held considerable spirituality.

Rumble~~

At that moment, tremors shook the surrounding ground, the earth cracked, it was as if heaven and earth were shaking, resounding with a roar, dirt splattering.

In the distance, mountains collapsed, and large stones rolled down.

In an instant, a dazzling light erupted from deep within the valley, accompanied by a torrent of pure spiritual energy that swept in all directions like a storm.

A golden beam shot skyward, tearing through the thick dark clouds.

Even creatures within a hundred-mile radius could see it clearly.

"What is that?"

Curious, Jiang Fan looked toward the source and saw a fountain in the valley, seemingly gushing out vast amounts of spiritual liquid, which immediately transformed into countless pure spiritual qi upon emerging.

It was precisely this pure spiritual qi that rapidly increased the concentration of spiritual qi in the surroundings.

"Wait, could this be the Heaven and Earth's Wondrous Treasure, the Spiritual Eye Spring?"

"And it's a Tier Five Spiritual Eye Spring."

The Primordial Talisman Pen was shocked, seemingly unable to believe its eyes, deeply shaken.

"What is a Spiritual Eye Spring?"

Jiang Fan asked with confusion. Although he knew much about the treasures in the Cultivation Realm, due to his short cultivation period, he couldn't possibly know everything, especially concerning rare treasures.

However, for the experienced Primordial Talisman Pen, with its extensive expertise, akin to an encyclopedia of the Cultivation Realm, very few treasures could baffle it.

"The Spiritual Eye Spring is a Heaven and Earth's Wondrous Treasure."

"It is formed by a mysterious liquid substance, and no one knows exactly what it is."

"However, it seems able to devour energy from the depths of the void, converting it into spiritual liquid."

"Once this spiritual liquid contacts the air outside, it instantly transforms into spiritual qi."

"Moreover, it's untainted Heaven and Earth Spiritual Qi."

"Each Spiritual Eye Spring is equivalent to a pure spirit vein."

"Unlike spirit veins, the Spiritual Eye Spring can be carried with you."

"So, it's like having a portable spirit vein to assist in cultivation anytime, anywhere."

"Such Heaven and Earth's Wondrous Treasures were incredibly rare even in the ancient era."

"As for now, they are virtually extinct."

The Primordial Talisman Pen spoke with emotion, utterly surprised to still encounter a Spiritual Eye Spring in this era. It seemed inconceivable.

Even though it knew the young fellow had excellent luck, this was far beyond its expectations.

"The master's luck is truly remarkable."

"This Spiritual Eye Spring is probably a relic from the ancient times."

"Originally buried deep underground for countless ages without emerging."

"But this earthquake caused its emergence."

"This opportunity seems tailor-made for the master."

The Demon-Vibrating Bell also found it incredible.

However, it understood the rarity of the Spiritual Eye Spring. Even in ancient times, very few cultivators obtained one. In today's qi-thin age, such Heaven and Earth's Wondrous Treasures are almost impossible to find again.

"Yes, and this is a Tier Five Spiritual Eye Spring."

"The spiritual qi it contains is comparable to a Tier Five Spirit Vein."

"If placed in the Exquisite Tower's First Layer, the master would be as if surrounded by a Tier Five Spirit Vein, no longer needing to seek other high-tier spirit veins in the future."

"Even if cultivating in the Exquisite Tower, it wouldn't matter at all."

The Exquisite Tower exclaimed eagerly.

It knew its master had spent significant effort finding a suitable spirit vein for cultivation.

The problem was that in this era, high-tier spirit veins are scarce.

Whenever a high-tier spirit vein appeared, major forces would claim it.

There's no way they would fall into the hands of other loose cultivators.

Attempting to contest with other forces for spirit veins was not an easy matter.

"Such treasures exist?"

Upon hearing this, Jiang Fan clenched his fists.

Previously, when the Primordial Talisman Pen and other magical treasures mentioned that spirit veins couldn't be transplanted, he thought he might never possess a personal spirit vein to aid his cultivation.

Yet, unexpectedly, after coming to these Primordial Ruins, he had a chance to acquire the Spiritual Eye Spring.

And it's a Heaven and Earth's Wondrous Treasure comparable to a Tier Five Spirit Vein.

No wonder it's a fourth-grade opportunity.

The Tier Five Spiritual Eye Spring must be among the top of many fourth-grade opportunities.

His half-year stay in this Secret Realm World was not in vain; he finally awaited the emergence of this grand opportunity.

"Tier Five Spiritual Eye Spring? Are there higher-tier Spiritual Eye Springs?"

Jiang Fan inquired.

"In the ancient era, indeed there were."

"It's said Tier Six, Tier Seven, or even Tier Eight Spiritual Eye Springs existed."

"Sadly, such Heaven and Earth's Wondrous Treasures couldn't be simply counted on one hand."

"They must be unique."
