Chapter 541: Escaping Ten Thousand Talisman City, A Great Calamity Descends

"Finally, I have advanced to the fifth tier of the Golden Core."

Jiang Fan sat cross-legged on the ground.

He sensed that compared to before, the primordial spiritual power in him had increased by at least a third, and his primordial golden core in the elixir field and sea of qi had also grown larger.

More importantly, his spiritual sense had become more formidable, comparable to that of a fifth-layer Nascent Soul cultivator.

For him, it was an all-round enhancement.

An invisible Golden Core Domain enveloped all directions, and its power was far stronger than before.

"Next is the engraving of a new life talisman."

Jiang Fan's eyes flickered, pondering his next path in cultivation.

However, he had already decided on his new life talisman, which would naturally be the Vermilion Bird Heaven-Burning Talisman.

This was one of the Four Symbols Spirit Talismans.

Previously, he had successfully engraved the Cyan Dragon Armor Wood Talisman, so now it was time for a new Four Symbols Spirit Talisman.

If he could fuse the Four Symbols Spirit Talismans, uniting the four, the power would naturally be unimaginable.

Using these four life talismans, he could challenge beyond his tier.

Boom~~

Instantly, without any hesitation, Jiang Fan consumed a large amount of destiny points and began to comprehend the Vermilion Bird Heaven-Burning Talisman.

He instantly entered a state of epiphany.

The surface of his primordial golden core began to show traces of spiritual power as he engraved the Vermilion Bird Heaven-Burning Talisman.

Such tasks were second nature to him, so there was no anxiety.

In the blink of an eye, a day and night passed.

Suddenly, Jiang Fan's body shook, his primordial golden core buzzing.

When the final trace of spiritual power merged, the Vermilion Bird Heaven-Burning Talisman was immediately completed.

Vaguely, a divine beast, the Vermilion Bird, appeared on the surface of the primordial golden core, its body engulfed in endless flames.

Boom~~

In the next second, the Vermilion Bird flew out from him, floating mid-air, unleashing endless crimson flames, seemingly incinerating the Nine Heavens and Ten Lands.

The entire meditation chamber appeared to transform into a boundless sea of fire, the flames solidifying into massive magma, rolling around the chamber.

If any cultivator were to enter this place, they would be immediately burned to ashes by the Vermilion Bird Flame.

"Is this the Vermilion Bird Heaven-Burning Talisman? Its power is indeed infinite."

Jiang Fan carefully felt the power of this life talisman; clearly, it was related to the Vermilion Bird Talisman, so it contained a hint of the Vermilion Bird Fire's might.

Though it was not on par with true Vermilion Bird Flame, only possessing a trace of its might, this power was enough to be invincible before Golden Core cultivators.

"This Vermilion Bird Flame seems usable for tempering the physique."

"On the surface, its destructive power is terrifying, yet it contains vibrant vitality."

"The flame perfectly intertwines the forces of life and death."

"It's different from True Sun Fire and Cyan Lotus Earth Fire."

Jiang Fan stroked his chin.

Clearly, he had already mastered the power of two anomalous fires in the world and thus was very familiar with the power of flames, able to discern the Vermilion Bird Flame's uniqueness.

It had to be said, this talisman was certainly one of the more powerful flame talismans, able to invoke Vermilion Bird Flame.

If he fully activated this talisman, he could manifest the Shadow of the Vermilion Bird, summoning infinite flames with the power to scorch the heavens.

There was no doubt that each of the Four Symbols Spirit Talismans was not simple.

But their cultivation was also extremely difficult.

Without the aid of destiny points, he wouldn't have understood the Vermilion Bird Heaven-Burning Talisman this quickly.

"To master the Vermilion Bird Heaven-Burning Talisman so swiftly is truly remarkable."

The Primordial Talisman Pen nearby sighed internally at this sight.

Though it knew this lad's comprehension was extraordinary, seeing it every time was deeply moving.

The gap between people was incredibly vast, almost immeasurable.

But this was undoubtedly great news for the Primordial Talisman Sect.

Boom~~

With this thought, Jiang Fan was moved, immediately opening the virtual panel on him.

Undoubtedly, compared to before, the data on him had significantly improved.

However, due to the past half year focusing on enhancing his cultivation, he hadn't trained various life talismans, so the skill level of each life talisman hadn't increased much.

But he believed it was merely a matter of time.

After all, he currently held a total of 450,000 destiny points, which was an enormously hefty destiny.

With sufficient time, he would undoubtedly cultivate some life talismans to the perfection level.

"The wealth actually grew to 15 million spirit stones? Even Nascent Soul cultivators might not have this much."

Jiang Fan stroked his chin, not expecting such a rapid increase in wealth.
