

## Fortune 545

Chapter 545: Acquiring the Five Directions Tribulation Stone, a Treasure to Resist the Nascent Soul Celestial Tribulation

The surviving three Golden Core Demon Cultivators were panting heavily, their faces looking quite grim.

But seeing the corpses of Yang Yu and the others, they couldn't help but breathe a sigh of relief.

After all, they were the last victors, managing to survive.

"Finally won, worthy of being Golden Core Cultivators from Celestial Secret Mansion, truly extraordinary."

"We didn't expect that with so many Golden Core Cultivators here, we almost got counter-killed."

A black-robed Golden Core Demon Cultivator spoke with much emotion.

Previously, he had heard that cultivators from Celestial Secret Mansion were formidable, but he had never really witnessed it.

Now he could see clearly, these disciples from Divinity Transformation Holy Land were truly extraordinary.

"But there's something very strange, did these three Golden Core Cultivators from Celestial Secret Mansion really see through our plan, deliberately coming to trouble us? Why do I feel this seems like an accident?"

Another green-robed Golden Core Cultivator felt puzzled.

He felt the situation was unusual, these three cultivators from Celestial Secret Mansion didn't deliberately find them, but it was a coincidence.

It was precisely because of this unexpected encounter that led to the conflict between them.

"Haha, saying this now has no meaning, whether it was accidental or intentional to find us."

"Anyway, all three are dead, and we've lost so many people too."

"Both parties are enemies now, this enmity is thoroughly solidified."

"We should leave quickly."

"It's said that every Cultivator from Celestial Secret Mansion is vindictive."

"If they find out we killed these three cultivators from Celestial Secret Mansion, they might come after us."

Another red-robed Golden Core Cultivator spoke in a deep voice.

He was always worried that the cultivators from Celestial Secret Mansion would come for them.

"Afraid of nothing, when did our Primordial Demon Sect ever fear Celestial Secret Mansion."

"I'm daring them to come kill us at our Primordial Demon Sect's place, see how they'll end."

"But you are right, this place isn't our territory, but Celestial Secret Mansion's domain."

"No need to confront directly here."

The black-robed Golden Core Demon Cultivator nodded.

Whoosh whoosh whoosh!!!

In an instant, the three Golden Core Demon Cultivators, without saying a word, immediately picked up all the Storage Bags, scavenged the treasures clean, then quickly departed, even leaving the corpses behind.

And Jiang Fan, hidden deep in the earth, remained motionless.

Even though he had the opportunity to take out the remaining three Golden Core Demon Cultivators, he did not plan to act.

After all, these three Golden Core Demon Cultivators were his scapegoats, if they died here, who would take the blame for him.

As for the treasures of these Golden Core Cultivators, it's not worth it.

Currently, he wasn't seriously lacking treasures anyway.

It was for this reason he didn't plan to act but was quietly watching.

Just like an outsider.

"But is there a Fifth-Grade Opportunity here?"

At this moment, Jiang Fan's thoughts moved, his Spiritual Sense spreading to all directions.

At this moment, due to the Golden Core Cultivators' battle destroying this land, mountains collapsed, stones flew, resembling a wasteland.

But suddenly, he sensed that after the collapse of Nine Directions Mountain, a piece of dark-golden stone, about the size of a fist, emerged among the ruins, with dense, mysterious patterns on its surface.

Vaguely, it seemed as if the aura of numerous tribulation thunders was emanating, unfathomable.

Whoosh!

Jiang Fan used the power of Earth Escape Talisman, instantly arrived at the spot, and picked up the strange stone.

As soon as he held it, the Ten Thousand Transformations Pill Furnace immediately cried out: "Oh, my heavens, this is the Five Directions Tribulation Stone, an extremely precious Heaven and Earth's Wondrous Treasure, how did it appear here?"

It was shocked, unable to imagine that such a place contained a Five Directions Tribulation Stone.

"Five Directions Tribulation Stone? What kind of treasure is this?"

Jiang Fan asked curiously.

He thought since it's a Fifth-Grade Opportunity, it must be an incredibly precious treasure.

But indeed, he didn't know what Five Directions Tribulation Stone actually was.

"Master, as you know, promoting from Golden Core to Nascent Soul requires going through numerous stages and tribulations."

"It is precisely because of these tribulations that makes the number of Nascent Soul Cultivators so scarce."

"One of the tribulations is the Nascent Soul Celestial Tribulation."

"Promoting to Nascent Soul means enduring the baptism of Celestial Thunder and crossing the Celestial Thunder Tribulation to succeed."

"But even Celestial Spirit Root Cultivators cannot be certain they will pass the Nascent Soul Celestial Tribulation."

"Fortunately, many treasures exist between heaven and earth to help cultivators resist celestial tribulations."

"The Five Directions Tribulation Stone is one such Heaven and Earth's Wondrous Treasure to help cultivators resist the Nascent Soul Celestial Tribulation."

"As long as this treasure exists, it can help cultivators weaken the Nascent Soul Celestial Tribulation."

"Undoubtedly, if this stone were sold, countless cultivators would fight madly over it."

The Ten Thousand Transformations Pill Furnace spoke with emotion.

In the past, Daoist Wan Hua tried to promote to Nascent Soul, to increase the chance of success, countless efforts and resources were spent hoping to find treasures to resist celestial tribulations.

But such treasures were scarce, even money couldn't buy them.

Who could have thought, now his master casually obtained a Five Directions Tribulation Stone, a treasure able to resist the Nascent Soul Celestial Tribulation, its value is beyond imagination.

Even knowing his master's luck was good, it couldn't be this good, indeed, it's too exaggerated.
