Chapter 548: Signs of Spiritual Qi Revival, Moving Calamity! - Part 2

"It was indeed those demon cultivators who did it. Besides them, who else would dare kill our Celestial Secret Mansion disciples?"

"Start the war immediately with the Primordial Demon Sect. They dare kill our Celestial Secret Mansion disciples; if they don't pay the price, this won't end."

The many cultivators of the Celestial Secret Mansion were furious.

They never imagined that the cultivators of the Primordial Demon Sect would be so brazen.

It would have been one thing to eliminate our Celestial Secret Mansion cultivators, but they even brazenly flaunted here, seemingly eager for everyone to know they did it.

This was clearly a slap to their face; this had elevated to a matter of sect honor and disgrace.

"Did anyone else get involved in this matter?"

Despite this, a cautious Celestial Secret Mansion elder questioned whether this could be orchestrated by other forces, intending to provoke a war between the Celestial Secret Mansion and the Primordial Demon Sect, thus gaining advantage during the chaos.

"Elder, no one else was involved; there is no presence of third-party influence or causality."

"Certainly, Junior Brother Yang Yu and the others didn't intentionally seek trouble with those demon cultivators."

"They were just unlucky to encounter those demon cultivators, thus meeting disaster."

"This can be described as a calamity that befell them unbidden."

The numerous Celestial Secret Mansion cultivators remarked helplessly; they had investigated multiple times and found no third-party involvement.

"Then, let us fight."

The Nascent Soul Elder of the Celestial Secret Mansion immediately made the decision.

After all, demon dao and righteous dao are inherently irreconcilable.

Now that the Primordial Demon Sect has come to challenge them, they cannot refrain from retaliating.

...

Several months later.

In an unnamed cave somewhere on the Eastern Continent.

Jiang Fan was cultivating in a quiet chamber within the internal world of the Exquisite Tower.

After obtaining the Tier Five Spiritual Eye Spring, the spiritual energy inside the Exquisite Tower had become incredibly dense.

Thus, it didn't matter where he went to cultivate; it was essentially the same.

He no longer needed to deliberately seek fixed spirit veins.

"I've finally cultivated the Ten Thousand Swords Return to the Sect Talisman to the Great Success Realm."

At this moment, Jiang Fan was sitting cross-legged on the ground.

Boom~~

With a thought, countless spiritual qi gathered in the surroundings, transforming into numerous spiritual flying swords.

By now, he could condense three thousand spiritual flying swords.

If it were at the mastery level of the Ten Thousand Swords Return to the Sect Talisman, it would merely condense one thousand flying swords.

But now, he could condense three thousand.

Compared to before, it was a qualitative improvement.

Thud, thud, thud!

The next second, three thousand spiritual flying swords instantly blasted outward, filled with terrifying sword qi, smashing onto the ground, immediately blasting out numerous enormous craters.

The destructive power was simply beyond imagination.

Ordinary Golden Core cultivators facing this fierce sword qi would undoubtedly be pierced by ten thousand swords.

"Indeed, the Great Success-Level Ten Thousand Swords Return to the Sect Talisman is immensely powerful."

"The pity is that it consumes a substantial amount of spiritual power."

"For an ordinary cultivator, it's impossible to afford so much spiritual power."

Jiang Fan marveled inwardly.

Now he understood why few talisman cultivators in the Primordial Talisman Sect during the ancient era could cultivate the Ten Thousand Swords Return to the Sect Talisman.

This talisman does indeed have substantial power.

But the spiritual power consumption is not something ordinary cultivators can afford.

In fact, if not for his incredibly robust Primordial Golden Core, which integrated many life talismans, thus enriching his body with an extraordinary amount of Primordial Spiritual Power.

He possibly couldn't activate the Ten Thousand Swords Return to the Sect Talisman many times.

Nevertheless, it's undeniable that this talisman possesses remarkably strong destructive power, entirely capable of challenging a higher level.

Thump!

With this thought, Jiang Fan utilized his intent and opened the virtual panel he carried.

[Name: Jiang Fan]

[Realm: Fifth-Layer Golden Core (30%)]

[Profession: Tier Three Middle Grade Rune Master (60%)]

Obviously, compared to several months ago, his cultivation, and the skill level of his Life Talismans, have improved significantly.

This is also thanks to the large expenditure of Luck Points.

If it weren't for his considerable luck, he wouldn't be able to squander it so freely.

However, the various Life Talismans he possesses haven't received a qualitative improvement.

After all, these talismans rely not only on Luck Points but also require a significant amount of time.

But to be able to enhance the Ten Thousand Swords Return to the Sect Talisman to the Great Success Realm, he is already very satisfied.

"Hmm? Looks like Yuan Hongming has returned."

At this moment, Jiang Fan sensed something, his figure flickered, and he immediately left the Exquisite Tower, returning to the original cave.

Whoosh!

The figure of the Golden Core Cultivator Yuan Hongming also appeared in the cave, upon seeing Jiang Fan, he immediately cupped his hands and said, "As per your instructions, I have already gone to Huaming City nearby and obtained a lot of important intelligence."

"What intelligence? Tell me right away."

Jiang Fan raised an eyebrow and asked.

In fact, the unnamed cave where he is located is not very far from the famous Fallen Immortal Mountain Range, just a journey of several hundred miles.

Previously, he flew across unknown distances, finally arriving near the Fallen Immortal Mountain Range.

Fortunately, he was protected by Destiny on his way, encountering no calamities, rather proceeding very safely.

However, the reason he didn't immediately go to the Fallen Immortal Mountain Range was naturally due to concerns about potential dangers ahead.

Because of this, he sent Yuan Hongming to the independent cultivator city Huaming City to gather intelligence.

The so-called Huaming City is a Tier Four City.

Similar cities are abundant in the Fallen Immortal Mountain Range.

Practically, the Eastern Continent and various forces have established cities around the Fallen Immortal Mountain Range.

After all, this vast mountain range consistently attracts many cultivators, making it one of the most bustling places in the East Continent.

"It's said that several months ago, several Inner Sect Disciples from the Celestial Secret Mansion perished, thoroughly angering the Celestial Secret Mansion."

"This resulted in a war between the Celestial Secret Mansion and the Primordial Demon Sect, with both sides engaging in fierce battles."

"Unexpectedly, during the battle, the Celestial Secret Mansion discovered the Primordial Demon Sect's secret plan."

"These Demon Cultivators intended to resurrect ancient era demons in the Primordial Ruins' Secret Realm World."

"Moreover, the plan was about to be finalized."

"Once completed, it would presumably lead to a terrifying demonic calamity, bringing untold devastation to all life."

"Luckily, at that point, the Celestial Secret Mansion uncovered the Primordial Demon Sect's plan and intervened to prevent it, thus thwarting the Demon Dao's sinister scheme significantly."

"However, as a result, the Celestial Secret Mansion and the Primordial Demon Sect became mortal enemies."

"Numerous Nascent Souls went to war near Ten Thousand Talisman City, shaking the heavens and dimming the sun and moon."

"Countless cultivators perished in that war."

"Even over ten Nascent Souls died."

The cultivator Yuan Hongming briefly recounted the major happenings of recent times.

Undoubtedly, this event profoundly shook the entire Eastern Continent, even involving the Divinity Transformation Holy Land, triggering a war between the Righteous Dao and the Demon Dao, resulting in numerous cultivator casualties.

This is also the most tragic battle between the Righteous Dao and the Demon Dao in recent years.

"This."

Upon hearing this, Jiang Fan blinked.

He never thought that merely an inadvertent choice or act would ignite a war between the Righteous and Demon Dao, causing the Divinity Transformation Holy Land to go to war, with countless deaths and injuries.

It was like a butterfly gently flapping its wings, yet triggering a super typhoon.

The catalyst was the death of an Inner Sect Disciple from the Celestial Secret Mansion, Yang Yu.

"Master, you truly are a bane; wherever you go, war breaks out,"

"Now even the Divinity Transformation Holy Land has been afflicted."

The Ten Thousand Transformations Pill Furnace lamented.

It always knew the Celestial Secret Mansion dared offend its master, and assuredly would meet no good end.

But it never expected retribution would come so swiftly.

Moreover, this is just the beginning."

"This."

The Primordial Talisman Pen also was astonished, it originally intended for Jiang Fan to seek vengeance against the Celestial Secret Mansion, yet upon initial contact, a random act caused the Celestial Secret Mansion to suffer substantial casualties among its cultivators; it was utterly terrifying.

This was truly a mobile catastrophe.

"Bullshit, what does this affair have to do with me?"

Jiang Fan retorted irritably.
