

Fortune 550

Chapter 550: Going to the Fallen Immortal Mountain Range, Obtaining a Sixth-Grade Opportunity_2

"Every year, a large number of Golden Core cultivators fall, and occasionally even Nascent Soul cultivators perish."

"This place is like a slaughterhouse."

"And staying in Huaming City long-term is simply impossible."

"Because the rent in this city is so expensive, it's not something ordinary cultivators can afford."

"If you don't take risks and gain opportunities, you'll quickly run out of resources."

The Golden Core cultivator Yuan Hongming felt this place was not suitable for ordinary cultivators to live in, even if they do come, they are unlikely to stay long and will soon be deterred by the high rent and prices.

Huaming City is vast, but it is difficult to reside.

Even Golden Core cultivators find it expensive, which shows how shocking the rental prices here are.

"Then can we rent a residence in this city?"

Jiang Fan raised an eyebrow.

He felt that with his current wealth, renting a residence shouldn't be a problem.

If he couldn't afford it, probably few could.

"There's no problem with that."

The Golden Core cultivator Yuan Hongming said solemnly.

He had already found a suitable location in Huaming City.

As a Golden Core cultivator, renting a house here was an easy task.

The real difficulty was whether one could stay here long-term.

Otherwise, living here would be a loss-making venture.

Boom~~~

Just then, the earth suddenly tremored fiercely, with roaring sounds, seemingly shaking an area stretching hundreds of kilometers, the ground cracking with countless fissures.

Accompanied by terrifying energy waves, sweeping in all directions.

"Master, a Nascent Soul cultivator is fighting."

The Ten Thousand Transformations Pill Furnace exclaimed in surprise, sensing intense spiritual qi fluctuations and battle waves, which only Nascent Soul cultivators could create.

If it were elsewhere, witnessing a Nascent Soul cultivator would be impossible.

But arriving at the Fallen Immortal Mountain Range, you could casually encounter a Nascent Soul battle.

Such fearsome battle waves, even the shockwaves alone could kill many Golden Core cultivators.

Boom!

Suddenly, Jiang Fan sensed the Fortune-Telling Talisman deep in his Elixir Field and Sea of Qi start vibrating, buzzing, and a message instantly seeped into the depths of his consciousness.

"Disaster from heaven, affecting everywhere, hide your tracks, the calamity resolves itself."

"Stay in the cave, hide underground, restrain your energy, you can obtain a Sixth-Grade Opportunity, minor fortune."

"Leave the cave and choose any direction to escape, encounter extreme disaster, no survival, great misfortune."

Sensing this message, Jiang Fan was startled.

Clearly, this sudden Nascent Soul battle was indeed an unexpected disaster.

If he panicked and chose to leave the cave to hide elsewhere, he would surely encounter calamity.

Highly likely to be detected by the Nascent Soul cultivators fighting and then slain.

The only option was to stay in the cave, concealing his energy, to avoid this disaster.

After all, if not discovered by them, naturally there would be no big problem.

The greatest fear is running around carelessly, leading calamity to one's door.

"Master, what should we do now? Should we leave here?"

"This is a Nascent Soul battle, entering the Nascent Soul cultivator's battle range could be deadly."

"I've heard before that the Fallen Immortal Mountain Range is chaotic, dangerous, frequently encountering Nascent Soul battles."

"Never expected to encounter one so quickly."

The Golden Core cultivator Yuan Hongming said with a bit of fear, his body trembling.

The gap between Golden Core and Nascent Soul is vast, impossible to bridge.

If encountering Nascent Soul cultivators, Golden Core cultivators are surely doomed.

In fact, he had heard similar stories before.

Some Golden Core cultivators inadvertently involved in Nascent Soul battles, resulting in being shaken to death by the shockwaves.

He certainly didn't want to become such a hapless victim.

So he wanted to bolt and avoid this disaster immediately.

"What's the rush? Running around now would be extremely dangerous."

"We'll hide here, make no rash moves, naturally there will be no issues."

Jiang Fan said calmly.

"Yes, Master."

Upon hearing this, the Golden Core cultivator Yuan Hongming relaxed, as his master was now his pillar.

If his master said it was fine, then it surely wouldn't be a big problem.

He hoped the Nascent Soul cultivators fighting would finish soon and not notice innocent cultivators like himself.

Whoosh whoosh whoosh!!!

At this moment, the two figures flickered and instantly returned to the internal world of the Exquisite Tower.

Then under Jiang Fan's control, the Exquisite Tower instantly merged into the depths of the earth, melding with the surroundings.

No aura leaked.

Rumble~~~

Just upon entering the Exquisite Tower, a terrifying force descended from the sky, striking the mountain, instantly pulverizing it, creating a massive crater.

Hundreds of square kilometers were similar.

Many mountains collapsed, and the ground appeared with huge fissures.

This area became an absolute Life Forbidden Zone.

"This is the might of a Nascent Soul? Truly terrifying."

Hiding in the Exquisite Tower, Jiang Fan was immensely thankful, lucky he reacted quickly, escaping into the Exquisite Tower in time, or he would certainly have been affected.

Just the shockwaves alone caused such destructive power.

Compared to Golden Core, Nascent Soul is vastly stronger.

The reason Nascent Soul cultivators are so strong is because they can harness the Power of Heaven and Earth, manipulate nature's forces with a mortal body, almost like becoming part of the heavens.

Thus, the powers Nascent Soul cultivators unleash with a mere flick of their hand are akin to natural disasters.

Golden Core can't possibly compare.

"Running around would surely be a death path, it's safer to stay put."

Jiang Fan realized the dangers of this region, running around would definitely be fatal.

And he couldn't linger in the wild, he must reside in Huaming City.

Because in the wild, you never know what might happen.

But in the city, at least there's array protection, order, and other cultivators wouldn't dare cause trouble.

It's indeed expensive, but it's worthwhile.

...

Several hours passed by.

The sun set, the moon rose, night clearly arrived.

At this moment, Jiang Fan sensed the Nascent Soul cultivators' battle fluctuations entirely stopped.

He didn't know the outcome of the two Nascent Soul combatants.

But it had nothing much to do with him, as long as it didn't affect him, it was fine.

"Is it safe?"

Jiang Fan furrowed his eyebrows, feeling uncertain.

He wasn't sure if he had passed the danger.

If the Nascent Soul cultivators were still there, coming out now might be walking into a trap.

Boom~~

Suddenly, a message resonated in the depths of his consciousness: "You cautiously stayed put, didn't randomly leave, luckily escaping a Nascent Soul calamity, gaining a Sixth-Grade Opportunity and hundred thousand Luck Points."

Sensing this message, Jiang Fan was overjoyed.

He had been uncertain if he had passed the calamity, but the message confirmed it was over.

He hadn't expected to do nothing yet easily pass the calamity and gain benefits.

"There's also a Sixth-Grade Opportunity."

Jiang Fan flashed and emerged from the Exquisite Tower.

His Spiritual Sense spread out, perceiving the surrounding devastation.

Many mountains had collapsed, becoming rubble.

The ground revealed massive pits and fissures, like a site ravaged by war.

Lucky this place was desolate; otherwise, many would have perished.

Whoosh!

Following the Sixth-Grade Opportunity's message, he moved southwest, quickly reaching a deep pit.

Inside the pit appeared a black-robed cultivator.

The person was blood-stained, organs and bones shattered, drenched in blood, utterly lifeless.

"Is this the Sixth-Grade Opportunity?"

Jiang Fan immediately noticed the Storage Bag on the black-robed cultivator.

Undoubtedly, this cultivator was unfortunate.

Having suffered from the Nascent Soul battle and unable to escape the shockwaves, resulting in death.

Estimated that the victim was extremely aggrieved, dying unwillingly.

After cultivating arduously for so long, dying like this.
