

Fortune 551

Chapter 551: Great Harvest, Obtaining the Golden Liquid Jade Returning Pill

But this has little to do with Jiang Fan. After all, in the cultivation realm, there are too many unlucky people like this, so one more doesn't make a difference. He had long since gotten used to it.

Swoosh!

Thinking of this, Jiang Fan picked up the storage bag and then checked the treasures inside.

"Tch, a poor wretch, not even a Tier Three Spirit Medicine?!"

Jiang Fan inspected the treasures in the storage bag, hoping to find some Tier Three Elixirs and Tier Three Spirit Medicines. After all, only these cultivation resources could quickly enhance his cultivation.

But without a doubt, the storage bag did not contain such precious spirit medicines.

Even if there had been similar spirit medicines, they would have long since been consumed by this Golden Core cultivator, leaving nothing behind.

Of course, that doesn't mean there were no treasures in the storage bag at all.

There were still plenty of spirit stones and some valuable materials inside.

However, with such a small harvest, it naturally left him feeling quite disappointed.

"Wait a moment, could it be? There's actually Golden Liquid Jade Returning Pills? And a whole three of them?"

But at this moment, Jiang Fan saw a jade bottle inside the storage bag and then opened it to take a look.

A surge of joy instantly welled up in his heart, filling him with immense excitement, almost unable to believe his own eyes.

Golden Liquid Jade Returning Pills!

He never expected that this Sixth-Grade Opportunity would turn out to be Golden Liquid Jade Returning Pills.

Because such an elixir is extremely precious and can help a Foundation Establishment cultivator achieve Core Formation.

If it were on the Southern Continent, such an elixir would be impossible to buy.

It's basically monopolized by the Nascent Soul sects.

Even if one had money, it would be impossible to buy a single Golden Liquid Jade Returning Pill.

After all, such an elixir could forge a Golden Core.

Even for a Nascent Soul sect, it's an extremely precious elixir, not something that can be refined easily.

However, he did not expect that after coming to the East Continent, he would actually obtain three Golden Liquid Jade Returning Pills.

Even though the East Continent is resource-rich, elixirs like these are still extremely precious.

"It seems that Weiwei's resources for advancing to Golden Core are set."

Jiang Fan was overjoyed in his heart.

Although he is now a Fifth-Layer Golden Core cultivator, and the Golden Liquid Jade Returning Pills are basically of little use to him, but his Dao companion, Su Weiwei, is different; she is currently still just a Foundation Establishment cultivator.

According to Su Weiwei's aptitude, the probability of her advancing to Golden Core in the future is very high, at least over sixty or seventy percent.

However, if assisted by the Golden Liquid Jade Returning Pill, the success rate becomes one hundred percent.

Therefore, the appearance of this elixir is an enormous help for his Dao companion.

"Congratulations, master, on acquiring the Golden Liquid Jade Returning Pills. It seems the mistress has hope for Core Formation in the future."

The Ten Thousand Transformations Pill Furnace said with much emotion.

It thought that since they obtained so many Golden Liquid Jade Returning Pills, even if the first Core Formation attempt failed, there could be a second try.

But judging by the mistress's foundation and aptitude, the probability of success in one attempt is very high, and there wouldn't be a need for a second time.

"It truly is a Sixth-Grade Opportunity."

Jiang Fan felt very satisfied.

Although he did not find any Tier Three Elixirs, obtaining these Golden Liquid Jade Returning Pills was also quite satisfactory.

After all, this was an opportunity he stumbled upon by chance, and he couldn't expect too much.

However, this place was not suitable for staying long.

No one knows if that Nascent Soul cultivator would return, so it's best to leave this dangerous place quickly.

Swoosh!

Thinking of this, Jiang Fan did not hesitate and immediately flew towards Huaming City.

...

The next morning.

Jiang Fan crossed hundreds of kilometers and finally arrived in Huaming City, a city of independent cultivators near the Fallen Immortal Mountain Range.

It is said the city's owner is called Flower Nether Daoist, a late-stage Nascent Soul Great Cultivator, just a step away from Divinity Transformation, with incredibly strong combat power, so he was able to build a city here.

Due to the rich resources and numerous demon beasts of the Fallen Immortal Mountain Range, it attracted countless scattered cultivators to settle.

But only a few cultivators could truly remain.

"Did you hear? Yesterday, Flower Nether Daoist and Cloud Daoist had a battle over a treasure."

"Of course I know, the battle yesterday was tremendously terrifying, affecting over a thousand kilometers. Many cultivators were affected and killed, including some Golden Core cultivators."

"Yes, before we only heard about the terrifying combat power of Nascent Soul cultivators, and yesterday we witnessed it, utterly incomparable to other cultivators, their every move like heavenly might."

"Heh, do you think Flower Nether Daoist and Cloud Daoist are ordinary Nascent Soul cultivators? They are late-stage Nascent Soul Great Cultivators, just one step away from Divinity Transformation, their combat power is naturally terrifying."

"By the way, do you know what treasure caused these two Great Cultivators to fight?"

"This part isn't very clear. Both sides seemed very cautious, not revealing the matter, but the result shows Flower Nether Daoist won and seemed to have obtained the treasure, while Cloud Daoist fled in disgrace."

"No surprise, Flower Nether Daoist is indeed so powerful."

"Foolish, do you think this is the end of the matter? It's only just begun. If Cloud Daoist recovers, there might be another great battle."

Numerous cultivators discussed clamorously.

Clearly, the Nascent Soul battle that happened yesterday was known to many cultivators.

They also sensed the intense level of that battle, as if it was a natural disaster.

However, those in Huaming City were unaffected.

Only some cultivators out in the wild were caught up in the battle, meeting a tragic end.
