Chapter 558: Promoted to Sixth-Layer Golden Core, White Tiger Geng Gold Talisman

In the blink of an eye, half a year has passed.

Su Weiwei and Lu Youyou have also become thoroughly familiar with life in Blood Saber Mansion.

Both women's cultivation has advanced by leaps and bounds, reaching the realm of the Sixth-Layer Foundation Establishment.

Compared to ordinary Foundation Establishment cultivators, this is considered rapid progress.

Of course, this is undoubtedly thanks to the vast amount of cultivation resources, otherwise, no matter how high their talent, such rapid progress would not be possible.

"Youyou, during this period, don't run around outside."

"It's said the situation outside seems to be getting increasingly chaotic."

"Even inside the city, there have been many murder cases."

Su Weiwei said to Lu Youyou.

When they first arrived, Huaming City was very safe, but as time passed, its security deteriorated more and more.

It's said that cases of Foundation Establishment cultivators being murdered happened frequently in the city, most targeting for killing and plundering treasures.

Therefore, cultivators like them are in great danger when traveling outside.

Even with the protection of the Blood Saber Immortal Alliance, it's hard to say whether some accident might happen.

Of course, in most cases, Golden Core cultivators don't face problems within the city.

After all, having reached this level, they possess strong life-saving abilities.

Even if ambushed by enemies, they can quickly react and escape pursuit.

"Sister Weiwei, I understand, I won't be running around during this time."

Lu Youyou nodded seriously.

Having stayed in Huaming City for a while, she naturally knew how dangerous this city was.

Even compared to the Black Dragon Sea Region, its danger level is far higher.

Because there are simply too many high-tier cultivators appearing in the Fallen Immortal Mountain Range.

Each adept in powerful combat techniques and magical treasures.

Being careless could lead to being killed by enemies, dying an untimely death.

If not for Jiang Fan bringing her here, she wouldn't have been able to reach Huaming City.

Ordinary Foundation Establishment cultivators coming here would be courting death.

But it must be said, the resources in this city are incredibly abundant.

Various rare spirit medicines and materials can readily be purchased here, at very cheap prices.

She thinks if these spirit medicines and rare materials were transported to the Black Dragon Sea Region, they would be worth several times, even ten times the price, enough to make her rich overnight.

No wonder countless loose cultivators from all over the Eastern Continent endlessly flock to the Fallen Immortal Mountain Range.

For ordinary loose cultivators, this place is truly an unparalleled treasure land.

If they have enough strength and luck, they can quickly rise.

"But you don't need to worry too much either."

"With the Blood Saber Immortal Alliance's protection, those tribulation cultivators still dare not act rashly."

Su Weiwei smiled gently.

If one stays in Blood Saber Mansion, safety is still greatly assured.

After all, the entire mansion is protected by a Tier Three Array, coupled with the power of Golden Core cultivators, those tribulation cultivators would be foolish to come here seeking death.

Of course, if faced with a Nascent Soul, it still can't resist.

But a Nascent Soul level cultivator wouldn't be interested in a Golden Core influence like Blood Saber Immortal Alliance.

So remaining in Blood Saber Mansion to cultivate is very safe.

"Elder Jiang seems to have been in seclusion for half a year; I wonder when he will exit?"

Lu Youyou asked curiously.

She feels this Elder is truly a reclusive cultivation enthusiast who rarely ventures out.

Yet, the treasures on him are never lacking, she really wonders where these treasures come from.

"Hmm, not sure, but judging by the time, it's probably about time for him to exit."

Su Weiwei smiled.

She knows her husband is in seclusion, planning to break through his bottleneck, so she hasn't disturbed him.

As a Golden Core cultivator, spending months or even years in seclusion is quite normal.

...

Meanwhile, inside Exquisite Tower, in a secluded chamber.

Boom~~

Jiang Fan sits cross-legged on the ground, operating the Mixed Element Talisman Scripture, turning his entire body into a vortex of spiritual energy, vast Heaven and Earth Spiritual Qi continuously entering his body, being rapidly refined.

In the depths of his elixir field and sea of qi, the primordial golden core is slowly growing stronger.

"Finally cultivated to Golden Core Fifth-Layer Perfection."

At this moment, Jiang Fan senses that the forty-five acupoints within him, each infused with a large amount of primordial spiritual power, have reached Perfection.

Just one step away from breaking through and advancing to the sixth layer of the Golden Core.

Relying on his own cultivation alone, it would take at least seven or eight years to reach this level.

But he obtained many Tier Three Guiyuan Pills from Blood Saber Daoist and others.

After refining these Tier Three Guiyuan Pills, his cultivation advanced rapidly, refining them into primordial spiritual power while also opening up individual acupoints.

"Let's begin."

Thinking of this, Jiang Fan does not hesitate, he activates the Mixed Element Talisman Scripture.

The primordial spiritual power within his forty-five acupoints begins to vibrate, like vortices of spiritual power.

As for the spiritual power contained in his meridians, it is akin to rivers of spiritual power.

Each acupoint is like a lake.

Countless streams of spiritual power surge like rivers, converging into lakes.

They charge towards the bottleneck of the sixth layer of the Golden Core.

For ordinary Golden Core cultivators, this bottleneck might require several years of effort to breakthrough.

But for Jiang Fan, this bottleneck is nothing.
