

Fortune 561

Chapter 561: Catastrophe Erupts, the City Besieged_2

Therefore, the cultivators need to delve deep into the Fallen Immortal Mountain Range to find the entrances to these Secret Realm Worlds.

Once found, for loose cultivators, it represents a significant opportunity.

However, such searches are extremely dangerous.

Because too many cultivators enter the Fallen Immortal Mountain Range.

If you encounter other cultivators in the wild, you're likely to face a big battle.

Every day, there are quite a few cultivators killed by tribulation cultivators.

However, even so, the benefits contained in the Fallen Immortal Mountain Range are too great.

Many cultivators are willing to take such risks to venture deep into the mountains in search of opportunities.

In fact, many cultivators have succeeded and then soared.

Even the promotions of the divinity transformation cultivators from the four divinity transformation holy lands are closely related to the Fallen Immortal Mountain Range.

This has made the place a holy land in the minds of countless cultivators.

Every year, innumerable cultivators come to the Fallen Immortal Mountain Range.

"Hmm."

Upon hearing this, Su Weiwei also breathed a sigh of relief.

She was worried her husband would ignore the risks for an opportunity.

But from the looks of it, her husband is more cautious than she imagined.

"By the way, husband."

"If you want to quickly improve your cultivation, perhaps you should consider Youyou."

"She has the Tongyu Phoenix Marrow Body, her body contains spiritual qi, making her a top-tier furnace."

"If you dual cultivate with her, your cultivation will undoubtedly progress rapidly."

Su Weiwei earnestly looked at Jiang Fan and gave her suggestion.

"Why would you suddenly bring this up?"

Jiang Fan blinked; he didn't expect Su Weiwei to bring this up proactively.

After all, this suggests taking a concubine.

"Husband is a Golden Core Cultivator, a future great power in the cultivation realm."

"Even if it's three wives and four concubines, that's quite normal."

"Besides, it's also for husband's cultivation."

"If husband's cultivation can advance, then it's all worth it."

"More importantly, I find it difficult to keep up lately."

Su Weiwei's face blushed, her beautiful eyes looked watery as she gazed at Jiang Fan, shyly.

At the start, she felt at ease and even had the upper hand.

Who would have thought that her husband's cultivation would continually break through, his physique becoming stronger, like a divine beast.

This made things increasingly hard for her, and she struggled to keep up.

To be honest, she understood why great powers in the cultivation realm often have multiple partners.

Probably because their physique is too powerful, one Dao companion can't handle it alone.

So having several Dao companions is only natural.

Moreover, she had no resistance to such matters.

After all, whether in the Mortal World or the Cultivation Realm, any capable man often has many wives and concubines.

At this point, having only one Dao companion is quite rare.

More importantly, Lu Youyou's special constitution truly benefits her husband.

Dual cultivating with Lu Youyou could certainly aid him, making it the right choice.

Since the stronger husband's cultivation becomes, the safer the future.

"Of course, you need not worry about Youyou's thoughts."

"Earlier, I hinted about it, and Youyou is also willing."

Su Weiwei said.

"If she's willing, then taking her in is no harm."

Jiang Fan rubbed his chin.

Although Lu Youyou does have secrets, with an ancient soul body hidden within her, it doesn't matter, as every cultivator in the cultivation realm has secrets.

As long as he can control the other party, it's not a big issue.

And if he could take in Lu Youyou, it could be a win-win situation.

Hearing this, Su Weiwei felt relieved, realizing that she will have a sister in dealing with this man in the future.

She couldn't blame herself for feeling overwhelmed, given how fierce this man was.

She couldn't understand where he got all that stamina and energy from, seemingly endless.

Boom~~

At this moment, a massive tremor suddenly came from outside, with a force capable of destroying the heavens and earth descending from the sky, striking fiercely upon Huaming City as if trying to obliterate the entire city.

But the Tier Four Array of Huaming City activated immediately, an invisible barrier enveloping all sides, covered with dense array patterns.

The two forces collided instantly, causing terrifying waves.

The whole earth trembled.

Yet despite this, under the protection of the Tier Four Array, Huaming City remained unharmed.

"What's going on?"

Su Weiwei was instantly bewildered, not knowing what happened or why such a big commotion occurred, but she could feel the terrifying destructive force.

"A Nascent Soul cultivator has made a move, attacking Huaming City."

Jiang Fan's face was very serious.

His spiritual sense expanded outwards, covering all directions, sensing an elder in a gray robe appearing in the sky, along with four other elders, each exuding an immensely powerful aura, all at the Nascent Soul level.

Undoubtedly, a total of five Nascent Souls appeared here, surrounding the entire Huaming City.

"Why would Nascent Souls attack Huaming City?"

Su Weiwei felt extremely puzzled.

Because based on her understanding of the city, it had been a long time since Huaming City was attacked by enemies.

But now, with five Nascent Soul cultivators attacking, it's truly baffling.

"Perhaps it has something to do with Flower Nether Daoist."

"It's said he acquired some treasure in the Fallen Immortal Mountain Range."

"Earlier, he even had a big battle with Cloud Daoist, both suffering severe injuries."

"I suspect the five Nascent Souls are here for revenge, and we've just been unlucky, caught in the crossfire."

Jiang Fan squinted his eyes, recalling past events.

Before arriving at Huaming City, he witnessed a battle between two Nascent Souls.

They were Flower Nether Daoist and Cloud Daoist.

Although Flower Nether Daoist had the upper hand and repelled Cloud Daoist, he didn't fare much better, likely sustaining significant injuries.

Thus, he had been hiding in Huaming City, never venturing out.

"Husband, if that's the case, can Huaming City withstand the attack of five Nascent Souls?"

Su Weiwei asked worriedly.

She wasn't concerned about the grudges between Flower Nether Daoist and the five Nascent Souls outside, only about whether she and her husband would be affected by these Nascent Soul cultivators.

After all, essentially, this matter had nothing to do with them, only tangentially involved due to Flower Nether Daoist.

But in this world, disasters come like that; just being innocent doesn't exempt one from disaster.

Weakness is indeed the greatest original sin.

Even a casual ill-will from the strong can be fatal.

"Rest assured, Huaming City is a millennium-old city."

"Protected by a Tier Four Array."

"Even facing the siege of five Nascent Souls, it should be able to hold out for a while."

"In the short term, there shouldn't be much trouble."

Jiang Fan said calmly.

To be honest, he wasn't very worried about his safety either.

With the power of the Gate of the Void, he could escape and leave Huaming City at any time.

"That's good."

Upon hearing this, Su Weiwei breathed a sigh of relief.

As long as the five Nascent Souls couldn't breach the city, they'd be quite safe.

Boom~~

Instantly, Jiang Fan sensed his Fortune-Telling Talisman deep within his Dantian and Sea of Qi begin to tremble, a message swiftly entering his consciousness's depths.

"Nascent Soul catastrophe, involving innocents, a great deal of fanfare, but without real danger."

"Fleeing in panic from Huaming City and incurring the wrath of Nascent Soul cultivators, encountering near-fatal danger, extremely ominous."

"Escaping through the Gate of the Void back to Ten Thousand Beasts Mountain Range, with no gains, neutral."

"Staying in Blood Saber Mansion, staying calm and doing nothing, tonight I could gain a Fifth-Grade Opportunity, without risk or hidden danger, extremely auspicious."

Perceiving this message, Jiang Fan rubbed his chin, curious in his heart.

It seemed just as he predicted; the arrival of the five Nascent Souls appeared imposing but was actually not dangerous. As long as he remained calm and didn't act rashly, there shouldn't be any major problems.

Moreover, staying in the Blood Saber Mansion, doing nothing, he could even gain a Fifth-Grade Opportunity.

This indeed exceeded his expectations.
