Chapter 564: Secret Treasure from the Immortal Realm, Celestial Cicada Spirit Leaf

Bang!

At this moment, a message instantly sank into the depths of Jiang Fan's sea of consciousness: "You've been attacked by three Golden Core cultivators. Fortunately, you struck first and killed three formidable enemies, narrowly escaping a disaster, and obtained a Fifth-Grade Opportunity along with 200,000 Luck Points."

"Is that how I overcame the disaster?"

Upon sensing this message, Jiang Fan blinked.

Previously, he learned from the Fortune-Telling Talisman's message that he would have a chance to obtain a Fifth-Grade Opportunity tonight. He was initially puzzled about how he would acquire it.

But now, seeing these three sudden intruders, he immediately understood what was going on.

It turned out there were three Golden Core Tribulation Cultivators attempting to invade Blood Saber Mansion, and he easily slew them.

"Yet I couldn't perceive any trace of their presence earlier."

"How did they manage to invade Blood Saber Mansion?"

Jiang Fan was quite surprised.

He considered these three Golden Core cultivators to be quite extraordinary.

After all, he possessed Nascent Soul-level Spiritual Sense, and even Nascent Soul cultivators couldn't escape his perception.

Yet these three uninvited guests managed to conceal themselves even from his senses, indicating their capabilities.

Unfortunately for them, their luck was poor.

They encountered someone with luck that defied the heavens.

As a result, he impulsively activated his Life Talisman—the White Tiger Geng Gold Talisman—and easily killed them instantly without giving them any chance to resist.

Honestly, if he hadn't acted suddenly, it wouldn't have been so simple to kill these three Golden Core cultivators and might have caused a great commotion.

"Is this the Fifth-Grade Opportunity?"

At this moment, Jiang Fan felt a stir in his heart. He picked up a treasure from one of the Golden Core cultivators' corpses, a green leaf emitting a mysterious aura, covered in complex patterns and unfathomable.

He sensed this leaf was quite unusual, perhaps it was the reason those three Golden Core cultivators could evade his perception.

Boom~~

The next second, Jiang Fan consumed Luck Points, a mysterious energy instantly entered the green leaf, attempting to fully refine this treasure.

10,000 Luck Points, 20,000 Luck Points, 30,000 Luck Points...

"How come consuming so much Luck Points still hasn't refined it?"

Sensing the rapid consumption of his Luck Points, Jiang Fan was taken aback. Though he knew this treasure was extraordinary, he hadn't expected it to this extent.

Yet he hesitated not at all, since the more Luck Points it consumed, the more extraordinary the treasure was.

For him, it was rather a huge boon.

Bang!

After consuming a full 150,000 Luck Points, Jiang Fan found he finally refined the treasure completely, his consciousness instantly merging into the core of the treasure.

Secret treasure—Celestial Cicada Spirit Leaf!

A message instantly sank into his sea of consciousness, revealing the various abilities of this secret treasure.

"No wonder these three Golden Core cultivators could evade my perception."

Jiang Fan's eyes glinted.

Without a doubt, this was an Invisibility Treasure, seemingly a secret treasure fallen from the Immortal Realm to the mortal world, possessing nine leaves in total.

Currently, he only possessed one leaf.

Yet even with just one leaf, it possessed the ability to hide one's form.

Once refined, this Celestial Cicada Spirit Leaf could completely conceal one's aura, become invisible, erase one's presence, making it impossible for other cultivators to detect one's existence.

Previously, those three Golden Core cultivators used the power of this secret treasure to silently infiltrate Blood Saber Mansion, with no cultivators able to detect their movements.

They even used this secret treasure to assassinate countless cultivators unknowingly.

"A secret treasure from the Immortal Realm?"

"Could it really be that an Immortal has visited the Void Realm?"

Jiang Fan stroked his chin, feeling very curious about the Celestial Cicada Spirit Leaf's origins.

He surmised this secret treasure might have been brought by an Immortal from the Immortal Realm.

Due to some unexpected incident, the Celestial Cicada Spirit Leaf was lost in the Void Realm.

Originally, there were nine leaves of the Celestial Cicada Spirit Leaf, but now they've scattered everywhere and are nowhere to be found.

If all nine Celestial Cicada Spirit Leaves were complete, it might not just be a Fifth-Grade Opportunity.

It could likely be a Second-Grade Opportunity, or even a First-Grade Opportunity.

Yet even so, this single Celestial Cicada Spirit Leaf would bring him substantial help.

Boom~~

Thinking this, Jiang Fan's heart moved, immediately activating this Celestial Cicada Spirit Leaf.

Immediately, the leaf easily merged into his body, enveloping him in a mysterious strength, obliterating his aura entirely.

It was as if he were completely invisible.

Any spiritual sense that tried to perceive him would easily penetrate his body, as if he'd become ethereal.

At this moment, Jiang Fan understood why he couldn't perceive the three Golden Core cultivators earlier; it turns out this secret treasure, Celestial Cicada Spirit Leaf, had such unbelievable traits.

"Even a Perfection Level Conceal Breath Talisman cannot compare to this secret treasure."

Jiang Fan was deeply impressed.

Although a Perfection Level Conceal Breath Talisman can perfectly conceal one's aura, hiding one's cultivation.

Faced with a stronger cultivator, one might still be detected.
