Chapter 579: Refining Kui Ox Essence Blood, Spiritual Sense of Ninth-Layer Nascent Soul_3

Luckily, it was only a single drop of True Spirit Essence Blood; if it were slightly more, it wouldn't be something he could refine now.

Thud!

Without a second thought, Jiang Fan immediately swallowed this drop of True Spirit Essence Blood, then it quickly entered his stomach, releasing boundless heat.

This was even more terrifying than any elixir and spirit medicine he had ever taken, the endless heat seemed to want to burn every cell of his body to ashes.

It would be manageable if it was just immense energy, but it also contained the spiritual oppression of the Kui Ox's true spirit.

A Kui Ox instantly charged into the depths of his consciousness sea, accompanied by terrifying purple thunderbolts, attempting to destroy his soul.

"I see, to refine True Spirit Essence Blood, one needs to destroy the spiritual oppression contained within this drop of essence blood."

"Only by completely destroying the spiritual oppression within can the essence be refined."

"No wonder the Clan Leader of the Iron-winged Sparrow Race previously acquired this drop of True Spirit Essence Blood but didn't dare to refine it at all."

Jiang Fan's eyes showed a glimmer of brilliance.

Undoubtedly, refining True Spirit Essence Blood is not an easy task and involves terrifying risks.

With a minor mistake, one's soul could be severely damaged by the spiritual oppression of the True Spirit, or even destroyed.

Fortunately, his soul power is exceptionally strong, utterly fearless of the soul oppression from the Kui Ox.

Rumble~~

In the next second, Jiang Fan activated the Soaring Snake Technique, mobilizing the bloodline power throughout his body.

A phantom image of a Soaring Snake instantly appeared in the depths of his consciousness sea.

The Soaring Snake is also a powerful True Spirit not inferior to the Kui Ox.

Thump thump thump!!!

In an instant, the Soaring Snake and Kui Ox began to battle in the consciousness sea, with both sides engaging in fierce clashes.

Each collision erupted with terrifying destructive power, like stormy seas flooded with murderous intent.

It was as if these two Innate True Spirits had been resurrected in the consciousness sea.

"It's merely a True Spirit that's been dead for who knows how long, thinking it could act fierce with just a bit of soul oppression, it's simply dreaming; die." Jiang Fan's eyes shone with a cold light.

He urged his soul power, striking towards the soul of the Kui Ox.

With each collision, the phantom of the Kui Ox gradually faded.

After all, the True Spirit Kui Ox had long since fallen, having gone through a long history, and compared to its peak days, not much spiritual oppression remained in this essence blood.

Boom~~

Who knows how long has passed, the Kui Ox let out a mournful cry, and then the phantom of the Kui Ox instantly dissipated, a pure soul power immersed deep into his consciousness sea.

"No way, there are actually benefits like this?"

"Soul power is growing crazily."

Jiang Fan clenched his fist.

He sensed his consciousness sea expanding, expanding, continuously expanding.

Soul power was rapidly increasing at a visible speed.

Evidently, this is a substantial benefit gained from defeating the will of the Kui Ox, the reward received.

Originally, his spiritual power was equivalent to the realm of Seventh-Layer Nascent Soul.

But after acquiring this vast soul power, it was dramatically elevated.

Seventh-Layer Nascent Soul, Eighth-Layer Nascent Soul, Ninth-Layer Nascent Soul!

Without a doubt, now his spiritual power can be compared to the realm of Ninth-Layer Nascent Soul.

Just one step away from reaching the realm of Divinity Transformation.

"This has already reached the spiritual power of Ninth-Layer Nascent Soul, it's truly formidable."

Jiang Fan was elated.

Unexpectedly, just at the beginning of refining this drop of Kui Ox Essence Blood, he gained such immense benefits, far beyond what he could have imagined.
