

## **Fortune 587**

Chapter 587: Great Harvest, Advancement to Seventh-Layer Golden Core

"Or could it be that something has gone wrong with the backing of these Demon Cultivators."

Jiang Fan touched his chin, feeling very puzzled about this point.

Originally, he was quite worried, thinking that if he dealt with the small fry, the big ones would come, but now it seemed there were no such repercussions.

Perhaps this has something to do with the nature of the Demon Race.

Or maybe it has something to do with the other side's backing facing big trouble.

However, the intelligence he received was too little, and he didn't know the exact reason.

But it doesn't matter, as long as Peach Blossom Valley doesn't encounter major issues in the short term, that's fine.

As long as he can find a new Secret Realm World, he can relocate the humans from Peach Blossom Valley there.

By then, all would be well.

He felt that finding a new Secret Realm World might not be very far off.

This was a matter of his sixth sense.

"Currently, the most important thing is to enhance my cultivation."

"With this mature thousand-year-old Spirit Medicine, I can advance to the Seventh-Layer Golden Core."

Jiang Fan looked at the thousand-year-old Spirit Medicine—Seven-Colored Moon Orchid in his hand, sensing the rich medicinal fragrance it contained, which made his body restless.

It seemed every cell in his body was eager to devour this thousand-year-old Spirit Medicine.

However, he still took the spirit medicine seeds and temporarily planted them in the internal space of the Exquisite Tower.

This way, he would have an endless supply of Seven-Colored Moon Orchid in the future.

Of course, this also requires consuming a lot of Immortal Dew.

But it is worth it, as Tier Four Spirit Medicine is not easy to find.

Every time he finds these spirit medicine seeds, they naturally need to be kept.

Accumulating like this over the years, he will eventually be able to control countless spirit medicines in the world.

With this thought, Jiang Fan did not hesitate and immediately placed the Seven-Colored Moon Orchid into the Ten Thousand Transformations Pill Furnace.

Boom~~

Immediately, the Ten Thousand Transformations Pill Furnace started operating, quickly refining this thousand-year-old Spirit Medicine, expelling a large amount of impurities.

Deep within the Pill Furnace appeared droplets of seven-colored medicine liquid.

Every drop of the seven-colored medicine liquid contained immense medicinal power, exuding an alluring fragrance that was simply captivating.

For any Golden Core Cultivator, it was an unparalleled treasure, immensely valuable.

With a thought, Jiang Fan immediately consumed one drop of the seven-colored medicine liquid.

Dong!

This drop of seven-colored medicine liquid entered deep into his body and was swiftly refined by him.

The immense medicinal power erupted like a volcano, rushing into the depths of the Elixir Field and Sea of Qi, devoured and absorbed by his Primordial Golden Core, causing his Primordial Spiritual Power to rapidly increase at a speed visible to the naked eye.

"The medicinal power is too strong."

Sitting cross-legged on the ground, Jiang Fan felt deeply emotional, saying this thousand-year-old Spirit Medicine Seven-Colored Moon Orchid was indeed exceptional, and its medicinal power was not comparable to ordinary spirit medicines.

Just one drop of the medicine liquid saved him over a year of arduous cultivation effort.

It was conceivable what tremendous benefits it contained.

He sensed that his Primordial Golden Core in the depths of the Elixir Field and Sea of Qi was burgeoning bit by bit, and his aura was continuously rising, with the efficiency far surpassing his own painstaking cultivation by many times over.

Therefore, cultivation resources are truly essential for a cultivator.

Buzz Buzz~~

At this moment, Jiang Fan immediately entered a deeper state of cultivation, crazily refining the massive medicinal power.

The endless Spiritual Qi around surged in, all pouring into his physique.

Vaguely, a Soaring Snake appeared behind him, swallowing clouds and fog, seemingly accompanied by the Tai Chi Diagram, emitting golden light and a series of mysterious Taoist sounds.

"Is the master about to advance to the Seventh-Layer Golden Core? The progress is truly rapid."

The Ten Thousand Transformations Pill Furnace, upon seeing this scene, expressed great emotion.

It had seen many cultivators in the Cultivation Realm but had never seen the rapid progress like that of its master.

In such a short time of cultivation, to almost be advancing to the Seventh-Layer Golden Core.

At this rate, it might not even take a century to form the Nascent Soul.

Even during the Ancient Era, very few cultivators progressed with such speed.

"Although the progress is fast, the foundation is solid to an inconceivable degree, with no sign of being superficial."

"In some ways, it's an example of accumulating richly and breaking forth."

The Demon-Vibrating Bell remarked with emotion.

It felt its master's profound foundation was utterly unprecedented.

As a cultivator, the so-called foundation naturally involves the amount of Spiritual Power, its purity, as well as the strength of the physique and soul.

In these aspects, its master lacked nothing and surpassed his peers.

What was even more terrifying was that his Spiritual Power was already equivalent to the Ninth-Layer Nascent Soul.

This also indicated that one of its master's Nascent Soul Formation thresholds had been easily overcome.

"Of course, just look at who chose the successor!"

The Primordial Talisman Pen said smugly, feeling exceedingly pleased.

.....

Three months later.

Jiang Fan had been cultivating within the internal world of the Exquisite Tower, continuously refining one drop after another of the seven-colored medicine liquid.

The Primordial Spiritual Power within him was increasing at a visible speed as he opened up one acupoint after another.

Boom~~

In an instant, Jiang Fan sensed that his cultivation had advanced to the Golden Core Sixth-Layer Perfection level.

A total of fifty-four acupoints within his body were completely opened up.

Large amounts of Primordial Spiritual Power surged into each acupoint, like lakes.

"Finally reached Golden Core Sixth-Layer Perfection."

Sitting cross-legged, Jiang Fan felt the surging Primordial Spiritual Power within him, like a Soaring Snake, circulating through his meridians and every acupoint, seemingly forming a massive spiritual power loop.

A formidable force emerged from him.

Obviously, the help from the thousand-year-old Spirit Medicine Seven-Colored Moon Orchid was immense, saving him a great deal of cultivation time.

Without the aid of this spirit medicine, it would have taken him years to reach Golden Core Sixth-Layer Perfection.

Thus, this spirit medicine also equated to saving him a significant amount of Lifespan.

"Let's begin."

With this thought, Jiang Fan did not hesitate, activating the Mixed Element Talisman Scripture.

The Primordial Golden Core, along with the second Golden Core in the depths of the Elixir Field and Sea of Qi, trembled, as a massive amount of Primordial Spiritual Power surged like a stormy sea.

Normally, such massive spiritual power would exert immense pressure on the meridians and acupoints within the body.

If one's physique wasn't strong enough, it would be difficult to accommodate such spiritual power.

However, he cultivated the Soaring Snake Technique, which is a True Spirit Technique, making his entire body as strong as a True Spirit's young offspring, unbelievably robust, so no matter how massive the spiritual power, it couldn't harm his meridians and acupoints.

He could easily accommodate the surging Primordial Spiritual Power.

Indeed, this is the benefit of having a strong physique.

Unfortunately, not every cultivator can practice dual cultivation of body and technique.

Sharing time and resources for cultivating two techniques is simply too large a burden.

Ordinary cultivators can't afford it.

Even if they could afford it, a lack of comprehension would slow their cultivation speed, hindering their progress.

Historically, many cultivators attempted dual cultivation of body and technique, but most failed.

Many were too greedy, ultimately dragging down their progress and dying when their Lifespan ran out.

However, Jiang Fan, being able to cultivate both without either holding back, is a miracle in the Cultivation Realm, nearly impossible to replicate.

Of course, this also laid an extraordinarily solid foundation for him.

No hidden dangers were left behind despite the rapid progress in his cultivation.

Boom~~

At this moment, Jiang Fan's immense Primordial Spiritual Power surged towards the bottleneck of the Seventh-Layer Golden Core, crashing like waves against the shore.

With just one impact, the bottleneck of the Seventh-Layer Golden Core shattered effortlessly.

Large amounts of Primordial Spiritual Power poured into the new acupoints.

Both the power of his spiritual sense and the power of his internal spiritual energy suddenly soared.

Compared to before, it was a transformational change, immensely enhancing his abilities.

Seventh-Layer Golden Core!

Without a doubt, his cultivation has finally made a significant breakthrough, advancing to the Seventh-Layer Golden Core Realm.

This was already considered the late-stage Golden Core Realm.

On the Southern Continent, it was rare to find a cultivator who reached the late-stage Golden Core Realm.

Reaching this realm signifies a chance to challenge the Nascent Soul Level.

"Finally broke through."

Jiang Fan smiled slightly, satisfied with the vast Primordial Spiritual Power within him.

This transformation may not be as significant as the previous breakthrough in the Soaring Snake Technique, but it was still remarkable.

It indicated further advancement in his cultivation, bringing him closer to the Nascent Soul Realm.
