

## **Fortune 589**

Chapter 589: Leaving Peach Blossom Valley, A Great Calamity Approaches\_2

[Realm: Seventh-Layer Golden Core (1%)]

[Profession: Tier Three Middle Grade Talisman Master (90%)]

Obviously, compared to before, all his stats had improved significantly.

"Not bad."

Jiang Fan looked at the stats on his body and felt very satisfied.

He considered himself truly to have entered the late-stage Golden Core realm now.

If he continues to progress at this pace, he will soon be able to touch the Nascent Soul realm.

At present, within the Void Realm, regardless of the place, only those who become Nascent Souls are considered true strong cultivators.

Of course, if one can become a Divinity Transformation, they would rule this realm.

However, currently, the Divinity Transformation level is still quite distant, and the Nascent Soul realm is what he's focusing on.

"Husband."

At this moment, the communication talisman on Jiang Fan lit up, a message entered his Sea of Consciousness, and it was sent by Su Weiwei.

"What's wrong?"

Jiang Fan asked curiously, as Su Weiwei usually doesn't use the communication talisman unless something out of the ordinary has been discovered.

"Earlier, my Six-winged Poison Bee was patrolling the Celestial Pine Mountain Range and discovered a Secret Realm World in the process."

Su Weiwei said excitedly as she hurriedly shared this information.

"Discovered a Secret Realm World?"

Hearing this, Jiang Fan's pupils contracted. He immediately recalled spending as much as 100,000 points previously, hoping to find a new Secret Realm World, yet he had no clues for a long time.

Unexpectedly, after upgrading to the Seventh-Layer Golden Core, he received this news.

Undoubtedly, this must be the effect brought by destiny.

After all, under normal circumstances, finding a Secret Realm World is not a simple task.

Without enough fortune, it's practically impossible to come across one.

Previously, Su Weiwei often released the Six-winged Poison Bees to find food in the wild, but the treasures found were not plentiful.

It is clear from this that opportunities are not so easy to gain.

Whoosh!

With these thoughts, Jiang Fan's form flickered, leaving the Exquisite Tower behind and arriving at Su Weiwei's side.

Su Weiwei, meanwhile, was inside a mansion in Peach Blossom Valley.

"Tell me in detail, what does this Secret Realm World look like?"

Jiang Fan asked straightforwardly.

"The Secret Realm World is about 700 kilometers southwest of Peach Blossom Valley, inside a cave."

"Initially, when the Six-winged Poison Bee was patrolling, it suddenly detected a wave of Spiritual Qi from the cave."

"It thought there was some Spirit Medicine there, but unexpectedly, a space entrance appeared."

"Upon entering the entrance, it was killed by an unknown force."

"Hence, this Secret Realm World may indeed be dangerous."

Su Weiwei explained.

She, of course, didn't go outside to take risks but stayed at Peach Blossom Valley to cultivate.

However, her cultivation has progressed rapidly during this time, reaching the Seventh-Layer Foundation Establishment realm.

This allowed her to greatly increase the number of Six-winged Poison Bees she possessed.

So far, she has managed to breed 200 Six-winged Poison Bees.

If raised on her own, it would consume a tremendous amount of food.

Therefore, she usually sends large numbers of Six-winged Poison Bees to find food in the wild.

Basically, they feed themselves.

This way, these Six-winged Poison Bees often find a lot of Spirit Medicines and Spirit Grasses in the wild.

Of course, whenever a Six-winged Poison Bee dies, it instantly sends the information it acquired back to the queen bee, thus allowing her to know what each Six-winged Poison Bee went through.

She never anticipated that her luck would be so great, finding a Secret Realm World this time.

Having existed in the cultivation realm for so long, she understood what a Secret Realm World represented, which was immense opportunity.

If they can obtain all the benefits within, it would definitely be greatly advantageous.

Therefore, she couldn't wait to tell her husband about it.

"Excellent."

Jiang Fan nodded. He knew this was the effect of destiny, causing good opportunities to come around to those nearby, eventually arriving at his doorstep in unforeseen ways.

The power of fortune is truly mysterious and unfathomable.

Boom~~

At this point, he sensed the Fortune-Telling Talisman within his Dantian's Sea of Qi begin to vibrate, buzzing loudly, and a piece of information immediately infused itself into the depths of his Sea of Consciousness.

"Secret Realm emerging, unlimited opportunities, seemingly dangerous but actually secure, fortune favors against evil."

"Heading to the newly discovered Secret Realm World might encounter dangers, but will escape unscathed and gain a Third-Grade Opportunity without subsequent risks, great fortune."

"Not going to the Secret Realm World and continuing to cultivate in Peach Blossom Valley could lead to calamity, great misfortune."

"Leaving Peach Blossom Valley to cultivate elsewhere results in no gains or losses, neutral."

Perceiving this information, Jiang Fan's eyes sparkled.

Because this time, the information from the Fortune-Telling Talisman was filled with so many details.

According to these hints, if he ventures into the Secret Realm World, despite facing some risks, the outcome appears to be no real danger and promises great rewards.

In contrast, staying in Peach Blossom Valley to cultivate could lead to substantial risks and catastrophe.

"Ordinarily, I shouldn't have enemies on the Western Continent, so why would such significant disasters occur?"

"Could it be that the Nascent Soul from the Blood Spider Race has arrived?"

Jiang Fan's eyes flickered.

He immediately recalled how he had previously slain many Tier Three Demon Cultivators from the Blood Spider Race.

Though it has been calm lately without any disturbance, as if the Blood Spider Race didn't care, it now seems the crisis was merely delayed.

In fact, for Tier Four Demon Race members, losing so many Tier Three Demon Cultivators is an unprecedented loss likely to provoke the elders of the race.

The lack of action initially was probably due to other matters causing delays.

In other words, it wouldn't be long before Nascent Soul-level Demon Cultivators would likely come to the Celestial Pine Mountain Range.

Honestly, the Peach Blossom Valley looks well-hidden.

Yet it can't withstand an enemy's thorough search.

Once the enemy thoroughly investigates, Peach Blossom Valley will surely be exposed.

By then, he could use the Gate of the Void to flee, but the common folk in Peach Blossom Valley would suffer.

Of course, he could also use the power of the Exquisite Tower to take these people away.

But that would render his plans on the Western Continent useless.

"In this case, the Secret Realm World is indeed the best way to escape the crisis."

Jiang Fan perceived the subtlety in destiny, as if when thirsty, there would be water delivered, when hungry, there would be food provided, everything fits perfectly.

No matter how strong the Nascent Soul cultivators are, if he leaves before they arrive, there's nothing they can do to him, the power of fortune is truly formidable.

Hence he thirsted even more for this power of fortune.

He must gather the destiny of the human race on the Western Continent and rebuild the Primordial Talisman Sect.

By then, he would not only receive the sect's fortune but also the human race's destiny's blessing.

The combination of both destinies is what signifies the child of fortune.

If he could occupy that Secret Realm World, it would become a crucial human foothold on the Western Continent, allowing them to truly establish themselves there.

"Husband, but there might be unknown risks in that Secret Realm World."

Su Weiwei reminded him.

After all, one of her Six-winged Poison Bees perished there.

Even though her husband is now a Golden Core Cultivator, it doesn't guarantee he will be unharmed.

"Don't worry, that Secret Realm World shouldn't pose too much danger."

"If it could be seized, it might become the headquarters of our Primordial Talisman Sect."

Jiang Fan smiled slightly.

"Seize the Secret Realm World?"

Upon hearing this, Su Weiwei's eyes lit up.

Honestly, she also felt staying in Peach Blossom Valley wasn't entirely safe.

Even though it has the protection of a Tier Three Array, if Nascent Souls attack, Peach Blossom Valley wouldn't survive.

After all, compared to the Southern Continent, the Western Continent is far more dangerous.

However, if they could occupy a Secret Realm World, hiding within it, even Nascent Souls and Divinity Transformations would be unable to discover their whereabouts.

This would truly be peace of mind.
