

## **Fortune 82**

Chapter 82: Killing the Noble Families' Henchman, Obtaining the Seventh-Grade Opportunity\_2

Someone shouted loudly, urging the onlookers to quickly leave and not stay where they were.

The death of a scourge in Yunze City is indeed a great thing.

However, this shouldn't lead to harm for the nearby people.

After all, Lu Wenda is dead, but the Lu Family hasn't perished.

The other side still holds sway over Yunze City.

Upon hearing this, the surrounding crowd agreed deeply, and without a word, they quickly left.

Even the young couple did the same.

They knew it was not wise to stay here for long. Only by swiftly leaving this place, leaving Yunze City, could they continue to live.

Moreover, Lu Wenda and the others died so quickly, no one could predict it.

So even if the Lu Family wants to find out about Lu Wenda and others' deaths, it will take some time.

As long as there is a time gap, there is an opportunity to escape.

"Exactly."

Seeing this scene, Jiang Fan felt quite satisfied. That young couple wasn't foolish, they knew to run.

If they were scared silly standing there, they would be beyond saving.

He killed Lu Wenda and others just to clear his mind.

As for the future fate of that young couple, it doesn't concern him much.

After all, he has done his duty.

Whoosh!

Thinking of this, Jiang Fan didn't hesitate anymore, following the crowd, silently leaving the place.

Meanwhile, he used the Soaring Snake Technique to lower his presence.

Without anyone noticing, he quietly returned home.

Boom~~

Just as he returned home, a message came from deep within his sea of consciousness: "You secretly killed Lu Wenda and others, prematurely overcoming a deadly tribulation, gaining two hundred Luck Points, and a Seventh-Grade Opportunity."

What?!

Perceiving this message, Jiang Fan was immediately delighted. He did these things only to clear his mind, purely because he didn't like Lu Wenda.

But who would have thought, unintentional actions could have such results.

What he did actually counted as passing a deadly tribulation.

Without a doubt, if he hadn't settled Lu Wenda in advance, Lu Wenda might have caused him a lot of trouble in the future. Now that he did it early, he prevented problems before they arose.

Along with these two hundred Luck Points, he now possessed a total of eight hundred and sixty Luck Points.

Being close to a thousand Luck Points, it's just a step away.

"So if I gain some more Luck Points, I can become a Martial Arts Grandmaster."

Jiang Fan clenched his fists, feeling very excited.

Although his Refining Organ Realm strength is quite impressive, could fully assure his safety, not many in Yunze City could compare to his existence.

But even so, it's not enough at all.

If the enemy is numerous and powerful, and a large number of Martial Artists attack, he still can't withstand them.

Only by becoming a Martial Arts Grandmaster, mastering formidable power, can he fight against a multitude.

In the midst of a large army, he could come and go as he pleased, unscathed.

"But the more important gain this time is still the Seventh-Grade Opportunity."

Jiang Fan squinted his eyes, he felt that the Seventh-Grade Opportunity is his real gain.

The previous Seventh-Grade Opportunity had already brought him great benefits.

Thinking of this, with a thought, he lightly clicked on the light point of opportunity deep in his sea of consciousness.

Boom~~

A stream of information flooded into the depths of his sea of consciousness like a tide: "Fifteen days later, at midnight, go to the outer city of Yunze City, East Fifth Street, Li Family's outer mansion basement to obtain the Seventh-Grade Opportunity."

"Need to wait for fifteen days? What on earth is this for?"

"Could it be that this Seventh-Grade Opportunity is on some person?"

"Can it only be obtained after fifteen days?"

Jiang Fan rubbed his chin, feeling very curious.

But regardless of what, the direction of the opportunity must be correct, as if it sees through the fog of fate.

So he's not in a hurry, he can wait fifteen days, then it'll be enough.

Right now he's eagerly anticipating what exactly that Seventh-Grade Opportunity is.

.....

At the same time, in the Inner City of Yunze City, Lu Family Mansion.

The Lu Family Patriarch, Lu Kai, wore a very ugly expression. He already knew his son Lu Wenda was killed in the streets, his head smashed, truly died without a whole body.

Undoubtedly, the Lu Family had been very unlucky lately, many important members had already died.

First, the eldest son Lu Yan died, now the younger son Lu Wenda also died.

He felt the shadow of death seemed to shroud every corner of the Lu Family.

If he wasn't careful, the Lu Family might be annihilated, completely vanishing from this world.

So now, no matter what he does, he walks on thin ice.

Even if he's now burning with anger, he can only endure it temporarily.

"Patriarch."

"The cause of Lu Wenda's death has been clarified."

"The murderer used a concealed weapon, hiding in the dark, ambushed and killed Lu Wenda and others."

"But because there were too many people on-site, it's impossible to find the murderer."

"As for that young couple who caused the trouble, they have already taken the chance to escape Yunze City."

"Should we send someone to hunt them down?"

An elder of the Lu Family said in a deep voice.

Although he didn't care much about Lu Wenda's death, Lu Wenda was still the son of the patriarch, and a member of the Lu Family; he absolutely can't die so inexplicably.

The murderer must pay a heavy price.

Otherwise, wouldn't that mean anyone could strike against the Lu Family?

"No need, I suspect this is a trap against our Lu Family."

"First it was Grandmaster Mu Da's death, now it's my son, Lu Wenda's turn."
