

## Fortune 83

### Chapter 83: Killing the Noble Families' Henchman, Obtaining the Seventh-Grade Opportunity\_3

"It seems that a huge conspiracy is shrouding our Lu Family."

"The enemy is trying to wipe out our Lu Family."

"If we send people to chase them, we might fall into the enemy's ambush."

"That young couple might just be a trap."

Patriarch Lu, Lu Kai, looked very grave.

He naturally wished to find the murderer immediately and take revenge.

No matter how useless his son was, he was still his son, and he wouldn't allow outsiders to harm him.

But as the Patriarch of the Lu Family, he absolutely could not act rashly.

Otherwise, it might bring a great disaster to the Lu Family.

"A trap?"

"That said, recently a lot of major events have indeed happened in our Lu Family."

"One after another, many important people have died. It's simply unprecedented."

"Could it be that those targeting our Lu Family are the Red Eyebrow Army?"

Another elder of the Lu Family spoke, very suspicious that the ones taking action were spies of the Red Eyebrow Army. Besides the Red Eyebrow Army, he couldn't think of another powerful enemy.

After all, to instantly kill Lu Wenda and others, the enemy would at least have a Refining Organ Level cultivation.

But there are very few martial artists of this level.

Every one of them is a Jianghu hero, with formidable power.

It's impossible for one to emerge so easily.

So, suspecting the Red Eyebrow Army was quite reasonable.

"No need for doubt, it is definitely the work of the Red Eyebrow Army."

"Chen Yaochuan's malice is utterly undisguised."

"As far as I know, the injuries on Chen Yaochuan have already healed."

"It's estimated he will soon regroup the Red Eyebrow Army to attack Yunze City."

Patriarch Lu Kai said in a deep voice, revealing a piece of top-secret information.

"No way, didn't he suffer mutual destruction with Grandmaster Mu Da?"

"Why did his injuries heal so quickly, how much time has really passed?"

Many elders of the Lu Family said in disbelief.

They had also witnessed the injuries on Chen Yaochuan; even for a Martial Arts Grandmaster, complete recovery would take several months or even a year.

But now, in such a short time, he was completely healed, which was simply astonishing.

"It's normal for you to be surprised."

"If I'm not mistaken, Chen Yaochuan may have obtained inheritance from a cultivator."

"Received a healing elixir from cultivators."

"That's why his injuries recovered so quickly."

Patriarch Lu Kai explained.

"Obtained inheritance from a cultivator? This guy's luck is actually so good?"

"Very normal. As far as I know, Chen Yaochuan is not a noble descendant, just a farmer's son; normally, such a person would never rise in a lifetime.

But if he received a cultivator's inheritance, some martial arts techniques, plus elixirs from a cultivator, then rapid progress in martial arts cultivation would be expected."

"Similar fortuitous encounters have occurred occasionally in the Wei Kingdom over the years."

Many Lu family elders discussed fervently.

Evidently, as a millennium-old noble family, they were already aware of the existence of cultivators.

They had even interacted with cultivators before.

"So, is Chen Yaochuan determined to attack Yunze City and have issues with our Lu Family? Could it have a great connection with the cultivator's inheritance?"

An elder of the Lu Family's eyes flickered, as if he thought of something.

"Exactly."

"If I'm not mistaken, that kid probably wants to get hold of our Immortal Token."

Patriarch Lu Kai bluntly said.

What?!

This guy is simply ambitious like a wolf.

With this, the elders of the Lu Family had a drastic change in expression, their eyes filled with a hint of fury, utterly wrathful.

"Good for Chen Yaochuan, actually targeting our Lu Family."

"The Immortal Token is the cornerstone of our Lu Family."

"Right, if the Immortal Token is lost, our Lu Family would be completely finished."

"Just relying on that rogue to have designs on my Lu Family, it's simply dreaming."

The elders were enraged and wished to tear the Red Eyebrow Army's leader, Chen Yaochuan, into pieces.

"The function of the Immortal Token is actually very simple."

"It is to help us open the Immortal Cave Mansion deep within Yunmeng Lake."

"The Immortal Cave Mansion opens once every fifty years."

"And we have the opportunity to enter the mansion and receive the Immortal's inheritance."

"Our ancestors were fortunate to enter once, laying the foundation for our Lu Family for hundreds of years."

"Unfortunately, over the years, those who passed the Immortal Cave Mansion's tests were few."

"The rewards obtained have also diminished, leading to our Lu Family's talent withering."

"But even so, this is still our Lu Family's opportunity to become immortal in the future, and it must not be seized by outsiders."

Patriarch Lu Kai said through gritted teeth.

There has always been a rumor of immortals at the depths of Yunmeng Lake.

Only the people of the Three Great Families of Yunze City knew that the rumor was indeed true.

An Immortal Cave Mansion truly exists inside.

Hundreds of years ago, some tokens circulated out from the Immortal Cave Mansion, obtained by the world.

The ancestors of the Lu Family were among the lucky ones, obtaining an Immortal Token, thus allowing them entry into the mansion.

Of course, entering the mansion does not guarantee gaining benefits.

It requires passing the test.

Only by passing the test can one receive the Immortal's reward, acquiring the corresponding benefits.

In those days, it was thus for the ancestors of the Lu Family, laying the foundation for the rise of the Lu Family.

In fact, the Three Great Families of Yunze City all originated from this.

Every fifty years, the Immortal Cave Mansion opens, and many noble descendants send people into the mansion to participate in the test; unfortunately, those who pass are very few.
