

Fortune 87

Chapter 87: Advancing to Grandmaster, Killing from Afar, Qi Enters Dantian

What?!

Hearing this, the expressions of the people from the Li Family changed. This Bat King, Yang Qin, was truly overbearing. They were merely in a cooperative relationship, yet he really treated them like servants?!

But considering the future of the Li Family and the difference in their strengths, they felt it best not to provoke this madman at the moment, or else they would only be asking for trouble.

The leader, Elder Li Lei of the Li Family, and also the Gang Leader of the Dragon King Gang, spoke, "Lord Yang, I know you want more blood slaves, but Yunze City is in chaos right now. We need to be very cautious when taking action. If too many people go missing, it might draw the attention of the three great noble families in Yunze City, and then both you and I would be in trouble."

He, too, wanted to capture a large number of blood slaves in one go.

But things were not that simple.

Currently, Yunze City was still under the rule of the three noble families.

Even if the noble families did not care much about the common people, too many missing persons would still trigger their sensitive nerves, possibly exposing the Li Family.

So every time they took action, the Li Family was very cautious, leaving no trace behind.

"Silence."

"It's precisely because it's so chaotic now that you have more opportunities."

"You don't need to worry about anything."

"The so-called three noble families of Yunze City are merely small troubles."

"I am on the verge of breaking through to the Martial Arts Grandmaster level."

"Once I become a Grandmaster, I can immediately attack the three noble families."

"Then, in cooperation with the Red Eyebrow Army outside, the destruction of the three noble families will only be a matter of moments."

Bat King Yang Qin said with a ferocious expression.

The Bat Demon Technique he cultivated was not an ordinary martial arts technique.

Once he became a Grandmaster, his strength would certainly surpass that of other Grandmasters.

Casual encounters with two or three Grandmasters would not pose a threat to him.

So now he only lacked a bit of time and some blood slaves.

As long as he overcame this calamity, he would have a limitless future, with no one able to stop him.

Even Chen Yaochuan would not be a match for him if his Bat Demon Technique reached great success.

Hearing this, Li Lei and the others' eyes flickered, showing tempting expressions.

If they could indeed help break through Yunze City, then they would not have to endure there any longer.

So this risk was worth taking.

After all, it was only some lowly commoners dying, which was nothing of importance.

The only pity was that they were not in Tonghe County but in Yunze City.

If they were in Tonghe County, they wouldn't have to worry about anything and could directly capture the lowly fishermen as blood slaves without concern for consequences.

But Yunze City, after all, was not their territory, so there were still some considerations.

"Lord Yang, we understand."

"In the coming days, our Li Family will provide you with many blood slaves."

"Such insignificant commoners are totally beneath concern."

Li Lei and the others immediately made a promise.

They also wanted to quickly eliminate the three noble families of Yunze City.

Only then would the Li Family have the chance to rise; otherwise, who knew how long they would have to wait.

"Very good."

Bat King Yang Qin felt very satisfied, as he was at a critical moment and should not take action himself. Without the help of the Li Family, he would be in big trouble.

It was hateful that earlier, a thief had killed all his trusted subordinates.

Otherwise, he would not have needed to rely on the Li Family.

Before he became a Martial Arts Grandmaster, he still needed their help.

"These vile people, they truly deserve death."

From afar, Jiang Fan watched the scene, his eyes showing a glint of cold light.

These people from noble families regarded human life as worthless, and none of them were good people.

Back in Osmanthus Village, he had been oppressed by people from the Dragon King Gang.

If he hadn't had some strength and acted cautiously, he might have died long ago.

Even so, the number of fishermen who died due to the Dragon King Gang's oppression was countless.

When he didn't have strength before, he could only endure.

But now, he didn't need to endure any longer.

This was a perfect opportunity to take revenge.

As for Bat King Yang Qin, there was even less to say.

Given his crimes, even dying a hundred times would not be enough.

Whoosh!

Thinking of this, Jiang Fan didn't hesitate, his figure flashed as he charged towards Li Lei and the others.

He held the Chengying Sword, executing Aurora Swordsmanship.

Sword lights of terrifying brightness attacked with unimaginable speed.

"What?! "

At that moment, Li Lei and the others were about to leave, planning to help Bat King Yang Qin continue capturing blood slaves, fantasizing about their future grandeur and endless riches in Yunze City.

But in that instant, their hairs stood on end, sensing a deadly crisis.

This was the martial artist's instinct.

After all, they weren't weak.

There were five of them in total, two in the Bone Forging Realm, and three in the Strong Sinew Realm.

This kind of strength counted as elite, not something ordinary people could compare with.

However, compared with Jiang Fan, a Martial Artist in the Refining Organ Realm, they were far inferior.

Bang~~

Before Li Lei and the others could react, a sword light flashed, containing terrifying sharpness.

The next second, their heads flew off, blood gushing out.

Instantly, there were five headless corpses here.

Their heads crashed hard onto the ground, eyes wide open, pupils contracted.

Seemingly showing endless terror, shock, and disbelief.
