

Fortune 89

Chapter 89: Advancing to Grandmaster, Killing from Afar, Qi Enters Dantian_3

As if a cold light tore through the boundless darkness, containing a terrifying sharpness.

In an instant, it locked onto the aura of Yang Qin, regardless of how the opponent dodged, it was all in vain.

"Impossible!"

Bat King Yang Qin was momentarily stunned; he found he couldn't withstand the power of this sword at all. A terrifying sword light swept over, invincible, slicing through iron like mud.

In just an instant, his entire body was cut into two halves.

It was as simple as slicing tofu, effortless.

"This is ridiculous, am I, Yang Qin, dead like this?"

"And dead at the hands of an unknown person."

"I was supposed to become a Martial Arts Grandmaster, even an Innate Martial Artist."

"How can I die here like this? What a joke."

Bat King Yang Qin was very unwilling just before dying; he felt he had many grand ambitions not yet fully realized.

But now, slain by a single sword, all the ambition turned to nothing.

Boom~~~

Immediately, Bat King Yang Qin's corpse heavily hit the ground, blood flowing everywhere.

His eyes were wide open, revealing endless panic and unwillingness.

He seemed unable to believe he had died at the hands of the enemy.

Clearly, he was merely a step away from the realm of Martial Arts Grandmaster.

How could he die here for no reason? It's utterly ridiculous.

But no matter how unwilling he was, he still died at the hands of Jiang Fan, powerless to resist.

"A mere Martial Artist in the Refining Organ Realm dares to boast in my presence."

Jiang Fan looked calmly at the dead Bat King Yang Qin; his heart was at peace.

Originally, he was unclear about his current strength, but after battling Bat King Yang Qin, he immediately realized his combat power was quite strong.

He could be called invincible in the Refining Organ Realm, even capable of contending with Grandmasters.

After all, the Soaring Snake Technique he cultivated was incredibly powerful.

Upon advancing to the Refining Organ Realm, it endowed him not only with immense strength but also extraordinary speed.

Additionally, it gave him superhuman senses.

It's undeniable, Bat King Yang Qin's speed was indeed decent, even able to leave afterimages.

To ordinary martial artists, Yang Qin was indeed a particularly difficult opponent.

Relying on absolute speed, Yang Qin killed Grandmaster Mu Da and then escaped effortlessly.

Even for a Grandmaster, killing him wasn't an easy task.

This was the special skill Yang Qin relied on for fame.

The problem was, his superhuman senses allowed him to easily perceive Yang Qin's every move.

The speed that the opponent prided himself on seemed like a snail to Jiang Fan.

Therefore, Jiang Fan didn't need to make any moves; with just a gentle sword stroke, he split Yang Qin in two.

It's as simple as chopping vegetables, effortless.

Boom~~~

Not long after, Jiang Fan made a move and used Corpse-Dissolving Water to dissolve the corpses in the entire mansion.

Basically, in the blink of an eye, the corpses in the entire mansion were completely dissolved, completely vanished.

It's safe to say these people were completely erased by him.

As if they had never appeared here.

"What a pity."

"If I hand Bat King Yang Qin's head over to the government, I might get quite a bit of reward silver."

"But I can't do that."

Jiang Fan remembered the government putting a bounty on Bat King Yang Qin, offering a reward of up to one hundred thousand taels for his head.

If he handed it over, he would surely get rich overnight.

The pity was he couldn't do it, or he would definitely expose his strength and whereabouts.

This would be completely not worth the loss.

Besides, he already had plenty of silver taels.

It's entirely enough to live a long time; getting more silver taels actually holds no significance.

If he heads to the Cultivation Realm, then the gold, silver, and jewelry of the Mortal World would purely be worthless scraps.

Therefore, his desire for silver taels isn't very strong.

He has long surpassed the stage of initial accumulation now.

Unlike in the beginning, he no longer desperately craves large amounts of silver taels.

Dong!

At that moment, Jiang Fan sensed a message from the depths of his sea of consciousness: "You've killed Bat King Yang Qin and others, avoided a catastrophe, and gained six hundred Luck Points."

What?!

Perceiving this message, Jiang Fan's eyes suddenly lit up with excitement.

Although he didn't get a chance this time, he acquired a full six hundred Luck Points.

Adding the eight hundred sixty Luck Points he previously got, it means he has a total of one thousand four hundred sixty Luck Points. If he spends over a thousand Luck Points, he can become a Martial Arts Grandmaster at any time.

"Great."

Jiang Fan clenched his fists.

The strength of the Refining Organ Realm is indeed quite good, enough to walk openly in Yunze City.

No matter what power it's placed in, it's considered a top expert.

But compared to Grandmasters, it's nothing.

Only by becoming a Martial Arts Grandmaster can one truly become the overlord of a major force, the local emperor.

A Grandmaster can establish a mortal family.

This family can thrive for hundreds of years in the Mortal World.

This shows the high value of the Martial Arts Grandmaster.

Across the Great Wei Kingdom, the number of Martial Arts Grandmasters is very rare.

Though not to the point of being countable on fingers, they are incredibly scarce.

Throughout Yunze City, there are only five or six Martial Arts Grandmasters.
