

## Fortune 90

Chapter 90: Advancing to Grandmaster, Killing from Afar, Qi Enters Dantian\_4

It should be noted, this is one of the Great Wei Thirteen Prefecture Cities.

Even in such a prosperous place, there are only five or six Grandmasters. It's easy to imagine how few there must be elsewhere.

Therefore, once he becomes a Martial Arts Grandmaster, even if the Red Eyebrow Army really attacks, facing the siege of a hundred thousand troops, he could still escape calmly without worrying about being killed by the enemy.

Only with such a level of strength can one be considered powerful.

"No rush, let's find the Seventh-Grade Opportunity first."

Jiang Fan took a deep breath. He wished he could immediately become a Martial Arts Grandmaster now, but he also knew this place wasn't suitable for advancement, as it was Li Family's territory.

Who knows what might happen next? He might be disturbed by others.

So he restrained the excitement and thrill deep inside his heart.

Even more importantly, the Seventh-Grade Opportunity hasn't been obtained yet.

"According to the hint from the opportunity light, the Seventh-Grade Opportunity is in this mansion."

Jiang Fan squinted his eyes.

Following the hint, he ventured into the deepest part of the mansion, arriving at a secluded bedroom.

Then he stepped inside, approaching the bed in the bedroom.

Thud!

With a gentle press of the bed's secret button, the bed instantly cracked open, revealing a dark cavity that seemed to extend deep underground.

"As expected of a noble family's mansion, it has hidden secrets, an underground cellar?!"

Jiang Fan was instantly delighted.

He had always wanted to find a secretive place to hide.

But had never found one.

After all, a mansion with a basement is rare.

Mansions like this are long occupied by those noble families, impossible for ordinary people to obtain.

However, after searching everywhere to no avail, he found one effortlessly here.

If he could occupy this house, it could become a temporary safe haven for him and Su Weiwei.

They could completely hide here to calmly evade this calamity.

"But this is the Li Family's house."

"Now the Bat King Yang Qin and Dragon King Gang Leader Li Lei are all dead."

"The Li Family will surely know about this soon."

"Trouble follows trouble endlessly."

"So rather than waiting for the Li Family to come knocking, I should go to them directly and destroy the Li Family."

"This way, it would be settled once and for all."

"And I could take the opportunity to avenge past grievances."

Jiang Fan's eyes showed a hint of cold light; he wanted to root out the enemies.

It's known that the hatred between him, the Dragon King Gang, and the Li Family was long irreconcilable.

Countless villagers from Osmanthus Village and other fishing villages died at the hands of the Li Family.

Without strength, all one could do is endure.

But now, it's different.

He is already a Martial Artist in the Refining Organ Realm, completely capable of slaughtering the entire Li Family.

Making the Li Family pay the price.

These noble families have exploited common folk for long enough; it's time for them to pay.

Of course, more importantly, it's about vengeance.

Only with the complete annihilation of the Li Family can he prevent his whereabouts from being exposed and avoid future retaliation from the Li Family.

Meanwhile, he could seize this house.

As a temporary safe haven for himself.

And after the Li Family's demise, no one else would know about this cellar.

This would greatly safeguard the safety of himself and Su Weiwei.

No doubt, doing so would absolutely achieve multiple gains.

"But now, I can't hurry."

"I should still wait until I find the Seventh-Grade Opportunity."

"Once I become a Martial Arts Grandmaster, I'll deal with the Li Family's trouble."

Jiang Fan took a deep breath, temporarily calming down, suppressing the terrifying murderous intent that kept surfacing deep within.

Even though his current strength is indeed good, and even if he attacks the Li Family now, relying on the current strength of the Li Family would likely be unable to resist him, he has such confidence.

The problem is that even with a one percent chance of failure, he feels he should not take the risk.

If he becomes a Martial Arts Grandmaster, his strength will surge, and even the one percent chance of failure would be eliminated.

So only by becoming a Grandmaster and then seeking revenge can he be absolutely secure.

Swoosh!

Thinking this, Jiang Fan immediately slipped through the opening, starting to investigate the situation in the basement.

More than ten minutes passed.

Jiang Fan thoroughly understood the situation inside the basement.

The area exceeds seventy to eighty square meters, with three rooms and two halls.

Moreover, underground passages are quite extensive.

There are four exits in total.

One can directly lead to the outside world, without worrying about being trapped at the room's entrance.

Nor do they need to worry about the basement being dim, for Luminous Pearls are embedded in the walls, serving as light bulbs.

Thus, the basement is as bright as daylight.

Even more astonishing is that the basement has a well to circulate air.

As long as there is sufficient food, one could stay in the basement for a very long time.

One cannot help but admire the Li Family.

Back then, the Li Family must have spent untold effort and money to build this mansion.

This isn't something achievable overnight.

It only shows that for the noble families' survival, spending more money, more costs is no issue.

"Indeed, a perfect place of refuge."

Jiang Fan felt greatly satisfied.

As long as he can eliminate the Li Family, completely wiping them out, then this place of refuge would be solely his, and no one else would know its existence.
