Chapter 921: Destroying the Cyan Stone Demon Cave, Mahayana Realm Demons Enraged (Part 2)

This is simply a dramatic turn of events.

"That mysterious cultivator was indeed using us."

Spirit Feather King said quietly.

How could he not know that the mysterious cultivator saved them not because he genuinely wanted to save their lives, but purely to use them as a shield?

If they hadn't resisted so many demons, it wouldn't have been so easy for the mysterious cultivator to destroy this Demon Cave.

"Haha, well used indeed, our biggest fear is being of no use at all."

"Who would have thought we could witness the destruction of a Demon Cave? It's truly wonderful."

Giant Stone King laughed heartily, feeling incredibly joyful.

He didn't care about the mysterious cultivator's intentions, as long as he could see those demons suffer or die, he was satisfied; it hit the spot perfectly.

Of course, it would be even better if they could leave alive.

"Indeed, usually at least a Mahayana Cultivator would need to take action to destroy a Demon Cave."

"I never thought that mysterious cultivator accomplished it so effortlessly; it's truly incredible."

"You must know that deep within the Demon Cave is a Combined Demon, and it's the strongest of them all."

"Yet in the blink of an eye, that guy killed it, which speaks volumes about his strength."

"Even if he's not a Mahayana Cultivator, he must be a being of Integration Perfection."

"Otherwise, it would be impossible to achieve this."

Flame Tower King speculated.

He was very curious about the mysterious cultivator's cultivation.

However, he believed that someone capable of this was at least an Integration Cultivator.

He might even be a Mahayana Cultivator.

"It would be great if we could find that guy to talk to, regardless, he remains the benefactor who saved us."

"Indeed, even if he intended to use us, saving us is a fact."

"It's already too late; his aura has completely disappeared, leaving this place."

"It seems that guy doesn't want to have any connection with us, nor does he wish to expose his identity."

"Hehe, there are too many spies within the Great Xuan Dynasty; indeed, exposing one's identity isn't a good thing."

"It's not that there are too many spies, just that the demons' methods are mysterious, easily inserting spies."

"Stop talking nonsense, this place belongs to the Demon Realm, under the demons' control. They probably already know about the destruction of the Cyan Stone Demon Cave, and other high-tier demons will soon arrive."

"It's not that simple; without the Demon Cave serving as a Teleportation Array, crossing time and space isn't easy for them either, so we still have time to leave."

"In any case, we need to leave the Demon Realm quickly and return to the Great Xuan Dynasty."

"But this is the Demon Realm; how can we return to the Great Xuan Dynasty, without facing ambushes from demons along the way?"

"Haha, it's fine; I've already used special magic to contact a Mahayana Cultivator. As long as we hide in a safe place, a human Mahayana will naturally come to guide us."

"If that's the case, then we have hope of surviving."

The human cultivators discussed animatedly.

None of them planned to stay here.

Each and every one quickly left the Cyan Stone Demon Cave.

After all, no one knew when the demon reinforcements would arrive.

If they did, with their power, they probably couldn't withstand them either.

.....

On the other hand, at the demon headquarters, located deep within the Demon Realm, and also the largest Demon Cave, equivalent to the demons' main base, resided countless high-tier demons.

Even Mahayana-level demons are present there.

They were the first to learn of the Cyan Stone Demon Cave's destruction.

"Cyan Stone Demon Cave was destroyed? What exactly happened?"

A Mahayana demon was both shocked and furious.

Even for resource-rich demons, a Demon Cave is crucial. After all, nurturing a Demon Cave requires vast resources and cannot be accomplished casually.

But now, a Demon Cave had been destroyed, and not within the Great Xuan Dynasty, but within the Demon Realm, making them even angrier.

Since when did the indigenous people of this world have the capability to destroy one of their Demon Caves? This was a huge humiliation.

"A mysterious cultivator infiltrated the Cyan Stone Demon Cave."

"Taking advantage of us sending an army to attack the Great Xuan Dynasty, he attacked the Cyan Stone Demon Cave."

"The individual rescued the humans imprisoned there, both inside and out, causing chaos in the Demon Cave."

"That's how this happened."

Another Mahayana-level demon spoke quietly.

It had obtained much information from within the Cyan Stone Demon Cave.

After all, communication among demons was quite easy.

But even with the information, it was useless, as the enemy had never exposed his identity or appearance.

This left them with little understanding of the enemy, utterly confused.

There was no doubt that the enemy was extremely cautious.

"Is there any way to determine the identity of that mysterious cultivator?"

A demon inquired.

"Just now, I used the Fate Revelation Technique, trying to find the identity of that guy, but found no clues."

"The connections he left behind were too few."

"More importantly, that guy has already fled from the Cyan Stone Demon Cave to a place isolated from cause and effect."

"There's no doubt he is very familiar with our demons' methods and likely had long-term plans."

"Nevertheless, I could sense a hint of his information."

"Perhaps the enemy's name is Talisman Daoist."

"I can sense he carries many talismans from the Immortal Realm within him."

Another Mahayana demon said in a deep voice.

The so-called Fate Revelation Technique constructs a "temporary cause and effect chain," forcibly linking itself with the target to extract the target's core identity information.

Destroying a Demon Cave creates a profound cause and effect connection with the demons.

Thus, as a Mahayana demon, it used this profound cause and effect chain to try to discover the enemy's true identity, possibly even his location.

Originally, this technique was almost omnipotent in dealing with the natives of this world.

No matter the enemy, they could be found and eliminated.

Unfortunately, it failed this time.

"Talisman Daoist? Master of Immortal Realm's talismans? No wonder he could instantly kill an Integration-period Stone Demon."

"When did the Spirit Ruins Realm produce such a human Great Power? Never heard of it before."

"Hehe, that's quite normal, the Spirit Ruins Realm contains many secrets. Perhaps a human loose cultivator obtained an Immortal's legacy, thus achieving remarkable cultivation, and is only now emerging."

"Indeed, humans in this realm have unfathomable foundations. With our demons' large-scale invasion, many ancient human experts are emerging, knowing that if they don't, humanity will perish, and the world will no longer have a place for them. We would face significant resistance."

"It's merely the last struggle; they don't realize that no matter how they struggle, they cannot escape extinction. These fools don't understand whom they are truly fighting against."

"Nevertheless, this Talisman Daoist indeed poses a significant threat to us demons; he might delay our conquest of this world, so he must be eliminated."

"If this Talisman Daoist dares to reveal himself again, then kill him; he must not be allowed to act recklessly."

"Spread the order, place Talisman Daoist on the demons' most wanted list; any demon who encounters him must pursue him relentlessly."

Numerous Mahayana-period demons discussed, making a decision in just a few words.

This Talisman Daoist who destroyed the Cyan Stone Demon Cave has already become a thorn in the side of demons.

His threat level is second only to humanity's Mahayana cultivators.

Unfortunately, the Talisman Daoist is too cautious and has hidden in a place isolated from cause and effect.

This makes it impossible for them to locate him in the short term.

But that doesn't matter.

To them, Talisman Daoist's actions only delay humanity's extinction.

As the demon army continues to advance, humanity will ultimately be wiped out.

This world has no hope left.

No one can stop their demonic advance.

Because the power behind them is beyond the imagination of these mortal beings.

This war's outcome was decided right from the start.

Chapter 922: Third-Layer Divinity Transformation, Heaven-Stealing Claw Talisman

At the same time, Jiang Fan arrived at another mysterious land through the Gate of the Void.

The moment he reached this place, he immediately felt the biting cold wind.

"What kind of place is this?"

Jiang Fan's pupils contracted.

He felt as if he had come to an icy wasteland, the cold wind around him like countless sharp blades of ice, frantically slicing through this eternally frozen wasteland.

The snow beneath his feet had hardened like iron, each step making a muffled crunching sound, as if the earth was groaning in pain. The snow layer emitted a cold, gray-blue light that not even the sun could pierce, dyeing everything in heaven and earth with a hue of despair.

The ice trees in the distance were the only "life" in this desolation, yet more chilling than death. They did not grow naturally; their branches twisted like frozen lightning, made entirely of translucent ice crystals, as if they might shatter into countless pieces at any moment.

The strangest thing was those runes, not carved onto them but moving like living creatures beneath the ice, sometimes glowing with eerie blue light, sometimes submerging into the deep ice hue, as if whispering ancient secrets buried by time.

"Master, it seems you've arrived at a place cut off from cause and effect."

Just then, the voice of the Human Emperor Sword rang out, sounding very solemn.

It could sense deeper things.

The threads of cause and effect on its master seemed to be completely severed in this boundless space.

This is not an ordinary place.

Even in the past Void Realm, finding a place isolated from cause and effect was extremely difficult.

Every such strange place contained great fortune or great calamity.

"A place isolated from cause and effect?"

Jiang Fan narrowed his eyes.

He immediately noticed that the Cause and Effect Communication Immortal Talisman on him could no longer be used, making it impossible to contact anyone outside. Previously, when he was outside, he could contact his Dao Companion in the Void Realm.

Who would have thought that after arriving here, the Cause and Effect Communication Immortal Talisman would be rendered useless?

"That's right, because I've destroyed the Cyan Stone Demon Cave, demons are tracking me."

"To survive, I must come to a place isolated from cause and effect."

"No wonder fate suggested I teleport randomly."

"So, does that mean this is the refuge fate has led me to?"

Jiang Fan stroked his chin.

He felt a flicker in his heart, realizing the Gate of the Void on him was still usable.

This meant that if he wished, he could leave this mysterious place at any time.

Perhaps for other cultivators, once they arrive here, it's difficult to leave.

But he is different; he can leave whenever he wants.

However, there's no need for that.

Because once he leaves here, the demons might find him, making his death inevitable?

Might as well stay here, cultivate, and improve his cultivation, avoiding calamity.

"Master, although the wind here is biting cold, like a place of extinction."

"Yet the Spiritual Qi here is incredibly dense, practically a Cultivation Holy Land."

The Demon-Vibrating Bell exclaimed in astonishment.

It could feel the air around filled with dense Heaven and Earth Spiritual Qi, reaching at least Tier Seven levels.

It's important to know that this is the wilderness, not a place where Spirit Veins exist.

But even the wilderness's Spiritual Qi has reached Tier Seven levels, truly making it a Grotto Heaven Blessed Land.

It's extremely exaggerated.

"No, no, the cold here isn't ordinary."

"It seems it can even freeze Magical Power."

At this moment, Jiang Fan squinted his eyes, discovering strands of cold air around him like living creatures, attempting to penetrate his body.

He immediately circulated his Magical Power, forming a Barrier, trying to keep the cold air out.

But the Barrier was only partially effective.

Strands of cold continued to spread, causing short-lived stalling in his Magical Power circulation.

If exposed to the wind and snow for long, even for a Divinity Transformation Cultivator like himself, he would become an ice sculpture.

"Master, not only is the cold here terrifying."

"The sun in the sky seems strange too, as if the sunlight also contains freezing power."

The Ten Thousand Transformations Pill Furnace exclaimed.

"What?"

Jiang Fan looked up, only to see an eerie sun that was actually snow-white, resembling a white sun.

From this sun, strands of sunlight fell.

But these rays covered his body, causing cold attacks akin to ice.

Which resulted in his skin showing freeze-like conditions.

Keep in mind, he is a Divinity Transformation Cultivator; ordinary cold wouldn't trouble him.

"Damn, this isn't ordinary coldness."

"If I'm not mistaken, this might be the legendary Nine Netherworld Cold Qi."

"Reportedly it's the cold born in the Nine Nether Realm, not physical low temperatures, but possesses a 'Death Qi' chill. Not only does it freeze flesh, but also freezes 'life force' and 'soul.' Those who touch it feel their Life Force rapidly drained, their soul falling into boundless darkness."

"Damn, what kind of place is this?"

"Could it be some kind of Hell?"

The Primordial Talisman Pen exclaimed.

"Master, find a place to hide immediately."

"Absolutely avoid contact with sunlight here, or certain death awaits."

The Exquisite Tower advised.

Swish!

With this thought, Jiang Fan nodded, his body flickered, immediately searching for a place nearby to hide.

Chapter 923: Third-Layer Divinity Transformation, Heaven-Stealing Claw Talisman (Part 2)

Soon, he discovered a continuous mountain range in the distance.

Within stood towering mountains, each at least tens or hundreds of thousands of meters tall.

Of course, these mountains were also covered in snow and ice, with only some peculiar icy trees growing.

Undoubtedly, the plants able to survive in such a peculiar cold environment were not simple.

Before long, Jiang Fan found a hidden cave in one of the mountains.

He immediately ventured inside the cave.

Without the strange sunlight directly shining, he immediately felt much warmer.

At least he didn't have the sensation of his soul being frozen.

"Master, this place is truly too bizarre."

"There might be some terrifying danger."

Ten Thousand Transformations Immortal Cauldron reminded.

Just the harsh environment here is enough to kill a Divinity Transformation Cultivator.

It is imaginable how perilous this place really is.

Perhaps it even nurtures some terrifying exotic beasts.

"Let's hide here for a while."

"The situation in this place is unclear."

"Better to break through cultivation first."

Jiang Fan didn't plan to risk himself immediately, but he wasn't worried about encountering any fatal danger either.

If any danger indeed appeared, the power of destiny's warning would certainly surface.

But until now, destiny's warning hadn't appeared.

So it surely would be thrilling but not life-threatening at the moment.

Moreover, his cultivation has already reached the pinnacle of Second-Layer Divinity Transformation

Only one step away from Third-Layer Divinity Transformation.

He still wanted to go into seclusion for a while to breakthrough his cultivation.

Three days later.

Inside the Exquisite Tower world.

Boom~~

Jiang Fan sat cross-legged on the ground, centered on his body, endless Heaven and Earth Spiritual Qi surged in, transforming into Primordial Magical Power.

He operated the Mixed Element Talisman Scripture, and massive primordial magical power circulated through his body over and over.

At this moment, the magical power and Primordial Spirit Power within him reached their peak.

Bang!

In an instant, Jiang Fan felt a shock throughout his body, as the immense magical power broke through the bottleneck.

Third-Layer Divinity Transformation!

Without a doubt, he had broken through the bottleneck of Second-Layer Divinity Transformation, ascending to Third-Layer Divinity Transformation.

This was only logical for him.

Especially since he had previously received gifts from Heavenly Dao, causing his cultivation to advance rapidly to Second-Layer Divinity Transformation's perfection.

So his breakthrough to Third-Layer Divinity Transformation was actually swift and straightforward, hardly a notable feat.

"A thousand uses of a single mind, is this Third-Layer Divinity Transformation?"

Jiang Fan's eyes revealed a gleaming flash.

He realized that after advancing to Third-Layer Divinity Transformation, the power of his primordial spirit had increased drastically, evolving from the previous hundred uses of a single mind to a thousand uses.

At this time, he could split himself into a thousand avatars, undertaking different tasks simultaneously.

Compared to before, it was simply a qualitative change.

With such ability, the efficiency of learning various knowledge would be astonishingly enhanced.

"This Origin Energy can be continued for further refinement."

"With just a bit refined, I fear a swift breakthrough to Fourth-Layer Divinity Transformation will soon follow."

Jiang Fan clenched his fist.

He sensed the dark golden energy deep within his sea of consciousness, and with the operation of Mixed Element Talisman Scripture, wisps of Origin Energy entered his body, bolstering his Primordial Spirit and magical power.

As if having consumed a thousand-year-old spirit medicine, its medicinal power was extraordinary, yet without any side effects.

This was the Heavenly Dao's gift he received earlier.

It seemed that even cultivating to Divinity Transformation Perfection wouldn't exhaust this Origin Energy.

This was the great harvest from annihilating the Cyan Stone Demon Cave.

Who knew how much arduous practice time it saved him.

"Next step is to engrave a new Life Talisman."

Jiang Fan rubbed his chin.

He had long decided on the name of the new Life Talisman, known as the Heaven-Stealing Claw Talisman.

This talisman comes from the Immortal Artifact, Heaven-Stealing Claw, in the Immortal Realm.

It must be said, it is also a renowned Immortal Artifact in the Immortal Realm, containing incredible power.

Firstly, of course, its attack power can lock onto the enemy's Qi and possesses powerful destructive ability. It can directly attack the opponent like a giant sharp blade, with power so strong that it can tear through the void, causing immense damage to the enemy.

Secondly, it can break through restriction arrays. Once the Heaven-Stealing Claw is used, it can bypass layers of prohibitions, helping the user to acquire items or information protected by restrictions, possessing the ability to deceive the heavens and cross the sea. Often the enemy knows nothing, and their base's treasure trove is stolen clean, leaving no treasure behind.

Of course, besides these, it has various wonderful uses.

However, if only at the entry-level, these are the only two abilities.

If the skill level is further improved, the power of the Heaven-Stealing Claw Talisman will also be further enhanced.

Boom~~

In an instant, Jiang Fan sat cross-legged on the ground, consuming a large amount of Luck Points, and began to comprehend the Heaven-Stealing Claw Talisman.

After going through the catastrophe in the Cyan Stone Demon Cave, he received a full billion Luck Points, so for him, consuming some Luck Points was nothing at all, like a drop in the ocean.

At this moment, his various insights on the Heaven-Stealing Claw Talisman immediately sunk into the depths of his sea of consciousness, entering a state of enlightenment.

.....

Time flies.

A full month passed quickly.

Jiang Fan smoothly integrated the Heaven-Stealing Claw Talisman into his Primordial Spirit, gaining another Life Talisman from the Immortal Realm.

If someone could see his Primordial Spirit, they would see a black claw emerging on it, inscribed with countless mysterious runes, seemingly containing infinite information.

Whoosh!

At this moment, Jiang Fan's heart moved, and he immediately activated the Heaven-Stealing Claw Talisman.

A black claw immediately appeared on his hand, as if integrated into the void.

As long as he moved his thought, this claw could appear in any corner within the range of his divine sense.

And with a gentle claw, it seemed to possess the power to tear through the void.

It was like the claw of a Divine Beast, containing terrifying destructive power.

"Is this the Heaven-Stealing Claw Talisman?"

"I originally thought it was just a supportive talisman, but didn't expect its attack power to be extremely terrifying as well."

"And it strikes silently and invisibly."

"Often the enemy knows nothing until a claw kills them in an instant, truly powerful."

Jiang Fan was very emotional.

He immediately comprehended the formidable aspect of the Heaven-Stealing Claw Talisman. When he activated this talisman, it was as if he had mastered the Heaven-Stealing Claw, which could appear in front of the enemy in an instant, then kill them with one claw.

And at such a fast speed, the enemy simply couldn't react.

In fact, in the Immortal Realm, the Immortal Artifact Heaven-Stealing Claw was indeed famous for its sneak attacks, rarely confronting the enemy head-on.

Countless Immortals had fallen under the Heaven-Stealing Claw.

It could be said that mastering this Immortal Realm Talisman gave him another trump card.

Thinking of this, Jiang Fan's heart moved, and he immediately opened his Virtual Panel.

[Name: Jiang Fan]

[Realm: Third-Layer Divinity Transformation (55%)]

[Profession: Tier Five Low Grade Talisman Master (99%)]

Seeing the above data, Jiang Fan's pupils contracted; he didn't expect his cultivation to have improved so quickly, reaching a 55% progress level.

It must be noted that this month he barely practiced, mostly engraving the Life Talisman, Heaven-Stealing Talisman.

But even so, refining a bit of Origin Energy allowed his cultivation to advance by leaps and bounds.

It is estimated that in another month or two, he could attempt to break through to the Fourth-Layer Divinity Transformation.

"It's even faster than cultivating in the Nascent Soul Stage."

Jiang Fan didn't know what to say.

But this is actually the importance of resources. The Void Realm, after the catastrophe, was really too poor, how could it compare to the Spirit Ruins Realm still in its prime?

Any bit of resource was enough for a Divinity Transformation Cultivator to advance by leaps and bounds.

If the Void Realm were this wealthy, he wouldn't have been delayed for so long in the Nascent Soul Stage.

Chapter 924: A Corner of the Immortal Prison in the Immortal Realm, Ice Prison

But this might not be a bad thing.

With the calamity getting closer, Jiang Fan no longer has much time to waste on increasing his magical power; if there's a way to enhance cultivation efficiency, why not embrace it?

If he can advance to the Void Refining level as quickly as possible, then he can also deal with the many impending disasters of the Void Realm.

He hasn't forgotten the numerous powerful enemies in the Void Realm.

If he's just a Divinity Transformation Cultivator, he might not be a match for those terrifying enemies.

Perhaps he must cultivate to the Void Refining level before returning to the Void Realm—maybe then it would be safer.

"Twenty billion spirit stones have actually disappeared?"

"Does this mean that transferring from the Cyan Stone Demon Cave to this mysterious place cost a full twenty billion?"

"That's truly incredible."

Jiang Fan also noticed he was missing a full twenty billion spirit stones.

You should know that transporting from the Void Realm to the Spirit Ruins Realm didn't cost him even twenty billion spirit stones, but transitioning from the Cyan Stone Demon Cave to here did reach twenty billion.

This suggests how unique the place he's currently in, isolated from cause and effect, truly is.

It's estimated that if not for the overpowering strength of the Gate of the Void, he couldn't have come to this place so easily.

"But this is also a good thing."

"The more special this place is, the more opportunities it represents."

"Perhaps he can gain more benefits here."

Jiang Fan rubbed his chin.

He felt he still needed to examine the surrounding situation carefully.

Of course, he wasn't very worried about the situation in Green Willow Village.

After all, with the destruction of the Cyan Stone Demon Cave, the Cyan Stone Mountain Range is bound to experience a period of safety.

Besides, he left a doppelgänger in Green Willow Village.

If any danger really arises, the doppelgänger can handle it at any time.

So he just needs to stay calmly in this mysterious place and cultivate for a while, and that will be completely sufficient.

Boom~~

At that moment, a message instantly penetrated deep into his consciousness.

"Congratulations on arriving at a place isolated from cause and effect; this location is a corner of the Immortal Prison. For unknown reasons, it fell from the Immortal Realm to the Spirit Ruins Realm,

becoming a special prison. Any living beings entering this place can scarcely leave; of course, you're an exception with the Gate of the Void.

Although you've come here, temporarily avoiding the pursuit of demons, you're indeed too weak. You must enhance your cultivation as quickly as possible to survive the coming calamity.

Don't be misled by this icy, snowy wasteland, scarce of people, because it's filled with endless opportunities. If you can find some opportunities, you will definitely benefit immensely."

"Destiny will provide you with hints."

"Destiny Hint 1: Ten miles away from your cave, a group is being pursued by Immortal Prison exotic beasts, about to become their food.

You can intervene, kill those exotic beasts, and rescue these escapees. These escapees are locals who are very familiar with this place; with their help, you can quickly understand this area and gain various opportunities."

"Destiny Hint 2: You feel rescuing them is too troublesome, so you decide not to intervene, causing the escapees to perish at the hands of exotic beasts, and you lose a channel to understand the Immortal Prison, incurring some future inconvenience. After all, the unknown is always the greatest fear for all beings."

Sensing this message, Jiang Fan rubbed his chin.

He hadn't anticipated a Destiny Hint appearing at this time, instructing him to rescue these escapees.

For him, it's not really a calamity.

But it is a crucial turning point in his destiny.

If it weren't for him, that group would certainly perish amidst the ice and snow.

"Immortal Prison? So this place isolated from cause and effect is called the Immortal Prison?"

"And it originates from the Immortal Realm?"

"Could it actually be the Immortal Realm's prison?"

"If it is indeed the Immortal Realm's prison, why did it fall into the Mortal World; what exactly has happened in the Immortal Realm?"

Jiang Fan furrowed his brow.

From all these changes, it's clear that the Immortal Realm has encountered major issues.

Precisely due to the immense upheaval in the Immortal Realm has affected many worlds in the Mortal World.

Whether it's the Void Realm or Spirit Ruins Realm, both suffer such severe calamities due to changes in the Immortal Realm.

Unfortunately, his cultivation is merely at the Third-Layer Divinity Transformation, still lacking qualification to learn much about the Immortal Realm's matters.

But regardless, the place he currently resides in is definitely mysterious, containing tremendous opportunity.

"Looks like I still need to rescue this group of escapees."

Jiang Fan immediately made up his mind.

For him, rescuing those escapees is merely a matter of lifting a finger.

He's been in this place for over a month and has never seen the locals.

Evidently, this mysterious place must be scarce of people.

If he misses this opportunity, who knows when next he'll see other locals.

Whoosh!

With this thought, Jiang Fan didn't hesitate at all, immediately leaving the Exquisite Tower, swiftly departing the cave.

.....

Meanwhile, in an endless snowy landscape.

Dozens of people are fleeing in the snow.

Among this group are children around five or six years old, teenagers in their tens, adults in their thirties and forties, and even elders in their seventies and eighties, as if it's a whole large family escaping.

Chapter 925: A Corner of the Immortal Prison in the Immortal Realm, Ice Prison_2

In fact, that's exactly the case. They are villagers from Ice Lotus Village.

They originally lived in a small village, but who would have thought they'd encounter a terrifying beast tide? Ice Lotus Village couldn't withstand it at all; a large number of villagers perished at the hands of exotic beasts, and even the village chief, Ye Ling, died.

Now, only seventy or eighty villagers remain.

Currently leading them is Elder Xu Chenyang, a Nascent Soul cultivator.

In the outside world, a Nascent Soul cultivator would already be considered a strong force.

But here, they are nothing at all.

As long as they encounter a slightly stronger exotic beast, they'll be easily killed.

Previously, Ice Lotus Village encountered dozens of Divinity Transformation level exotic beasts, resulting in the villagers being mostly slaughtered.

Even the powerful village chief was no match.

Now, only the elderly, weak, sick, and disabled have survived.

It's worth noting that Ice Lotus Village was once a large village of tens of thousands, now only seventy or eighty people are alive.

The loss has been unimaginably severe.

But such things are common in this icy wasteland.

"Elder Xu, is our Ice Lotus Village really doomed?"

A very anxious eighteen-year-old boy asked. His name was Lu Zhicheng.

His parents also died protecting him from exotic beasts.

Now only he and his six-year-old sister, Lu Duoduo, remain alive.

As an eighteen-year-old, he couldn't adapt to such a drastic change.

The disaster came so swiftly that no one could react in time.

"Alas, there's nothing we can do."

"This is the very nature of the Ice Prison."

"It's not just a small village; even a large city."

"If it encounters a beast tide, it would likely face the same grim fate."

"It's already quite fortunate that seventy or eighty people survived from Ice Lotus Village."

Elder Xu Chenyang said helplessly.

To them, this icy realm is named the Ice Prison.

The meaning is simple, it's a frozen hell.

All creatures living in this realm are prisoners with nowhere to escape.

When he was young, he once lived in a city with a population of over a million.

But so what? If a beast tide strikes, even a city of a million cannot withstand it.

Everything turns to dust and ashes.

Originally, he thought he wouldn't go through another beast tide, but unexpectedly, even after fleeing to Ice Lotus Village, he couldn't avoid it.

"This..."

Hearing these words, Lu Zhicheng felt helpless. He is just a Qi Cultivation stage cultivator, only eighteen years old, and unable to withstand such terrifying exotic beasts.

If he died, so be it, but his sister is still young. How could he let her die at the hands of exotic beasts?

No matter what, he must ensure his sister survives; it was also his parents' last wish.

"Elder, we've been on the run for so long, where should we finally settle?"

"Yes, if we keep going like this, the ice crystal fruits we rely on will soon run out."

"Without food, we won't be able to hold on much longer."

The crowd spoke, looking at Elder Xu Chenyang with worry.

Food is a matter of life and death for them.

Though once reaching the Foundation Establishment Realm, cultivators can refrain from eating, this doesn't mean they don't need food; it just means Foundation Establishment cultivators can absorb Heaven and Earth Spiritual Qi to meet their needs.

But if Foundation Establishment cultivators find themselves in a Land of No Spirits, with no spiritual energy and no food, they cannot refrain from eating and will starve to death.

Though the spiritual energy in the Ice Prison is extremely abundant, it's not a Land of No Spirits.

The problem is, the spiritual energy here is peculiar, containing terrifying cold air.

If one absorbs the spiritual energy of the Ice Prison, the cold air will invade one's body.

The entire body would turn into an ice sculpture, and they'd freeze to death.

Because of this, even cultivators above Foundation Establishment dare not freely absorb the spiritual energy.

Often, after absorbing some spiritual energy, they need to stop cultivating and expel the cold air from their bodies.

So, they still need food to meet their bodily needs.

Fortunately, though most of the Ice Prison consists of desolate icy areas, some plants can still survive.

There exists a unique plant here called the Ice Crystal Fruit Tree.

These trees bear abundant ice crystal fruits each year.

These ice crystal fruits thus become the daily food for humans in the Ice Prison.

"I am still searching."

"But finding a place to settle is not that easy."

"If there are no abundant ice crystal fruit trees nearby, without food, how can we settle down?"

Elder Xu Chenyang said helplessly.

After fleeing from Ice Lotus Village, they have traveled a long distance.

The reason they haven't settled is simply due to not finding a suitable location.

Choosing a habitat is straightforward for them, just find a place with a lot of ice crystal fruit trees.

If they can live near these trees, they won't lack food.

Such areas are naturally ideal places to settle.

Unfortunately, until now, he hasn't found such a place.

So, they can only keep running.

"Elder, if we calculate the time, it's almost dawn."

"Once daylight comes, I'm afraid few among us will survive."

A middle-aged man named Xiong Qinglin spoke up. He is a Golden Core cultivator, but even this means nothing. His level of strength couldn't even withstand a single claw from those powerful exotic beasts.

Chapter 926: A Corner of the Immortal Prison in the Immortal Realm, Ice Prison_3

His face was now very grave, and he occasionally glanced at the sky, as if the sun was about to rise.

For the beings trapped in the Ice Prison, daytime was an extremely terrifying period.

Because the sun in the sky was incredibly terrifying, and the sunlight it emitted could freeze countless creatures.

Ordinary human cultivators could not withstand such extreme cold light.

This was why humans could only be active at night.

After all, when night came, the sun would disappear, and only then could they move freely.

So once it became daytime, they had to find a place to hide, avoiding direct exposure to sunlight.

One could say this was already common knowledge among the humans in the Ice Prison.

Of course, cultivators above the Divinity Transformation level could withstand the cold contained within the sunlight.

But cultivators below the Divinity Transformation level didn't have such abilities; once contacted, they would surely die.

"Hmm, let's see if there's a cave nearby."

"Let's find a cave for now and hide out for a few days."

Xu Chenyang nodded.

He was merely a Nascent Soul level cultivator, naturally unable to walk during the daytime.

So he also needed to find a cave to avoid the daylight sun.

"Oh no, exotic beasts, a lot of exotic beasts are chasing after us."

"These beasts, we've already fled so far, and they still won't let us go?"

"It's over, it's really all over now, the leader seems to be a Divinity Transformation level beast."

"No way, this is the beast that can kill the village chief, how can it be chasing us, why on earth is this happening?"

At this moment, everyone's faces changed dramatically.

Suddenly, in the distance on the snowy ground, terrifying exotic beasts appeared one by one.

Each exotic beast was incredibly large, at least dozens of meters tall, covered in scales, with sharp claws, their whole bodies were essentially lethal weapons.

They were natural killing machines.

In an instant, who knows how many humans would die tragically at the hands of these beasts.

Just seeing these exotic beasts appear made the villagers of Ice Lotus Village utterly despair, losing the courage to resist.

"It seems even heaven wants us dead."

Seeing this scene, Xu Chenyang revealed a look of despair on his face, yet there was also a hint of relief.

Faced with such a desperate situation, he was no longer fearful, appearing very tranquil.

Because no matter how he struggled, it was impossible to survive before these terrifying beasts.

In that case, it's just a matter of death.

Perhaps dying at the hands of these exotic beasts wasn't such a bad outcome.

After all, life within the Ice Prison was unbearably hard.

Not only could they not eat enough or keep warm, but they also faced the constant threat of death; perhaps dying was a form of release.

It's just a pity he couldn't fulfill the village chief's last wish.

He could never lead the remaining villagers to survive on the Ice Prison lands.

"Wait, Elder, those exotic beasts seem to be afraid to come over."

Suddenly, young Lu Zhicheng couldn't help but shout, as he suddenly noticed the terrifying exotic beasts in the distance had stopped their steps, as if sensing some threat, continually growling lowly.

But they did not dare to rush over now to massacre the crowd.

"Someone's there."

Xu Chenyang fixed his eyes and suddenly saw a figure appear in midair, standing before the group of exotic beasts, exuding a terrifying aura that enveloped the area for miles around.

This momentum made him feel suffocated, as if facing a deity.

Chapter 927: Effortless Crossing the Tribulation, Obtaining the Third-Grade Opportunity

The person who arrived was naturally Jiang Fan.

Upon receiving the message of fate's hint, he immediately employed Shrinking Earth into Inches, quickly reaching the destination.

Soon after, he saw a group of escapees, numbering at least seventy to eighty people, big and small.

In the distance were powerful exotic beasts chasing them, with already dozens in count.

Among them, ten were Divinity Transformation Level exotic beasts, and the rest were Nascent Soul Level exotic beasts.

Such terrifying power could easily crush these escapees in minutes.

Undoubtedly, without him, these escapees were bound to meet their end at the hands of these exotic beasts.

"Interesting."

"This is your turning point of fate, as well as mine."

Jiang Fan thoughtfully watched the distant group of escapees, indicating that the deathly aura around them had completely dissipated due to his arrival.

"Master, the blood qi of these exotic beasts is very strong."

"It is likely more formidable than demon beasts of the same rank."

The Demon-Vibrating Bell said in a deep voice.

It sensed that the blood qi inside these exotic beasts was immensely thick, unmatched by demon beasts of the same rank.

To be honest, it was the first time seeing such formidable exotic beasts, truly unfathomable.

They simply weren't beings of the Mortal World.

"However, with blood qi so thick, if you could devour them, the effect might be akin to a Treasure Medicine."

The Ten Thousand Transformations Immortal Cauldron said excitedly.

It sensed that these exotic beasts harbored treasures.

If he could eliminate them all, their scales, claws, and other parts could be refined into Magical Treasures, serving as essential materials.

Their flesh and blood could also be refined into various Treasure Medicines.

The effect was nothing less than individual Elixirs.

"Indeed, the bloodlines they contain are quite unique."

"They appear to be a type of demon as well."

The Demon Refining Pot also felt the peculiarities of these exotic beasts, capable of refining their flesh and blood.

"Roar!"

At this moment, the group of exotic beasts let out a roar, unable to suppress their internal bloodthirsty impulse, although the suddenly appearing human cultivator before them seemed formidable.

But their numbers were vast, and in an ambush, this human cultivator undoubtedly was not their match.

Moreover, the stronger the human cultivator, the more delicious his flesh appeared to be.

To them, he was undoubtedly an upper-grade meal.

Swish, swish, swish!!!

Instantly, exotic beasts charged towards Jiang Fan, their speed unbelievably fast, transforming into white streaks of light.

Undoubtedly, their speed and strength were top-tier.

Common Divinity Transformation Cultivators likely wouldn't last a round against them.

In a mere instant, they could be wiped out completely, without leaving a trace.

But for Jiang Fan, they were nothing more.

"Courting death."

Seeing the group of exotic beasts charging forward, Jiang Fan's eyes revealed a cold gleam, immediately activating the Life Talisman on his body.

Heaven-Stealing Claw Talisman!

Boom~~

Instantly, the surrounding Heaven and Earth Spiritual Qi grew chaotic, the obscure patterns on the talisman suddenly illuminating, transforming into a gray shadow breaking through the void.

The gray aura no longer gently diffused but roiled like bubbling ink, entwining and gathering, twisting into a massive gray claw in midair—its razor-sharp tips emitted a chilling gleam as if tempered with millennial ice, each claw bone visible but shrouded by gray mist, exuding an eerie aura of devouring all.

The mysterious runes on the claw became increasingly distinct, sometimes vanishing, sometimes appearing, as if containing the power of Divine Beast born from the nourishing of Heaven and Earth, akin to the Beast God's claw.

Swoosh!

The next second, the gray claw arrived instantly, its speed incredibly astonishing, reaching a Shrinking Earth into Inches state, leaving no afterimage.

Before the fierce exotic beasts could react, the claw descended like a mountain collapsing.

With just a gentle grasp, it was akin to a strike from a Beast God, containing the terrifying force to smash mountains and shatter stones, the Power of Sharpness held in the claw's tip like a dormant extinction force.

The first to bear the brunt were several Divinity Transformation Level exotic beasts, feeling immense danger as their hairs stood on end, attempting to escape, but it was already too late.

They couldn't even let out complete screams before the places the claw tip touched began crumbling inch by inch—their iron-hard scales flying like paper scraps, their robust limbs instantly turning into chunks of flesh, with the sweet blood qi mixed in the gray mist dimming the surrounding light.

The remaining exotic beasts were terrified to the point of despair, trying to flee in all directions but encompassed by the qi force the claw swept across.

The qi force appeared intangible but carried a soul-rending sharpness, as the dozen giant beasts with body lengths of ten zhang took only half a step before their massive bodies split in half, their cleaved sections smooth as mirrors, their bones and organs instantly mashed into flesh paste.

The claw's remaining force continued, carrying world-ending power as it smashed into the ground. "Boom——" a deafening boom like heavenly thunder erupted beside the ears.

The earth shook violently, spiderweb-like cracks spread crazily centered on the point of impact, spreading hundreds of zhang in an instant, with the depths of the cracks pitch black.

In just an instant, dozens of exotic beasts pursuing had all been wiped out by a single claw, none able to escape, all reduced to chunks of meat.

Chapter 928: Crossing the Tribulation with Ease, Gaining a Third-Grade Opportunity (2)

Fresh blood stained this white snowy land red.

"My heaven, how can it be so strong? Who exactly is this esteemed figure?"

"Even the village chief cannot compare to this esteemed figure, right?"

"Isn't that obvious? If the village chief had such prowess, our Ice Lotus Village wouldn't have been destroyed."

"So, is this esteemed figure the one who saved us? Is the other party a good person or a bad one?"

"Probably a good person, right? If it were a bad person, they wouldn't need to save us; they'd just watch us die."

"Yeah, this little life of ours was just spared; living a bit longer is still living."

"We've been unlucky for such a long time; it's about time for us to have some luck, right? There's no child who cries all the time."

The crowd saw this scene and were all shocked, utterly stunned, almost unable to believe what they were seeing—it was simply too exaggerated.

In the Ice Prison, these ordinary human cultivators were merely food or toys for the exotic beasts.

Once encountered, the only choice was to escape for their lives.

If they couldn't escape, annihilation was inevitable.

Over the years, quite a few villages have actually been wiped out.

Yet now, such a powerful exotic beast was not even a match for this esteemed figure before them.

With just one blow, dozens of exotic beasts were killed—this was indeed too shocking.

If they hadn't witnessed it themselves, there was no way they would believe such an absurd thing.

"Is this the Heaven-Stealing Claw Talisman?"

"It turns out it's not only an auxiliary talisman; it's also an attack talisman."

"As for its destructive power, this Immortal Realm Spirit Talisman is also impressive."

Jiang Fan stroked his chin. The reason he used the Heaven-Stealing Claw Talisman was naturally to test the power of this new Life Talisman, to see just how formidable it was.

Now, seeing it here, it indeed satisfied him greatly, comparable to other Immortal Realm Talismans.

But the attack is just one feature of the Heaven-Stealing Claw Talisman; its truly powerful ability is to steal.

Once this talisman is used, it can silently pilfer numerous treasures.

Even so, its attack power is not something ordinary beings can resist.

With just one blow, dozens of exotic beasts were slain, including ten Divinity Transformation Level exotic beasts.

This is enough to prove the immense power of the Immortal Realm Spirit Talisman, incomparable to mortal talismans.

Boom~~

Thinking of this, Jiang Fan waved his hand, immediately collecting the corpses of those exotic beasts and placed them inside the internal world of the Exquisite Tower, knowing the flesh of these beasts could be exceedingly beneficial.

If he consumed them all, they would greatly enhance his physique.

Perhaps they could quickly accelerate his cultivation progress in the Soaring Snake Technique.

Thud!

At that moment, a message instantly penetrated deeply into his consciousness sea: "You've encountered an attack by dozens of exotic beasts. After a deadly battle, you've succeeded in slaying this group of exotic beasts, crossing a life-and-death tribulation; you've gained five million Luck Points and a Third-Grade Opportunity (location information can be clicked to view)."

Third-Grade Opportunity?!

Feeling this message, Jiang Fan raised his eyebrows. He hadn't seen where the Third-Grade Opportunity was.

Soon, he checked the location information of this Third-Grade Opportunity and found he had already acquired it—it was actually inside one of the Divinity Transformation Level exotic beasts.

It's a Space Ring.

For some unknown reason, it was swallowed by this beast, ending up in its belly.

And since these beasts were slain and their corpses acquired by him, the Space Ring naturally fell into his hands.

Undoubtedly, this Space Ring surely contains a Third-Grade Opportunity.

But now is not the time to inspect the opportunity.

Whoosh!

At this moment, Jiang Fan's figure flashed, immediately appearing before the group of refugees.

"From now on, you are my servants."

Jiang Fan looked at the crowd indifferently and spoke bluntly.

He didn't have time to waste domestically subduing these people.

If they obeyed, they lived; if they resisted, they died.

With these words, the crowd was at a loss; they hadn't expected this mysterious cultivator to be so domineering.

However, seeing those devastated exotic beasts, they instantly quelled any thought of resistance.

If the other party acted, crushing them would be as simple as crushing ants.

"Yes, esteemed master."

Xu Chenyang promptly responded.

He felt that what was happening wasn't as good as imagined, but it wasn't as bad either.

At least they survived.

As long as they lived, it represented hope for the future.

"Hmm, let's return to the nearby cave; I have something to ask you."

Jiang Fan waved his hand, leading the group back to the original cave.

This cave had previously been expanded by his clone; it excavated the mountain peak and dug the earth, so accommodating a thousand people was no big issue.

Before long, the crowd followed Jiang Fan into the cave.

"So warm."

Entering the cave, Lu Zicheng and others widened their eyes, feeling unprecedented warmth, with the cold from the outside seemingly blocked by a barrier.

This was much warmer than staying in the old Ice Lotus Village.

In fact, this was the power of the Immortal Realm Spirit Talisman, the Heaven-Covering Wheel Talisman, forming a huge barrier enclosing the surroundings like a powerful array.

Naturally, it could thus block the outside cold, making it spring-like within the barrier, unaffected by severe cold.

Seeing this, Elder Xu Chenyang's pupils contracted, thinking of something, but he quickly calmed down.

"Esteemed master, if I'm not mistaken, you should be from the Spirit Ruins Realm."

Xu Chenyang looked at Jiang Fan and asked.

"Yes, I'm indeed from the Spirit Ruins Realm."

"I came here unintentionally."

"How did you know?"

Jiang Fan raised his eyebrows.

Previously, a destiny prompt had shown that this group of refugees could greatly assist him, helping him quickly understand the situation in this Immortal Prison; it seemed the person before him was the key.

"Because esteemed master doesn't have the aura of the Ice Prison."

"Those who have been in the Ice Prison for a long time will carry a certain degree of cold aura."

"But esteemed master doesn't have it, so I deduced you must come from outside."

Xu Chenyang took a deep breath and revealed his judgement.

"From the looks of it, outsiders don't seem uncommon?"

Jiang Fan asked.

"Indeed, they are not uncommon."

"Because occasionally, a batch of outsiders enters the Ice Prison."

"In fact, we people are descendants of former Spirit Ruins Realm cultivators."

"After entering the Ice Prison, they could no longer leave."

"Over time, they thrived here, forming villages and cities."

Xu Chenyang explained.

"Ice Prison? Is that what you call this place?"

Jiang Fan said.

"Yes, because it truly is a prison."

"About billions of years ago, the Spirit Ruins Realm discovered this mysterious Spirit Ruins Secret Realm."

"But anyone who enters here can never leave."

"Over time, the Great Xuan Dynasty treated this Secret Realm World as an inescapable prison."

"They often sent cultivators who were culpable but couldn't be freed into the Ice Prison."

"They even sent some indestructible demons here."

"You could say the Great Xuan Dynasty used the Ice Prison as a prison from which no creature could escape."

"And indeed, this is true; once inside, whether human or demon, no one can escape, ultimately turning into a skeleton here."

"I know esteemed master is trying to find clues to leave here, but it's impossible; from ancient times to now, no one has escaped."

Xu Chenyang felt he understood the purpose of the mysterious cultivator; he was trying to find a way to escape the Ice Prison, but it was an impossible task.

Once inside the Ice Prison, one could only die there.

And for the natives, this place is their home, so there's no thought of leaving.

But these outsiders all want to return to the Spirit Ruins Realm to escape the Ice Prison.

Unfortunately, to date, no one has succeeded.

Chapter 929: Two Immortal Destiny Life Charts, New Child of Fortune

"Does the Great Xuan Dynasty know about this place?"

"And they even treat it as a dumping ground?"

"Frequently sending in some prisoners and demons?"

"If that's the case, wouldn't the demons here unleash a massacre?"

"How did you survive?"

Jiang Fan raised an eyebrow, not expecting the Great Xuan Dynasty to be aware of this place.

However, he guessed they weren't very knowledgeable about it.

After all, once you enter the Ice Prison, there's no way to leave.

Even for a Mahayana Cultivator, it's the same.

So the outside world knows little about this place, completely seeing it as a terrifying prison ground.

"Demons are indeed terrifying."

"Every time they appear, they cause a bloodbath, leading to countless human casualties."

"But there's no need to worry too much."

"Because in the Ice Prison, there exist some special creatures known as Prison Beasts."

"These Prison Beasts possess immense strength, even invincible, not even demons can defeat them."

"Previously, the demons that appeared here unleashed a massacre but enraged the Prison Beasts."

"Then those demons were captured by the Prison Beasts."

"As for whether they are dead or alive, we are not sure, as they never appeared again."

Xu Chenyang explained.

Prison Beasts?!

Hearing this, Jiang Fan narrowed his eyes. He knew this place came from the Immortal Realm, known as the Immortal Prison.

Could it be that these Prison Beasts are the guards of the Immortal Prison?

If they are guards, what exactly happened to trigger the emergence of these guards?

"Are those Exotic Beasts a type of Prison Beast?"

Jiang Fan inquired.

"No, they are not."

"They were originally Demon Beasts from the Spirit Ruins Realm."

"In the past, they were thrown into the Ice Prison by the Great Xuan Dynasty to test the danger level of this Secret Realm."

"But after a long time, they were eroded by the power of the Ice Prison and grew."

"Their numbers increased rapidly, and they have become a large group within the Ice Prison."

Xu Chenyang shook his head.

He indicated that the Exotic Beasts were not native to the Ice Prison but came from the Spirit Ruins Realm.

It's just that the inexplicable power in the Ice Prison caused these Demon Beasts to mutate.

It can be said that the force of life is immensely strong, adapting even to the harshest environments.

Once adapted, their numbers explode exponentially.

"It seems you understand the Ice Prison better than most."

Jiang Fan looked at Xu Chenyang.

"Indeed, that's the case."

"When I was young, I lived in a great city within the Ice Prison."

"The city's population exceeded millions, and the City Lord was an Integration Cultivator."

"The City Lord was also a good person; everyone of appropriate age was properly trained and learned the history of the Ice Prison."

"Unfortunately, the city was destroyed by a beast horde, and even the City Lord died."

Xu Chenyang said helplessly.

If that city hadn't been destroyed, he wouldn't have ended up in Ice Lotus Village.

"I didn't expect you to have such a background."

"But is there really no way to leave the Ice Prison, no matter how slim the chance?"

Jiang Fan inquired.

He was very satisfied with Xu Chenyang's answers. It seemed his decision to save these people was correct.

Without the knowledge of these locals, he wouldn't have become familiar with the Ice Prison so quickly.

"There is a way."

"It's said that cultivators who can cultivate to the Mahayana Realm and then ascend might be able to leave the Ice Prison, but no one has succeeded."

"After all, reaching the Mahayana Realm is very difficult."

"Even in the Spirit Ruins Realm, it's extremely challenging, let alone in the Ice Prison."

Xu Chenyang said.

In fact, this is the only hope for many Integration Cultivators.

Unfortunately, breaking through to Integration and advancing to Mahayana is almost impossible.

This is just wishful thinking.

"Hmm."

Jiang Fan nodded.

He used the Emperor's Gaze to see the destiny of these people.

Boom~~

Instantly, the destinies of these people, big and small, appeared before him.

First was the Life Chart of Nascent Soul Cultivator Xu Chenyang, who possessed an Upper Grade Life Chart, knowledgeable and insightful.

Once this Life Chart is activated, he would have a photographic memory, with exceptional memory; the more he sees and learns, the stronger his comprehension grows and the faster his cultivation improves.

He is a born traveler.

For him, being confined to one place limits his development.

If he were in the Spirit Ruins Realm and not constrained by the Ice Prison, his accomplishments would be much greater.

Sadly, being in the Ice Prison, with weak cultivation, he could not go elsewhere.

This has kept his talents at mediocre levels.

Never fully unleashing the potential of this Life Chart.

"This."

But what shocked Jiang Fan more was the eighteen-year-old boy Lu Zhicheng beside him, who actually possessed an Immortal Grade Life Chart, A Thousand Thoughts, One Gain. It's a type of comprehension Life Chart.

The ability is quite simple: as long as he thinks a thousand times, he will definitely gain something, something obtained.

People with this Life Chart progress rapidly in whatever they learn, with extraordinary comprehension.

He is simply a born Dao seed.

If he doesn't encounter a calamity in between, he is almost certain to become immortal.

No doubt, this young man is definitely a Child of Destiny.

In addition, his eight-year-old sister, Lu Duoduo, actually possesses an Immortal Grade Life Chart named Sea Pledge Mountain Alliance.

Chapter 930: Two Immortal Destiny Life Charts, A New Child of Fortune (Part 2)

The ability of this Life Chart is simple, it is a contract.

As long as a promise is made with her, it must be kept.

If the promise is broken, the violator will face death and the dissipation of their cultivation, and all their possessions will be completely taken by her.

Of course, if one keeps the promise, they will receive endless benefits, including the protection of destiny, enhancement of comprehension, and many other profound advantages.

"What on earth is happening? How can there be two Immortal Destiny Life Charts in this place?"

Jiang Fan was taken aback, finding it hard to believe, as he had never seen such a situation.

Even for a world like Spirit Ruins Realm, being able to capture two Immortal Destiny Life Charts is already incredible, almost impossible to acquire more.

After all, within the Endless Void, the worlds are countless, but the number of Life Charts is limited.

If distributed among different worlds, the number of Life Charts becomes extremely scarce.

Yet now, Spirit Ruins Realm has suddenly been discovered by him to have four Immortal Destiny Life Charts, which is truly astounding.

"By the way, these might not be Life Charts from Spirit Ruins Realm, they could belong to this Immortal Prison."

"Only humans born in the Immortal Prison might obtain these two Immortal Destiny Life Charts."

"Moreover, they cannot leave the Ice Prison, so they are not considered cultivators of Spirit Ruins Realm."

"This means that even according to the cultivation resources of Ice Prison, it is possible for these two to become Immortal."

Jiang Fan squinted his eyes.

Undoubtedly, by saving these people, he not only learned about the situation inside Ice Prison but also rescued two Children of Destiny.

If he activates the Life Charts on these two, he might also gain abundant destiny and enormous benefits.

For him, the greatest benefit was saving these two.

"A Thousand Thoughts, One Gain, it really is a powerful comprehension Life Chart."

"Vows of Mountains and Seas, this Life Chart is also extraordinarily mysterious and formidable. A slight mistake might inadvertently scheme against countless enemies, as not many in the Cultivation Realm truly keep their promises."

Jiang Fan squinted his eyes.

He immediately consumed some of his destiny to help the two activate their Life Charts.

If not for him, who knows what they would have had to go through to truly activate their Life Charts.

But other than these three, the rest are ordinary people without special Life Charts.

...

A day later.

Xu Chenyang and the people from Ice Lotus Village completely settled in this cave.

With the protection of the Heaven-Covering Wheel Talisman, they don't have to worry about the external cold.

Moreover, Jiang Fan also gifted them a large amount of Spirit Rice, so the issue of food was temporarily resolved.

The group quickly made themselves at home in this cave.

"Elder, this place is even better than our previous Ice Lotus Village."

"Isn't that right? Although it's just a cave, it's isolated from the extreme cold, staying here feels like being next to a heater, incredibly comfortable."

"Yeah, it's the first time I've slept so soundly. In Ice Lotus Village, I was often woken by cold several times a day, never had a restful sleep, but here, I suddenly slept for several hours."

"Indeed, despite the simplicity of this place, if I had to choose, I would still prefer here."

The villagers discussed excitedly, each filled with great joy.

After fleeing for so long, they had been constantly anxious, not having enough to eat or wear.

Yet after being saved by this mysterious Divinity Transformation cultivator, life was unprecedentedly good.

"Yes, this lord truly is a good person."

Xu Chenyang had to nod in agreement.

Although initially the lord was quite domineering, claiming they were slaves, but where are slaves so free, also given a place to live and food to eat.

If this is what being a slave means, many in Ice Prison would want to be such slaves.

"But this place is still very simple."

"We need to organize it a bit."

"At least make it a place where we can rest peacefully."

"Also, we need to send people to investigate the surrounding environment."

"After all, we don't know if this place is suitable for us to live."

Xu Chenyang gave the order.

Although now they are under the protection of the lord, appearing safe,

in reality, there's still much to be done.

First and foremost, they need to understand the nearby environment and know which places have strong Exotic Beasts.

Otherwise, once they leave the cave, they might well die.

"Yes, Elder."

The people all nodded.

After surviving in Ice Prison for a long time, they naturally knew what to do.

Nearby, the young Lu Zicheng held his sister, sleepily resting.

He hadn't slept so peacefully in a long time.

.....

Of course, for Jiang Fan, protecting these ordinary cultivators was merely a small matter.

Simply a casual task.

For him, cultivation was most important.

Thus, he paid no further attention to these people and returned to the Exquisite Tower.

Simultaneously, Jiang Fan finally opened the Space Ring, acquiring the Third-Grade Opportunity.

Void Refining-level Spirit Medicine—Cold Jade Ice Heart Lotus.

It is a lotus that grows in a ten thousand-year cold pond, with petals as cold and hard as jade, and at its center is a drop of Ice Heart Jade Dew.

After consumption, it allows the consumer's body to adapt to extreme cold, enhancing the body's cold resistance, tempering the body's meridians and internal organs, a Body Tempering Spirit Medicine with limitless wonders.

Undoubtedly, this must be a specialty of Ice Prison.

It is likely that some cultivator in Ice Prison acquired this Tier Six Spirit Medicine but hadn't had the chance to consume it before they were killed by Exotic Beasts, becoming part of their food.

Through twists and turns, this Tier Six Spirit Medicine came into Jiang Fan's hands.

One might say, it is also fate.

"Consuming the Cold Jade Ice Heart Lotus might greatly accelerate the cultivation progress of the Soaring Snake Technique."

"It should elevate this True Spirit Technique to the Middle Stage of Tier Five."

Jiang Fan smiled slightly, feeling immense joy within.

After all, advancing the cultivation progress of the Soaring Snake Technique is very difficult, but with the assistance of Spirit Medicine, it becomes different, definitely able to quickly increase cultivation.

Moreover, once the True Spirit Technique breaks through, it not only rapidly increases strength but also extends lifespan, truly a dual benefit with many advantages.

"The Divinity Transformation Chapter of the Soaring Snake Technique is actually the Bone Marrow Refining Chapter."

"It requires the infusion of three thousand Soaring Serpent Runes into the bone marrow to reach Perfection Level."

"Thus causing the bone marrow to transform into Divine Marrow."

"However, if intending to break through to the Middle Stage of Tier Five, one needs to infuse a thousand Soaring Serpent Runes into the bone marrow."

"But for me, that's not a difficult task."

Jiang Fan stroked his chin.

For ordinary cultivators, infusing Soaring Serpent Runes into bone marrow is extremely difficult.

Because without powerful spiritual perception, it is nearly impossible to clearly sense the bone marrow within the body.

Even if one can sense the bone marrow, integrating Soaring Serpent Runes into it is even more challenging.

However, he is different; his spiritual perception has now reached the Third-Layer Void Refining level.

Far stronger than ordinary Divinity Transformation cultivators.

With such formidable spiritual perception, able to sense Void Energy, perceiving the bone marrow is an easy task.

Accompanied by this Void Refining-level Spirit Medicine, his breakthrough to the Middle Stage of Tier Five with the Soaring Snake Technique is only a matter of time.

Boom~~

With this thought, Jiang Fan did not hesitate, immediately activating the Ten Thousand Transformations Immortal Cauldron to quickly refine the Void Refining-level Spirit Medicine, Cold Jade Ice Heart Lotus, turning it into crystal-clear droplets of medicinal liquid.

All impurities were driven out, leaving only pure energy.

Without a second thought, he immediately consumed one drop of the liquid.

Dong!

This drop of liquid contained abundant energy, seemingly possessing terrifying Ice Power, freezing his body the moment it entered.

Strands of Ice Power tempered every corner within his body.

Yet beyond the Ice Power, the most crucial is the power of vitality.

Every time the Ice Power damaged his body, it was swiftly repaired by the power of vitality.

In this cycle, his physique strengthened continuously, visibly enhancing.

Numerous Soaring Serpent Runes rapidly formed within his bone marrow.

Vaguely, each drop of bone marrow transformed due to the infusion of Soaring Serpent Runes.
