

Fortune 94

Chapter 94: Blood Tiger Pill, Golden Sword Talisman, Great Harvest_2

Taking a Blood Tiger Pill accelerates a Grandmaster's cultivation.

It allows a Grandmaster to complete the Qi Force deep within their Elixir Field and Sea of Qi more quickly, saving a lot of time in arduous cultivation.

This was originally brought back by the cultivator Li Yuan from the Cultivation Realm, intending to help the Li Family grow.

Who would have thought that the Li Family never discovered the secret of this Space Ring.

"Spirit stones, these seem to be the spirit stones used by cultivators."

"There are actually thirty-five of them."

Jiang Fan was very excited.

According to the autobiography of Daoist Liu, the basic currency unit in the Cultivation Realm is spirit stones.

Gold, silver, and jewelry are of no use in the Cultivation Realm.

Only spirit stones can purchase treasures from the Cultivation Realm.

Indeed, thirty-five spirit stones are already quite a considerable fortune.

Even the cultivator Li Yuan took many years to accumulate so many spirit stones.

"No way, there are even talismans from a cultivator."

"These are Golden Sword Talismans, five in total."

"If you activate this talisman, it can condense a wave of Golden Sword Qi, instantly shooting out."

"Even an ordinary Qi Cultivation Stage cultivator wouldn't be able to withstand it and would be instantly slain."

"This is truly a deadly weapon."

Jiang Fan clenched his fists.

One must admit, this cultivator Li Yuan really gave it his all, perhaps because he was about to die, he wanted to give back to his family, helping them to grow strong.

But now, all these treasures have become his own, turning into his trump cards.

"However, the talismans of a cultivator cannot be used by mortals."

Jiang Fan stroked his chin.

He just tried to activate one of the talismans, but it didn't budge.

It was like a dead object.

But this is very normal because activating talismans requires the spiritual power of a cultivator.

If there is no spiritual power to activate them, then the talismans naturally cannot be used.

So, for mortals, these talismans are no different from worthless scrap metal.

But just because other mortals can't use them, doesn't mean Jiang Fan can't.

In fact, he tried earlier; if he consumes his Luck Points, he can activate these Golden Sword Talismans.

With just one Luck Point, he can activate one Golden Sword Talisman.

Undoubtedly, this could become his strongest trump card.

If he possesses these five Golden Sword Talismans, even when facing numerous Grandmasters' siege, he can handle it with ease.

He can even have a chance to counterattack when facing cultivators' assassination.

"It's truly worthy of being called a Seventh-Grade Opportunity; it's simply amazing."

Jiang Fan clenched his fists in excitement.

This Seventh-Grade Opportunity was a massive gain for him.

What makes him even happier is skimming the benefit from the Li Family.

Continuously taking away the Li Family's Destiny.

If it weren't for him, perhaps the Li Family really might have produced a child of destiny, gained the ancestors' relics, and embarked on the cultivation path to become a Qi Cultivator.

In that case, the Li Family might have become a cultivation clan.

With his intervention, however, the Li Family cannot have such fortune.

It will only continue to decline, or even become extinct.

"This is a fight for Destiny."

"Like sailing against the current, if you don't advance, you retreat."

Jiang Fan feels he is becoming more aware of his Life Chart abilities. The world's Destiny cannot be infinite; if someone has more, others will have less.

His Life Chart abilities involve constantly seizing others' opportunities and grasping others' Destiny.

Thus gathering more and more Destiny for himself, eventually reaching harmony with heaven.

But such actions will also draw countless calamities.

This is the union of fortune and misfortune.

Nonetheless, he feels it's all worth it.

Without these opportunities to assist, how could he rise?

Even if facing some calamities, it's absolutely fine.

In fact, it is precisely these calamities that accelerate his growth, making the Destiny upon him increasingly vast.

"But the greatest opportunity here still comes from the Immortal Cave Mansion at Yunmeng Lake."

"According to the cultivator Li Yuan, the Immortal Cave Mansion at Yunmeng Lake belongs to a mysterious sect."

"However, his talent and strength were too weak at that time, only passing the First Layer assessment."

"So he only managed to obtain a cultivation technique."

"If one can pass the assessments within, one can obtain the whole sect's inheritance."

"That is to say, the reason the Three Great Families of Yunze City have remained here is for the Immortal Cave Mansion at Yunmeng Lake."

"They are here for the Immortal inheritance it holds."

"Unexpectedly, there really is an Immortal deep within Yunmeng Lake."

Jiang Fan's eyes lit up; he felt he had uncovered a huge secret.

This was a secret known only to the Three Great Families of Yunze City.

No wonder they have stood strong in Yunze City for hundreds of years.

Generations upon generations producing Martial Arts Grandmasters.

If they are guarding such an Immortal Cave Mansion, it's an unending gold mine.

If he also gains the Immortal inheritance, who knows how great the benefits would be.

Even though he has already obtained two cultivation techniques, the Cyan Wood Formula and the Golden Yuan Formula.

The problem is that in the Cultivation Realm, these are only low-level techniques.

If he has a chance to obtain high-level techniques, who would be willing to forgo that?

"But there's no need to rush."

"Since it's an assessment for the Immortal Cave Mansion, it must be targeting cultivators."

"That means those without a Spirit Root who participate are likely to return with nothing."

"If able to enter the path of martial arts and nurture a Spirit Root, then try again, it may yield great rewards."

"Moreover, it's not yet time for the Immortal Cave Mansion to appear."

"Even if wanting to participate in the assessments, it's not possible yet."

Jiang Fan took a deep breath, calming himself temporarily.

Suddenly he remembered the Mysterious Token he obtained earlier.

Undoubtedly, this Mysterious Token is the key to the Immortal Cave Mansion.

Without this Mysterious Token, it might be impossible to enter the Immortal Cave Mansion.

It's as if Destiny is connecting everything together.

In some respects, this is also a result of his Destiny.

Of course, if the Immortal Cave Mansion turns out to be too dangerous, it doesn't matter if he doesn't go.

Anyway, he feels that with his Destiny, obtaining high-level cultivation techniques is no big deal.

It's just a matter of time.

"Husband."

At this moment, Su Weiwei's soft and charming voice came over, exuding an enticing charm.

Hearing this, Jiang Fan left the cultivation room and went to the bedroom.

There, Su Weiwei was dressed in a red bellyband, her alluring figure vaguely visible, skin like white jade, exuding endless charms, her enchanting eyes captivating, almost like a temptress.

"Why are you not resting so late?"

Su Weiwei's enchanting eyes looked at Jiang Fan, her gaze sultry.

"I'm coming."

Jiang Fan couldn't contain himself, especially after advancing to the Grandmaster Realm, his vitality was astoundingly vigorous, easily aroused by this woman, losing his rationality.

Soon, within the bedroom, the bedding rolled, the bed swayed.

Noises echoed out, releasing waves of heat, unable to stop for a long time.

.....

Another day passed.

The Li Family mansion.

Since Li Lei and others have been missing for an entire day, such an occurrence is very unusual.

Normally, Li Lei and others should have returned to the Li Family Mansion by now.

But they haven't returned for this long, causing unease among the Li Family elders.

As a result, the Li Family immediately sent someone to the Li Family mansion to investigate the situation.

When they arrived at the Li Family mansion, they found that everyone had long since disappeared.

Only a few bloodstains were left.

Even the Bat King Yang Qin was missing, which shocked the Li Family scouts, making them believe something significant had happened, prompting them to immediately return to the Li Family Mansion.

At this moment, the current Patriarch Li Haoran, along with many Li Family elders, gathered together in a hall, all with very solemn expressions.

"What happened?"

"Where did Elder Li Lei and others go, and why have they disappeared?"

Li Haoran's face was gloomy; he felt that everything had been going wrong for him lately, as if something was obstructing him in the shadows.

Previously, everything he did went smoothly and according to plan.

But suddenly, he began to encounter numerous calamities, and the Li Family faced a significant crisis.

This left him extremely frustrated.
