

Fortune 96

Chapter 96: Destroying the Li Family, Avenging the Fishermen_2

The person who came was none other than Jiang Fan.

After Jiang Fan advanced to become a Martial Arts Grandmaster, he hid near the Li Family stronghold, monitoring every move they made, aiming to find their main base.

As he expected, the Li Family sent people to this residence.

He seized the opportunity to follow these Li Family spies, trailing them all the way until he arrived at their main base.

One must admit, his luck was indeed excellent; he encountered most of the Li Family's senior figures at once.

Basically, numerous Li Family elders were present here.

If he could capture them all in one fell swoop, the entire Li Family would effectively be wiped out.

After all, without these martial artists' protection, the remaining Li Family members would be unable to maintain such a vast legacy.

Sooner or later, they would be annexed by other families.

What?!

Upon hearing this, Li Haoran and others' faces changed drastically. They immediately noticed the uninvited guest—a seemingly ordinary middle-aged man, whose appearance was unfamiliar and unheard-of.

However, they could sense the terrifying power and murderous intent contained within his body.

Undoubtedly, the mysterious man before them was the culprit who killed Yang Qin and others.

Even though they had found the perpetrator, they were not happy at all.

Because this was not good news; rather, it was a catastrophic disaster.

"Who are you?"

Li Haoran stared intently at the uninvited guest, instinctively sensing that this person was extremely dangerous, unprecedentedly formidable.

Even the Martial Arts Grandmasters he had encountered before were no more than this.

His heart trembled, not knowing when he offended such a formidable enemy.

The other Li Family elders felt the same.

Each was as cautious as facing a great enemy.

"Friend, is there some misunderstanding between us?"

"Indeed, there are no irreconcilable conflicts in this world."

"If you want anything, just say it, and as long as the Li Family has it, we'll surely compensate."

A group of Li Family elders trembled.

They could sense the terrifying aura emanating from this mysterious figure, especially the Qi Force unleashed from his body, which was akin to the sun, releasing a dreadful heat.

It seemed that if he made a move, they would surely die.

Originally, as the elders of the Li Family, each was arrogant and domineering, looking down on others.

But now, one by one, they were scared like quails, seemingly losing all courage.

"Conflicts indeed can be resolved."

"As long as you are all dead, then it can be resolved."

Jiang Fan looked calmly at this group of Li Family elders, recalling the days when the fishermen of Osmanthus Village were oppressed by the Dragon King Gang, and how many were driven to death by these noble descendants, with no way out.

Meng Da's family, Song Fugui's family, and others, were all honest and stammering fishermen.

A lifetime of hard work, never doing evil.

Just to support their families, they worked from dawn to dusk, only to earn meager earnings.

Yet the Dragon King Gang was insatiable, continually squeezing them, as if extracting the very marrow from their bones.

Giving the fishermen no way to live.

Draining the life essence of the fishermen, solely to support the Li Family.

To satisfy their extremely luxurious lifestyle.

Every blade of grass, every beam and tile here was permeated with the blood and sweat of the fishermen.

Although he couldn't change this damned world, he could reclaim justice for his fellow villagers.

Previously, he lacked the strength, forced to endure, watching the Dragon King Gang flaunt their power and fortune.

But now, he was no longer willing to endure.

He must make the Dragon King Gang pay the price.

"Kill!"

Upon hearing this, the Li Family elders' eyes showed a cold glint, realizing that today's matter couldn't be resolved peacefully.

This mysterious figure was clearly here for revenge.

No matter how they showed weakness, he would never spare them.

Since that's the case, it's better to fight to the death.

Moreover, they had numbers on their side, not without a chance for victory.

Bang~~~

In an instant, dozens of Li Family elders attacked simultaneously. Their strength at least reached the Bone Forging Realm, and some were even at the Refining Organ Realm, considered high-tier martial artists.

Some used fist techniques, some palm techniques, while others employed swordsmanship or saber techniques.

Each was like a fierce tiger, lunging to tear Jiang Fan apart.

"Too weak."

Jiang Fan looked indifferently at the group of Li Family elders, sighing lightly.

If it were before, these Li Family elders were indeed formidable figures he couldn't contend with, able to easily crush him, once a fisherman, with a single slap.

But now, having become a Martial Arts Grandmaster, his strength was magnitudes greater than before.

In his eyes, these Li Family elders were like ants, not worth mentioning.

Bang~~

In an instant, he took out the Chengying Sword from his Space Ring, gripping the divine blade firmly as his Qi Force surged out, unleashing the cold radiance within the weapon.

Suddenly, three feet of sword Qi appeared.

This was the terror of a Martial Arts Grandmaster.

The Qi Force within could leave the body, killing from afar.

Often without needing to approach the enemy, he could kill them from a distance.

As a Sword Dao Grandmaster, he could unleash sword Qi, capable of cutting down enemies from afar.

Especially with the divine blade's amplification, the destructive power increased several folds.

Thump, thump, thump!!!

In the next second, Jiang Fan lightly moved, executing Aurora Swordsmanship.

Suddenly, terrifying sword Qi blasted out, releasing dozens of sword rays.

Each sword Qi was impossibly fast, imbued with indomitable sharpness.

In just one instant, before the Li Family elders could get close, the terrifying sword Qi pierced through their physiques.

One by one, their bodies were effortlessly cut in half.

Immediately, the hall was drenched in blood, leaving behind broken limbs and remains.

Just in a flash, dozens of Li Family elders were killed by Jiang Fan.

They all fell to the ground, pupils contracted, seeming to show endless fear and shock as they died.

As if unable to believe they had died just like that.

"This!"

"Sword Dao Grandmaster, this guy is a Sword Dao Grandmaster."

"Wait, why does this sword technique look so familiar, like light, akin to the aurora; isn't this the peerless sword technique mastered by our Li Family ancestor—the Aurora Swordsmanship?"

"No, it's not just the Aurora Swordsmanship; this guy's sword looks like the long-lost Chengying Sword of our Li Family. Why does our Li Family's divine blade end up in this guy's hands?"

"Could it be our ancestor's legacy has been obtained by this person?"

The remaining Li Family elders were stunned.

They immediately recognized the swordsmanship Jiang Fan performed and the divine blade in his hand.

Each was dumbstruck, in disbelief.

To be honest, they never anticipated such a thing to occur.

The legacy belonging to the Li Family was now possessed by a stranger.

Moreover, he was using the Li Family's divine blade and swordsmanship to massacre the Li Family.

"You damned thief."

"You obtained my Li Family's legacy."

"You actually use our Li Family's Chengying Sword to kill our Li Family members?!"

Li Haoran was furious, his lungs almost exploding with rage.

He recalled how he almost found the ancestor Li Chengying's legacy, only for a mysterious figure to beat him to it.

Who could have imagined that this mysterious figure would appear before him?

And that he would use this sword technique to slaughter Li Family elders, attempting to annihilate the Li Family.

Such shamelessness, such baseness.

By rights, the Li Family should have been beneficent to this guy.

Yet now, he repays kindness with enmity, utterly unthinkable.

"Indeed, your 'kindness' to me is immense."

"I can't possibly repay it."

"So after much thought, I've decided to annihilate the Li Family."

"This way, I don't need to 'repay' you."

Jiang Fan looked calmly at the group.
