Chapter 961: Upper Grade Life Chart and Blending with the Dust, Obtaining Immortal Beast Essence Blood (2)

Daoist Chen's eyes involuntarily revealed a hint of slyness and cold light; for him, causing the deaths of so many human camps was without any psychological burden, on the contrary, he felt it was only natural.

After all, nothing is more important than one's own life.

As long as one can attain immortality, sacrificing the lives of others is worth it.

Moreover, those who died would not know it was he who caused their demise.

Sometimes dying in confusion is actually a good choice.

The more one knows, the more painful it becomes.

"Hmm?!"

But at this moment, Daoist Chen was planning to enter Hunyuan Valley, when he quickly noticed a strange figure appearing silently in front of him, intercepting his path.

This made him immediately wary, and an alarm bell rang in his heart.

Because he was in a state of concealment.

Normally, no one should be able to sense his existence, treating him like a stone.

But this sudden stranger seemed to be coming for him.

Yet, he wasn't overly worried.

Because he had no enemies in this area, even if there were enemies, they had long been killed by him.

"Fellow Daoist, may I know what brings you here?"

Daoist Chen showed a gentle smile, like a good-natured person, relying on this expression, he didn't know how many people's favor he had gained, and no one would consider him an enemy.

Even when interacting, it seemed like he was an old friend, which was his social skill.

"I am Jiang Fan, here to kill you."

The visitor was Jiang Fan, appearing before Daoist Chen and speaking directly.

He did not conceal his purpose.

Anyway, it's just a dead person, knowing a bit doesn't hurt.

"What?!"

Upon hearing this, Daoist Chen's hair stood on end, feeling endless fear.

Now he had no opportunity to inquire why this stranger wanted to kill him, as he sensed that the moment the other finished speaking, he began to act.

Bang~~

A terrifying soul wave spread, causing the void to tremble, visible ripples appeared, accompanied by the terrifying howl of evil spirits.

It was as if countless evil spirits roared in the void, making one's soul tremble in fear.

In this lifetime, he had never experienced such a thrilling event.

Who would attack someone so ruthlessly as soon as they met, it was simply unreasonable.

Could it be this guy found out what he did, and wants to eliminate him as a threat?

The problem is, his secrets have never been leaked, the other party should not know.

Or is this guy just a tribulation cultivator wanting to kill and seize treasures?!

If so, he is indeed unlucky, how could he encounter such a terrible tribulation cultivator here?!

"Damn it."

Daoist Chen shouted angrily, using all his might to attempt to resist this blow.

Unfortunately, his strength compared to Jiang Fan was far too different, like a chasm.

This terrifying soul attack spread, directly striking his body.

Boom!!

Just one blow, Daoist Chen immediately felt unimaginable pain throughout his body, his primordial spirit suffered unimaginable agony.

As if at this moment, his soul shattered into pieces.

Far too large, the gap was indeed too large.

How could such a powerful divinity transformation cultivator exist in this world?!

After causing the deaths of so many, is it finally my turn for retribution?!

Unwilling, truly unwilling.

Clearly there was still a chance to become immortal, why would I die like this?!

With a bang, Daoist Chen bled from all seven orifices, eyes wide open, falling to the ground, his body losing all vitality, while a soul from him was instantly absorbed by the Human Emperor Banner, becoming part of it.

On the ground lay Daoist Chen's corpse, evidently dying with unresolved grievances.

No one knew the culprit responsible for the demise of numerous human camps in the Ice Crystal Mountain Range was killed by Jiang Fan.

It was accomplished effortlessly.

"Certainly not a very strong enemy."

Seeing this scene, Jiang Fan felt very satisfied.

After advancing to the Fifth-Layer Divinity Transformation, his primordial spirit power became much stronger than before.

Thus, when employing the Soul-Shaking Talisman, just one soul shock was enough to easily kill ordinary divinity transformation cultivators.

Daoist Chen's strength was decent, but still not his match.

Just one encounter shocked and shattered his soul.

However, Daoist Chen's true strength lay in his upper grade Life Chart and Light amid Dust.

This ability greatly enhanced his power of concealment, reducing his presence.

Even Void Refining cultivators would unknowingly overlook Daoist Chen's existence.

If destiny had not hinted at locating Daoist Chen's trace, Jiang Fan might not have found this guy.

It can be said, Daoist Chen wasn't particularly adept at combat, just at concealment.

But once detected by him, there was no saving him, there was simply no chance of escape.

Bang~~

Thinking about this, Jiang Fan waved his hand, instantly burning Daoist Chen's corpse to ash, and his space ring fell into his hand.

Evidently, all of Daoist Chen's treasures were within the space ring.

"Is this guy really that wealthy?"

"A hundred Immortal Stones? How did he acquire so much wealth?"

Jiang Fan was shocked.

He discovered the space ring stored a myriad of treasures, various types of spirit medicine and elixirs aside, there were actually a hundred Immortal Stones.

Ordinary cultivators find obtaining even one Immortal Stone incredibly difficult, not to mention a hundred, requiring enormous destiny to acquire.

Even Void Refining cultivators may not obtain so many Immortal Stones.

Undoubtedly, Daoist Chen's encounters were numerous.

But unfortunately, he provoked someone he shouldn't have, and now he perished.

Of course, this was Daoist Chen's tribulation.

Perhaps the previous many fortuitous events exhausted his destiny, bringing about this disaster.

After all, one's destiny cannot be endless.

Once destiny is depleted, the death tribulation arrives.

This is when fate leads heroes unfettered.

"Hmm, this is Immortal Beast Essence Blood."

At this moment, Jiang Fan's pupils contracted, noticing the most precious treasure in the space ring.

A glass bead-sized droplet of blood.

It was crystal-clear, without impurities, akin to a blood-red gem.

Though only glass bead-sized, it contained boundless heat, like a miniature sun.

Even across the space ring, immense heat still radiated out.

As if continuously dispelling the surrounding cold.

Containing such vast heat aside, more importantly, he saw myriad law patterns within this blood.

It seemed inhabited by the phantom of an Immortal Beast.

The energy contained within far exceeded any True Spirit Essence Blood he had seen.

Though True Spirit possessed remarkable qualities, it remained a mortal being without ascension.

But as for Immortal Beasts, living in the Immortal Realm, their strength rivaled even ordinary immortals.

Even the strength of an ordinary Immortal Beast surpassed that of typical True Spirits.

Moreover, this fallen Immortal Beast seemed unlike any ordinary immortal.

Despite countless years, this drop of Immortal Beast Essence Blood retained immense vitality, exuding an immortal essence, untouched by the passage of time.

"The energy inside is extremely violent."

"No wonder Daoist Chen obtained this Immortal Beast Essence Blood but couldn't refine it."

"If he hastily refined it, the energy would erupt, enough to kill Daoist Chen."

"Daoist Chen needed to slowly refine this violent energy for it to be useful."

"But for me, there's no need for such trouble."

"I can directly refine and completely devour the energy within."

"If I can fully refine this Immortal Beast Essence Blood, it might further advance my Soaring Snake Technique."

"Even breaking through to Tier Five Late Stage isn't impossible."

Jiang Fan clenched his fists, feeling very excited.

The opportunities he obtained this time were indeed immense.

Chapter 962: Mahayana Realm Exotic Beast, Obtaining 30 Million Luck Points

"However, now is not the time to refine this drop of Immortal Beast Essence Blood."

"It is still necessary to bring this Immortal Beast Essence Blood to Demon Flame City."

"Only in this way can we shift the disaster eastward."

Jiang Fan took a deep breath, suppressing his impulse to refine this drop of Immortal Beast Essence Blood.

Whoosh!

He opened the Gate of the Void and stepped inside.

In fact, over the past year, his clones had also been traveling around, exploring this area thoroughly.

At the same time, he also learned about many human camps and human cities.

As a Demon Cultivator City, Demon Flame City had naturally long been under his control.

He even left a spatial coordinate in the vicinity of Demon Flame City for easy access at any time.

Now it seems that this spatial coordinate is indeed coming in handy.

Boom~~

The next second, Jiang Fan immediately arrived at another area, which was a secluded cave near Demon Flame City.

"Is this Demon Flame City?"

At this time, Jiang Fan walked out of the cave, then gazed at the distant Demon Flame City, which stood built upon a plain, rising from the ground.

It is the Demon Cultivator City standing on the wasteland, exuding a strange and unsettling aura when viewed from afar.

The city walls are forged from rock as black as ink, each stone seemingly dredged from the Abyss, emitting a cold and oppressive gleam, as if capable of devouring all surrounding light.

The walls, towering dozens of feet, meander like a sleeping black serpent, tightly enclosing the entire city, offering an impenetrable sense of oppression.

The surface of the walls is not smooth but covered with twisting black Demon Patterns. These patterns seem to possess life, sprawling and entwining freely over the stones, sometimes appearing as ferocious beast claws, other times like writhing snake swarms, with dim light faintly flickering in their depths, emitting an intimidating magic power.

They are not immobile; with the fluctuations of demonic energy in the city, the Demon Patterns subtly wriggle, as if breathing, or softly chanting an ancient and evil incantation, sending chills down one's spine.

More strikingly, the entire city is enveloped in black flames.

These flames differ from ordinary flames' crimson or golden hues; they exhibit a pure black, devoid of any warmth, instead conveying an icy chill and a sense of destruction.

Some black flames leap atop the city walls, like loyal guards protecting the city; others burst from gaps in city buildings, soaring upwards to merge with the dark clouds in the sky; and still others cling to the Demon Patterns, flickering erratically with their pulsation, making the twisted lines all the clearer and more terrifying.

"Demon Flame City allows any cultivator to enter within."

"Whether they're Demon Cultivators or Righteous Cultivators, so it also has become a paradise for Demon Cultivators."

"If I expose my identity, it might lead to unnecessary trouble."

"However, there is no need for me to reveal any identity, nor is there a need to interact with any Demon Cultivators."

"As long as I stay in Demon Flame City for a few days, drawing the attention of the Exotic Beasts, that will be entirely sufficient."

Jiang Fan stroked his chin.

He knows how those Exotic Beasts found Daoist Chen, actually relying on the mutual sensing through the Immortal Beast Essence Blood.

As long as the sensing isn't blocked, the Exotic Beasts can locate the Immortal Beast Essence Blood.

So by staying in Demon Flame City, those Exotic Beasts will naturally come looking.

Once both forces start clashing, then he could leverage the power of the Gate of the Void to make a swift escape.

And by then, no one would be able to find him.

Whoosh!

With this thought, Jiang Fan didn't hesitate, channeling the power of the Celestial Cicada Spirit Leaf to conceal his presence and aura, he slipped into Demon Flame City following nearby Demon Cultivators.

Thanks to the Celestial Cicada Spirit Leaf's power, no Demon Cultivator noticed his presence.

Even the city's array did not react at all.

No one knew a Righteous Cultivator had silently infiltrated this Demon Cultivator City.

Even the Combined Demon Cultivator was unaware.

...

At the same time, many Exotic Beasts searching for the Immortal Beast Essence Blood in the Ice Crystal Mountain Range suddenly experienced a tremor in their bloodline, for with Daoist Chen's death, there was no longer any power to obscure the Essence Blood's aura.

Each of them felt their bloodline quiver.

In the depths of silence, they sensed a call from a faraway drop of Immortal Beast Essence Blood.

This is a connection from the depths of their bloodline.

"Ancestral Essence Blood, this is the call of the Ancestral Essence Blood."

"Has that damned human finally reappeared? This time we absolutely cannot let him escape."

"To which human camp did he flee? Find him immediately, kill with no mercy."

"It seems he ran into a human city, based on the direction, it should be Demon Flame City."

"How did he end up in Demon Flame City? This complicates things."

"No matter where he ran, we must recover the Ancestral Essence Blood; humans must not lay hands on this."

"That's right, go all out, teach those human cultivators a lesson."

The high-tier Exotic Beasts discussed fervently.

For the Ancestral Essence Blood is an extremely vital treasure to them.

If outsiders were to find out, it might threaten their very foundation.

So they have been relentlessly pursuing that detestable human cultivator, hoping to regain the Ancestral Essence Blood.

Even if the Ancestral Essence Blood has been refined by the opposite party, then the opponent's corpse could still be reclaimed.

Chapter 963: Mahayana Realm Exotic Beast, Gain 30 Million Luck Points (Part 2)

The ancestral power must not fall into the outside world.

Anyone who dares to stand in its way is destined for death.

Rumble~~

In an instant, countless exotic beasts emerged from the Ice Crystal Mountain Range, marching grandly toward Demon Flame City, assembling wave after wave of beast armies.

.....

Naturally, such movements were quickly noticed by the human cities, especially Demon Flame City, for the beasts were heading directly toward it.

Immediately, many demon cultivators began to panic, not knowing what had occurred.

"What exactly happened? What's with those beasts? Why did they suddenly appear?"

"Not sure, those beasts seem to be searching for something, constantly hunting human cultivators."

"Haha, they're just a bunch of exotic beasts, so what of it?"

"That's right, if they hid in the Ice Crystal Mountain Range, we might not be able to deal with them, but running out here foolishly is a path to self-destruction."

"Indeed, Demon Flame City's defenses aren't something those beasts can comprehend. It's a perfect opportunity to hunt a large batch of beasts; it's been a long time since I've tasted their flesh."

"Foolish beasts, they will definitely come to a dead end this time."

The demon cultivators discussed fervently.

They themselves were ruthless and cruel, living constantly on the edge of life and death, knowing no fear.

Faced with the beast army, they actually felt extremely excited, seeing it as a great opportunity.

After all, Demon Flame City is guarded by two Combined Demon Cultivators.

No matter how powerful the beasts are, they can't possibly breach Demon Flame City.

In just three days, a large number of exotic beasts arrived at Demon Flame City.

They clearly sensed that the ancestral essence blood was hidden within this city, making them furious.

Exotic beasts and humans could never coexist, having slaughtered each other countless times.

Both sides bore old blood feuds.

They didn't bother talking to human cultivators, charging directly at Demon Flame City.

It was like a massive beast wave, surging like a flood.

But Demon Flame City wasn't to be trifled with, promptly activating the grand array.

The entire city turned into boundless black flames, burning through the Nine Heavens and Ten Lands.

Many exotic beasts approaching Demon Flame City were burned to death, while large numbers of demon cultivators took action.

The battle was extremely fierce.

One exotic beast after another fell, and demon cultivators perished one by one.

The battlefield became a meat grinder.

Every moment, numerous lives were lost.

As for Jiang Fan, he hid within Demon Flame City.

Using the power of the Celestial Cicada Spirit Leaf, he moved like a ghost, undetectable to anyone.

He was simply watching the tigers fight from the mountain top.

"Tsk tsk, what a fierce battle."

Jiang Fan was naturally aware of the intense battle outside the city, with many Void Refining Cultivators making their moves.

Every move was earth-shattering, causing the void to tremble.

It was enough to make his heart race.

Yet, the Combined Demon Cultivators controlling Demon Flame City hadn't acted; regardless of how intense the battle was, they showed no intention of stepping in.

"It's said that the owners of Demon Flame City are Demon Flame Daoist and Shadow Daoist, two Combined Demon Cultivators."

"Though their combat prowess doesn't match Daoist Xuan Yuan's, the combination of the two shouldn't be underestimated."

"But the exotic beasts dominating the Ice Crystal Mountain Range are even more terrifying."

"There are nine or more Combined-level exotic beasts within."

"Because of these Combined-level exotic beasts, many human cities dare not easily provoke them."

"After all, if they are angered, it might affect all the human cities in this area."

Jiang Fan squinted his eyes.

He had a clone in Profound Abyss City, naturally learning a lot about the intelligence of this region from there.

There are at least eight major human cities in this area, including Demon Flame City, making it nine.

Even so, the combined human forces can't match the power of the exotic beasts.

After all, their numbers are simply overwhelming.

No matter how humans reproduce, they can't match the speed of these exotic beasts.

"However, if these Integration-stage exotic beasts are in hibernation to refine the corpses of Immortal Beasts, it might be possible."

"It seems quite likely."

"After all, for these beasts, the size of their territory is meaningless; their cultivation is most important. If they can break through, they'll reach the Mahayana stage."

"At that time, they might unify the entire Ice Prison."

Jiang Fan couldn't help but speculate on the plans of those Integration-stage exotic beasts.

This is probably also the thought of many Integration-stage cultivators in Ice Prison: whoever becomes the first Mahayana cultivator will be the true overlord of this world, able to unify everything.

The unfortunate thing is that breaking through from Integration to Mahayana is a huge bottleneck.

The vast majority of Integration cultivators don't have the qualifications to advance to Mahayana.

Like the Great Xuan Dynasty, there are many Integration stage cultivators, but Mahayana cultivators are few and far between.

Ice Prison is probably the same.

However, for Jiang Fan, it's no big deal.

If a Mahayana-stage exotic beast really appeared and threatened him, escaping would be the best choice.

After all, unlike the native cultivators of Ice Prison, he had a way out.

"Once the two sides start fighting, they won't stop."

Chapter 964: Mahayana Realm Exotic Beast, Gains 30 Million Luck Points (Part 3)

"It's time to devour this drop of Immortal Beast Essence Blood."

"Once I swallow this drop of Essence Blood, these Exotic Beasts won't be able to find it."

With this thought in mind, Jiang Fan didn't hesitate and swallowed the drop of Immortal Beast Essence Blood in one gulp.

Boom~~

In an instant, the drop of Essence Blood entered his stomach, like a small sun, its vast energy exploded immediately.

This violent energy surged in all directions, as if trying to blast his body apart.

Previously, Daoist Chen was worried about this situation, so he didn't dare to swallow it, as it was akin to swallowing a bomb, purely seeking death.

However, Jiang Fan was different; he cultivated the True Spirit Technique, and his physique was comparable to that of a young True Spirit.

Not something an ordinary Body Tempering Cultivator could compare to.

Although this drop of Immortal Beast Essence Blood indeed contained vast energy, it was far from enough to overextend his body. The energy surged around in his body but was ultimately suppressed by his powerful physique.

Meanwhile, he activated the Soaring Snake Technique, the Bloodline Power in his body condensed into multiple Soaring Snakes, continuously devouring this energy, causing his vital energy to grow incessantly.

"This place is not suitable for cultivation, I should make a run for it."

Jiang Fan's heart throbbed.

He realized that as the vital energy in his body grew stronger, the Celestial Cicada Spirit Leaf was unable to suppress his internal energy; if the energy leaked out, he would surely be discovered by the Integration Cultivators of Demon Flame City.

If that happens, he would likely be targeted by Combined Demon Cultivators, which would be extremely unfortunate.

Swoosh!

With this thought, Jiang Fan did not hesitate and immediately opened the Gate of the Void, instantly returning to the Exquisite Valley.

This way, he had thoroughly left the dangerous situation behind.

"Finally back."

Upon returning to the Exquisite Valley, Jiang Fan breathed a sigh of relief, no longer feeling the prickling sensation on his back.

While at Demon Flame City, he was surrounded by formidable and cunning Demon Cultivators, with some Integration Realm Demon Cultivators concealed deep within the city, it was a place full of dangers, making him unable to act freely.

Only after returning to the Exquisite Valley did he feel completely safe.

Boom~~

At this moment, an information surged into the depths of Jiang Fan's consciousness: "You cleverly manipulated others to kill, inciting a war between the Exotic Beast Influence and the Demonic Cultivator Influence, causing chaos, successfully navigating through a life-and-death calamity. Congratulations on obtaining thirty million Luck Points and a Second-Grade Opportunity."

"Not bad."

Feeling the information, Jiang Fan was overjoyed.

Obtaining thirty million Luck Points and a Second-Grade Opportunity was naturally a substantial benefit.

But what truly mattered was escaping the danger.

Since the destiny hint provided such information, it indicated that the calamity was completely behind him.

Neither the Exotic Beast Influence nor the Demon Flame City's forces knew he was the mastermind.

It could be said that he had completely extricated himself from the situation, without worrying about retaliation from these two forces.

Indeed, the benefits were manifold.

"Never mind, this is just a trivial matter."

"The most important thing now is to refine this drop of Immortal Beast Essence Blood."

"Once the refinement succeeds, the Soaring Snake Technique can break through again."

"The Body Cultivation Realm will also advance to Tier Five Late Stage."

Jiang Fan's figure flickered and returned to the internal world of the Exquisite Tower.

Chapter 965: Soaring Snake Technique Breakthrough, 250,000 Years of Lifespan

A few days later.

The war between the Exotic Beast Influence and Demon Flame City ended.

The strength of Demon Flame City was always higher; after the Exotic Beasts suffered a significant number of casualties, they could no longer bear the losses and chose to retreat to the Ice Crystal Mountain Range.

After all, without the intervention of any Body Integration Realm Exotic Beast, it was impossible for them to breach Demon Flame City.

At the same time, the Exotic Beasts also discovered the aura of the Ancestral essence blood had completely vanished; they estimated it had long been devoured by the cultivators of Demon Flame City, and continuing the fight would be meaningless, only leading to more casualties.

Although they were unhappy to see this situation, without support from their leaders, the war couldn't continue, and they had to admit defeat temporarily.

No matter how you look at it, the Body Integration Realm Exotic Beasts were still in slumber, and it wasn't the best time to wage war against humans.

Now, they could only swallow this bitter pill.

"Ha, those foolish Exotic Beasts actually dared to attack our Demon Flame City, and now they're fleeing back to the Ice Crystal Mountain Range in disgrace. Their losses are severe this time."

"Indeed, in the past few days, we've killed so many Exotic Beasts that you can't even quantify them. Unfortunately, many of our Demon Flame City's cultivators also died — an unprecedented loss."

"What's the loss of some Demon Cultivators? As long as our City Lord is here, Demon Flame City is as stable as Mount Tai, and other cities certainly wouldn't dare to attack us."

"You're right; losing some Demon Cultivators is nothing. They are weak and unlucky; only those who survive can become truly powerful Demon Cultivators."

The cultivators of Demon Flame City were discussing proudly.

Although this war with the Exotic Beasts led to the death of a large number of cultivators in Demon Flame City, the casualties were severe.

But for these Demon Cultivators, it was nothing, as low-tier Demon Cultivators were like crops; even if a batch dies, another would sprout soon.

They had already disregarded life and death.

Death is just an early return to this world.

"Even though that's the case, why did these Exotic Beasts suddenly go mad and attack our Demon Flame City? Did something unusual happen?"

"Rumor has it someone infiltrated the deepest part of the Ice Crystal Mountain Range and stole a Secret Treasure from the Exotic Beasts, which made them go mad. Subsequently, that mysterious figure

infiltrated Demon Flame City, causing the Exotic Beasts to believe our city harbored the mysterious cultivator, thus they waged war against us."

"Is it really true? If it is, then aren't we just others' scapegoats? Who dared to use our Demon Flame City as their shield?"

"Ha, after this news spread, those elders of the Demon Cultivators were infuriated and desperately wanted to find that mysterious cultivator. Unfortunately, no matter how they searched, they couldn't find even the slightest trace of the mysterious figure, as if the person vanished into thin air."

"Impossible, if that mysterious cultivator truly had that ability, how could they be chased by the Exotic Beasts? They probably escaped long ago. Are the Exotic Beasts lying, intentionally attacking us as an excuse?"

"That's indeed possible; the words of Exotic Beasts can't be trusted. But regardless, after this battle, those Exotic Beasts won't have the strength to attack us again for a while."

The cultivators of Demon Flame City spoke with joy.

They were naturally very doubtful of the existence of the mysterious cultivator mentioned by the Exotic Beasts, especially since many elders joined forces but couldn't find any trace of the mysterious figure, not even a clue.

Even the City Lord took action personally, but unfortunately, they found nothing.

Nevertheless, they achieved a costly victory this time.

In the short term, human forces in this area will be more secure, and peace will last for a while.

...

On the other hand, the Righteous Influence in Profound Abyss City and others naturally knew about Demon Flame City's ordeal.

All the Righteous Cultivators sneered with schadenfreude and were even delighted.

"Ha! Those Demon Cultivators from Demon Flame City are really unlucky. They were besieged by a large number of Exotic Beasts. Who knows how many Demon Cultivators died and were injured this time? It's as if the heavens opened their eyes."

A Void Refining Cultivator laughed heartily, feeling jubilant.

After all, the cultivators of various cities have deep-seated grievances with Demon Flame City, with countless loved ones having once died tragically at the hands of the city.

If Demon Flame City weren't so powerful, they would have attacked long ago and not endured such humiliation.

So seeing the misfortunes of these Demon Cultivators, they are naturally happy, eager to see Demon Flame City annihilated by the Exotic Beasts.

"Should we attack Demon Flame City and take the chance to kick them while they're down?"

"Foolish, the true terror of Demon Flame City is not those low-tier Demon Cultivators but the Body Integration Realm Demon Cultivators."

"Indeed, as long as those low-tier Demon Cultivators are all gone, it won't shake Demon Flame City to its core."

"Unless those two Body Integration Realm Demon Cultivators fall, Demon Flame City will not be destroyed."

"Although Demon Flame City's core suffered no loss, they lost so many Demon Cultivators that they can no longer stir trouble outside for a while. It's safer for us in the wild during this time."

"But why was Demon Flame City suddenly attacked by Exotic Beasts? Do you know the reason?"

Chapter 966: Soaring Snake Technique Breakthrough, 250,000 Years of Lifespan (2)

"It's said that a certain demon cultivator infiltrated deep into the Ice Crystal Mountain Range, stole the secret treasures of the exotic beasts, and thus suffered such a calamity."

"Tsk tsk, demon cultivators are truly audacious, daring to provoke exotic beasts. No wonder they were attacked by them."

"But this has nothing to do with us. Only a dead demon cultivator is a good demon cultivator."

Numerous cultivators were discussing fervently.

They wished to award the audacious demon cultivator a medal. If a few more such warriors appeared, Demon Flame City would soon be decimated in the Ice Prison.

"However, with Demon Flame City suddenly suffering heavy damage, aren't they unable to enter the Profound Earth Secret Realm?"

"Considering the timing, the Profound Earth Secret Realm is indeed due to be opened."

"This is a secret realm world left behind by immortals, filled with countless treasures and opportunities."

"If the demon cultivators of Demon Flame City cannot enter, it would be a great advantage for us."

"It's said that many great powers in the Ice Prison have advanced to the Integration Realm, also related to the opportunities in the Profound Earth Secret Realm."

"No wonder the prices of talismans and magical treasures have been continuously rising recently. It's likely all in preparation for entering the Profound Earth Secret Realm."

"If one of us can obtain a significant opportunity, it might well allow us to completely overshadow Demon Flame City."

Numerous cultivators had a fervent light in their eyes.

To them, the opening of the Profound Earth Secret Realm was undoubtedly the greatest opportunity of the century, something not to be missed.

...

Meanwhile, in the Mixed Element Valley, inside the Exquisite Tower.

Jiang Fan was sitting cross-legged on the ground, refining Immortal Beast Essence Blood while also cultivating the Soaring Snake Technique.

Boom~~

He immediately sensed the unique energy from the Immortal Beast Essence Blood, which smoothly integrated into the marrow of his bones, aiding their transformation over and over again.

It's safe to say that the energy contained in this drop of Immortal Beast Essence Blood was incredibly wondrous, offering immense benefits to the body, even enhancing spiritual root talent.

No wonder those exotic beasts were so formidable. After being nourished by the Immortal Beast Essence Blood, their bloodline and physique underwent unimaginable strengthening.

Of course, not all demon beasts could withstand the violent energy contained in the Immortal Beast Essence Blood; if they couldn't, their bodies would shatter and perish.

If one could withstand it, the benefits were indeed remarkable.

"It's gotten easier to engrave the Soaring Snake Runes."

Jiang Fan's eyes showed a hint of excitement.

Previously, engraving the Soaring Snake Runes deep within the bone marrow was extremely difficult because any carelessness could damage the marrow.

In such a case, the marrow would require recovery before further engraving could proceed.

Consequently, this would delay the progress of cultivating the Soaring Snake Technique.

However, with the assistance of the Immortal Beast Essence Blood, he suddenly found that his marrow contained abundant vitality, allowing him to engrave the Soaring Snake Runes freely without causing damage.

It's clear that this would significantly enhance his efficiency in engraving runes within the bone marrow.

"Three months, just three months to engrave a sufficient amount of Soaring Snake Runes."

"By then, the Soaring Snake Technique will advance to the late stage of Tier Five."

Jiang Fan clenched his fist.

He hadn't expected refining the Immortal Beast Essence Blood would have such benefits; it was beyond belief.

No wonder those exotic beasts were so protective of this drop of Essence Blood, unwilling to let even a single drop of Immortal Beast Essence Blood leak out. If human cultivators knew its importance, they would likely trouble the exotic beasts at all costs.

And to the exotic beasts, this was undoubtedly a heaven-bestowed treasure, brimming with mystery.

Dong!

Immediately, Jiang Fan immersed himself in the state of comprehending the Soaring Snake Runes, as a series of runes began to emerge in the depths of his marrow, emitting a faint dark golden radiance.

His entire body seemed to radiate a dazzling light, reaching every corner within him.

...

Three months passed in the blink of an eye.

During this period, Jiang Fan had been completely immersed in cultivating the Soaring Snake Technique.

After three months of arduous cultivation, the Soaring Snake Runes within his marrow had grown to over two thousand, reaching the middle stage of Tier Five Perfection in his body's bloodline power.

Just a step away from breaking through to the late stage of Tier Five.

His intrinsic bloodline power had thickened to an unbelievable level.

Every drop of marrow contained a faint rune glow.

"It's time. It's overdue for a breakthrough."

Jiang Fan's eyes showed a trace of astonishing light.

He activated the Soaring Snake Technique.

The deep internal energy started circulating, running through circulation after circulation.

The two thousand Soaring Snake Runes within the marrow simultaneously started glowing, emitting a faint dark golden light.

Boom~~

At that moment, enormous bloodline power instantly illuminated every Soaring Snake Rune deep within the marrow, integrating the power of two thousand runes into one.

And this bloodline power seemingly turned into a complete Soaring Snake, roaming in the depths of the marrow.

Dong!

In an instant, under Jiang Fan's control, the vast bloodline power charged toward the bottleneck of the late stage of Tier Five, like a mighty flood, filled with overwhelming power.

With just one impact, this bottleneck shattered completely.

The qi and blood within surged explosively at that moment.

Tier Five Late Stage!

Without a doubt, his Soaring Snake Technique had once again broken through, advancing to the late stage of Tier Five.

He sensed the substance of longevity deep within him was constantly increasing, as mysterious energy from the void continuously merged into his body, endlessly enhancing his essence of life.

The surging qi and blood seemed to transform into dozens or hundreds of Soaring Snakes, roaming throughout his muscles, bones, skin, marrow, and all organs, lighting up numerous Divine Beast Runes on his body.

A terrifying Divine Beast aura spread out, solidifying into substance, causing the ground to collapse and revealing frightening cracks extending over a hundred kilometers.

"Indeed, just three months to make the Soaring Snake Technique break through once more."

"No wonder it's Immortal Beast Essence Blood; incomparable to other Heaven and Earth Spiritual Objects."

"The benefits from refining this drop of Immortal Beast Essence Blood are indeed immense."

Jiang Fan clenched his fist, feeling the extraordinary strength within his body.

He felt his body was now vastly stronger than before.

The sheer force within his body was enough to compete with late-stage Divinity Transformation cultivators.

A mere light punch could shatter mountains upon mountains.

His physique was increasingly non-human now.

Boom~~

Considering this, Jiang Fan's heart stirred, and he immediately opened the virtual panel on his body.

[Name: Jiang Fan]

Undoubtedly, compared to before, all his abilities had increased vastly.

Firstly, there's the lifespan, which has risen from 200,000 years to 250,000 years. Such an upward leap in lifespan is indeed astonishing, as it increased by 50,000 years.

To note, even a Divinity Transformation Cultivator can only live for 3,000 years.

As for a Void Refining Cultivator, likely to survive for 10,000 years.

And Integration Cultivators, with a lifespan around 30,000 years.

Mahayana Cultivators can only live for 100,000 years.

This is the lifespan limit for mortal human cultivators, yet now his lifespan increased by 50,000 years, equivalent to half of a Mahayana Cultivator's.

If those Mahayana Cultivators knew about this, they wouldn't know the extent of their jealousy.

It just shows that humans are far too short-lived compared to True Spirits, virtually short-lived species.

Chapter 967: Seven-Colored Life Chart—Longevity and Everlasting Vision, Immortal King Potential

"But now that I've ascended to Tier Five Late Stage, Tier Six isn't far off."

"However, for now, I've only acquired the Divinity Transformation Chapter of the Soaring Snake Technique."

"As for the Void Refining Chapter, even the Integration Chapter, Mahayana Chapter, I have no clue."

"It seems I still need to return to the Void Realm to find the remaining Chapters of the Soaring Snake Technique."

"But given my current destiny, finding the remaining Chapters shouldn't be a problem."

Jiang Fan fell into contemplation.

He wasn't extremely anxious to find the remaining Chapters of the Soaring Snake Technique; just the Divinity Transformation Chapter was enough to cultivate him to Tier Five Perfection, even breakthrough to Tier Six.

Moreover, considering the time, it would take a few more years before he could return to the Void Realm again.

By then, the mysterious curse from the Void Realm would completely dissipate.

Of course, for safety's sake, perhaps returning later to the Void Realm wouldn't be too big of an issue.

A few short years mean only a moment for a Divinity Transformation Cultivator.

"Has my cultivation actually improved to 88%?"

"Estimating a few months of dedicated practice, I could break through to the Sixth-Layer Divinity Transformation."

Jiang Fan felt quite satisfied.

Since entering the Ice Prison, his cultivation had advanced by leaps and bounds; this was indeed his place of good fortune.

After all, this was an Immortal Prison from the Immortal Realm.

Who knows how much fortune from the Immortal Realm it contained.

If this weren't a causally isolated place, where one could only enter and not leave - a prison, Spirit Ruins Realm would see numerous cultivators flocking to claim its treasures.

"Hmm?!"

"Can the random teleportation of the Gate of the Void be activated again?"

At this moment, Jiang Fan felt a stirring within as he sensed slight movements from the Gate of the Void attached to him, a strange influx of destiny pouring into it.

His heart was instantly filled with joy.

It's crucial to note, activating the random teleportation of the Gate of the Void isn't something that happens easily.

After all, the destination each time varies, mostly to dangerous places. If he were transported to a spot teeming with Spirit Ruins Realm demons, he'd be doomed.

So, without the right opportunity, he wouldn't randomly activate the teleportation of the Gate of the Void.

Yet his intuition told him that now was the best time to activate random teleportation.

The place this time might hold significant fortune.

He's had similar premonitions many times before, so he's used to it.

Boom~~

Thinking of this, Jiang Fan didn't hesitate and immediately opened the Gate of the Void.

If the teleportation destination proved dangerous, he could readily return, not needing to worry too much.

A massive amount of spirit stones was instantly devoured by the Gate of the Void.

This time it consumed as much as ten billion spirit stones, indicating the destination of this teleportation was quite extraordinary.

Naturally, this filled him with anticipation.

Whoosh!

The next moment, Jiang Fan crossed the Gate of the Void, instantly leaving the Chaos Valley and arriving at another region.

...

Spirit Ruins Realm, Ten Thousand Treasures Spiritual Ruins.

This is a renowned Secret Realm under the control of the Great Xuan Dynasty.

No one knows the origins of this spiritual ruins, present for at least several billion years.

Its fame stems from the countless treasures contained within this Secret Realm.

Every time cultivators enter the spiritual ruins Secret Realm, they acquire a plethora of treasures.

Unfortunately, this spiritual ruins Secret Realm only allows cultivators below the Golden Core level to enter.

As for those above Golden Core, even if they exert effort, they can't enter the Secret Realm.

If they force entry, even Mahayana cultivators would be obliterated by the rules of the spiritual ruins Secret Realm.

Thus, over time, Ten Thousand Treasures Spiritual Ruins became a place for the academy students of the Great Xuan Dynasty to train.

It opens once every decade, the students only having one chance to enter.

So students scattered across the cities of the Great Xuan Dynasty's academies seize this opportunity.

If they gain some treasures within, it would definitely propel them to great heights.

Some ordinary academy students rose quickly because of this.

Of course, to enter Ten Thousand Treasures Spiritual Ruins, one must at least be a Foundation Establishment cultivator; those below have no qualification to enter.

Li Changsheng was one of them.

He hailed from the Yunhe Kingdom under the Great Xuan Dynasty, promoting to Foundation Establishment at the age of thirty.

For today's Void Realm, promoting to Foundation Establishment at this age makes him a genius.

But the resources in the Spirit Ruins Realm are so vast, ordinary geniuses establish their foundation by eighteen; those more monstrous perhaps at ten.

So establishing his foundation at thirty indicates poor aptitude.

Advancing further, to promote to Nascent Soul, even Divinity Transformation, becomes increasingly difficult.

Because of this, he expended great effort to get a chance to enter Ten Thousand Treasures Spiritual Ruins.

And it wasn't just him; many Foundation Establishment cultivators did the same.

All see entering Ten Thousand Treasures Spiritual Ruins as a chance to change their fate.

But this time, the opening of Ten Thousand Treasures Spiritual Ruins brought a huge unexpected incident.

Suddenly, for reasons unknown, numerous demons appeared in the spiritual ruins.

Many Foundation Establishment cultivators suffered attacks from these demons.

Countless already died at the hands of these demons.

"Damned, what is going on? Wasn't it said Ten Thousand Treasures Spiritual Ruins were safe? Why are there so many demons, not just Foundation Establishment demons, but even Golden Core demons, Nascent Soul demons appeared, aiming to kill us all here. What do we do now?"

Chapter 968: Seven-Colored Life Chart of Eternal Longevity, Immortal King Potential_2

A Foundation Establishment Cultivator looked extremely grim.

He had no idea what changes had occurred in the Ten Thousand Treasures Spiritual Ruins that allowed so many demons to break in. For all the Foundation Establishment cultivators who entered here, it was a disaster.

Because after entering the Ten Thousand Treasures Spiritual Ruins, they would need at least three months before they could leave.

Before then, they all needed to struggle to survive within the Ten Thousand Treasures Spiritual Ruins.

The problem is that so many demons have appeared, clearly intending to catch them all in one fell swoop.

"It's said that the demons used special means to bring a source of contamination into the Ten Thousand Treasures Spiritual Ruins, allowing massive demonic qi to surge in and infect the native demon beasts, transforming them into demons, resulting in such a change."

"No way, have demons already set their sights on the Ten Thousand Treasures Spiritual Ruins? It's said that many spiritual ruins have been attacked by demons recently, and the Ten Thousand Treasures Spiritual Ruins is just one of them."

"But the rules of the Ten Thousand Treasures Spiritual Ruins are very strong. Even demons shouldn't be able to act recklessly. How did they do it? It's truly unbelievable."

"Unclear, this isn't something we Foundation Establishment cultivators can know. The most important thing now is to stay alive. We all have to survive at least three months to leave here."

Many Foundation Establishment cultivators murmured among themselves.

They knew they were facing an unprecedented crisis.

Including Li Changsheng.

"If that's the case, how can we survive the encirclement of these demons?"

"Just encountering a single Golden Core demon could leave us dead with no place to be buried."

Someone asked.

They felt it was overly difficult to survive the encirclement of these demons.

Even the ultimate genius Foundation Establishment cultivators could not cross a realm, let alone fight across several realms.

Once they encounter those demons, they are almost certainly doomed, with no chance of survival.

"There are many mysterious palaces within the Ten Thousand Treasures Spiritual Ruins."

"The reason why there are countless treasures here comes from these palaces."

"Every palace contains powerful restriction arrays, and many puppet guards."

"To obtain the treasures inside the palace, one must either break the restriction arrays or get the recognition of the palace's puppet guards to acquire the treasures."

"So we can absolutely enter one of the palaces and use the power of the palace's restriction arrays to block those demons. That way, we might have a chance to survive."

Another Foundation Establishment cultivator spoke up.

He seemed very well-informed about the Ten Thousand Treasures Spiritual Ruins.

The reason there are countless treasures in this Spirit Ruins Secret Realm is due to these mysterious palaces.

It's said these palaces come from immortals in the Immortal Realm.

Even if these immortals left a few treasures, it would be enough to drive the mortal cultivators crazy.

However, getting the approval of the palace guards or breaking the palace's restriction arrays is not an easy task.

If it were so easy, after billions of years, countless Foundation Establishment cultivators would have pillaged the palace treasures clean.

But the fact is, despite the passage of countless ages, the treasures within the Ten Thousand Treasures Spiritual Ruins have not diminished.

Some great powers believe that the cultivators of the Great Xuan Dynasty have possibly acquired less than one-millionth of the treasures within so far.

Even the Mahayana cultivators are covetous of some of the treasures inside.

Therefore, the Ten Thousand Treasures Spiritual Ruins is one of the most famous Spirit Ruins Secret Realms of the Great Xuan Dynasty.

"Indeed, using the restriction arrays of mysterious palaces is our only chance for survival."

"Those demons are indeed fierce, but they cannot withstand the power of restriction arrays."

"The problem is, the power of these restriction arrays doesn't differentiate between demons and humans."

"If we're not careful and trigger them, we would die along with them."

Many Foundation Establishment cultivators felt helpless.

They naturally wanted to use these mysterious palace restriction arrays, but it's not so easy.

If not careful, they might bring disaster upon themselves.

"Damn, those demons are coming."

"It's Nascent Soul level demons, at least a dozen of them."

"Damn it, they sent over a dozen Nascent Soul demons, we're doomed this time."

"Initially thought it was a place of rise, but it's turned out to be our grave."

Many Foundation Establishment cultivators appeared ashen.

Especially Li Changsheng, whose face looked unbearably grim.

He never expected to be pushed into a desperate situation so suddenly.

Whoosh whoosh whoosh!!!

At this moment, terrifying demons flew over from afar, locking onto Li Changsheng and the others instantly. The terrifying demon law domain enveloped an area of hundreds of kilometers, with endless demonic qi covering the sky.

With just one encounter, they would be reduced to countless pieces of flesh.

The disparity in strength was too immense, leaving no chance to escape.

Despair appeared across every face.

Boom!

But at this moment, a figure suddenly emerged from the void, emanating the power of a vast law domain that enveloped tens of thousands of kilometers, godlike in presence.

The moment he appeared, all demons present were stunned, speechless.

They didn't expect to encounter a Divinity Transformation level human cultivator here.

"Oh, there are so many demons here?!"

"All of you, die."

The newcomer was Jiang Fan. He had just arrived at the Ten Thousand Treasures Spiritual Ruins through the Gate of the Void.

The instant he appeared, he sensed the densely packed demons surrounding him.

Fortunately, these demons were not very strong. Although numerous, numbering in the thousands, the strongest were only at the Nascent Soul level.

Bang!

With just a glance, a terrifying soul ripple swept in all directions like a storm, striking these ferocious demons.

The demons hadn't even reacted before their souls were shattered by this power, reduced to dust.

The bodies of the demons collapsed to the ground, piling up like mountains.

"This."

Li Changsheng and the others watched this scene, their pupils dilating, utterly shocked.

They hadn't expected such terrifying demons to be slain in a single glance by this mysterious cultivator.

Fortunately, the person was a human cultivator and not a demon.

Thus, perhaps their danger was now resolved.

"Who are you? What is this place?"

With a swoosh, Jiang Fan appeared in front of the group of Foundation Establishment cultivators, asking directly.

His tone contained a trace of enchanting power, enabling these Foundation Establishment cultivators to speak openly.

"Esteemed elder, this is the Ten Thousand Treasures Spiritual Ruins."

Upon hearing his question, the numerous Foundation Establishment cultivators had no doubts and began revealing what they knew.

Next to them, Li Changsheng witnessed this and his hair stood on end, sensing that the mysterious elder seemed unfathomable and might not have good intentions.

However, being an ordinary Foundation Establishment cultivator, he dared not entertain any thoughts.

Fearful of drawing the elder's attention.

"Ten Thousand Treasures Spiritual Ruins?!"

"Did I actually arrive at such a place?"

Jiang Fan smiled slightly, no wonder it took him ten billion Spirit Stones. Clearly, the Ten Thousand Treasures Spiritual Ruins is special, its mysteries comparable to the Ice Prison.

This place probably harbored immense secrets and possessed countless treasures.

Leaving a spatial coordinate here would make this place his personal garden.

He could come and go as he pleased.

"Interesting, you can resist my Power of Enchantment?"

"What kind of special ability do you possess?"

At this moment, Jiang Fan raised an eyebrow, immediately noticing a young man in white robes among them. He looked extremely ordinary, easily fading into the crowd.

Yet among dozens of Foundation Establishment cultivators, this youth stood unaffected by his enchanting power.

Although this young man pretended to be enchanted, his act was poor, Jiang Fan easily detected it.

Thinking of this, Jiang Fan's heart moved, immediately peering into the Life Chart of the white-robed youth.

Boom~~

In an instant, he saw the white-robed youth's body emit a radiant glow.

A Life Chart manifested before him.

Seven-Colored Life Chart: Longevity!

"How is this possible?!"

Upon seeing this, Jiang Fan's heart surged with waves of shock, finding it unbelievable.

It's known that an Immortal Destiny Life Chart is already the most pinnacle Life Chart in the mortal world, almost guaranteeing immortality, a Life Chart only a Child of Destiny in a Great Thousand Worlds could possess.

Yet a Seven-Colored Life Chart surpassed an Immortal Destiny Life Chart, a Life Chart qualifying one to become an Immortal King.

It's the most pinnacle Life Chart in this universe.

Chapter 969: Guidance from the Heavenly Dao, Activating the Longevity Life Chart

Boom~~

But before Jiang Fan could think further, the information about the Seven-Colored Life Chart's eternal vision instantly sank into the depths of his sea of consciousness.

"The Seven-Colored Life Chart of eternal vision is the most top-tier Life Chart in this universe. Those who possess this Life Chart are almost destined to become an Immortal King."

"Ability one: Longevity. Once this Life Chart is activated, one can attain infinite lifespan, living as long as the heavens and earth. There is no need for cultivation to obtain eternal life.

Additionally, it grants powerful life-recovery abilities. Even if severely injured, one can heal quickly; even if both hands and feet are severed, they can regenerate. However, this is just longevity, not immortality. If faced with calamity and killed by an enemy, one would still die, falling in the calamity."

"Ability two: Eternal Vision. This is a power to see through illusions. No powers of enchantment or allure can deceive him. He possesses a Dao heart that withstands the erosion of time, and he is a born Dao seed, with indestructible will to seek the Dao."

Perceiving this information, Jiang Fan was instantly perplexed, not knowing what to say.

The abilities of this Life Chart are simply too abnormal.

Other cultivators need to painstakingly cultivate and cross the tribulation to possibly gain endless lifespan.

Even the True Spirit, despite its long life, is limited.

But this youngster, from birth, has a lifespan as long as the heavens and earth, which is terrifying.

If this special aptitude becomes known to other cultivators, they would likely capture this youngster for research.

No wonder those with this Life Chart are almost certain to become Immortal Kings.

With endless lifespan, even a pig could easily become immortal.

However, this Life Chart is not without flaws; it fears encountering calamity.

If killed by an enemy, death is certain.

Thus, cultivators with this Life Chart are best to hide, only emerging in invincibility.

But if this youngster is in the Void Realm, he may never have the chance to become immortal.

After all, if the entire Void Realm is destroyed, there is nowhere to escape.

Nonetheless, compared to other cultivators, this youngster's Life Chart is formidable beyond words.

Countless cultivators would envy and hate him.

"Senior."

Li Changsheng, seeing Jiang Fan scrutinizing him, felt a chill run down his spine.

He felt like a lamb waiting to be slaughtered.

His many secrets seemed utterly exposed to this mysterious senior.

He had spent the past thirty years as an ordinary cultivator, barely noticeable, unlike the attention from this powerful cultivator now.

This feeling made him very uncomfortable.

"No wonder you could resist my Power of Enchantment."

"It turns out you have a special Life Chart."

Jiang Fan looked at Li Changsheng.

"Life Chart? What Life Chart?"

Hearing this, Li Changsheng was completely puzzled, not understanding what this mysterious senior was talking about.

After all, no one in the Spirit Ruins Realm knew what a Life Chart was.

This was secret knowledge only spread in the Immortal Realm, not known to all.

"You can think of it as a special Spirit Body."

Jiang Fan explained.

He didn't hide anything, straightforwardly telling Li Changsheng about the special Life Chart within him.

Without Jiang Fan, Li Changsheng's Life Chart would only fully activate at age one hundred. But now stimulated by Jiang Fan's destiny, it activated early.

The peculiarities of his body also began to manifest gradually.

"How is it possible? My Life Chart is Eternal Vision, gaining immortality without cultivation?"

"Senior, you must be joking."

Li Changsheng was not filled with joy but with immense fear.

Because such a special Spirit Body is a disaster for ordinary cultivators.

If high-tier cultivators knew, he might be captured for thorough study.

He might never see the light of day again.

More importantly, how could he know this senior harbored no ill intent?

Such a special Spirit Body, likely few cultivators would not be interested.

"Don't worry; I mean you no harm."

"Eternal Vision is impressive, but it doesn't interest me."

"After all, everyone has their own Dao."

Jiang Fan said indifferently.

Hearing this, Li Changsheng breathed a sigh of relief. A mysterious senior saying such things likely meant no harm, since if he intended harm, there would be no need for such words.

Given he was just a Foundation Establishment Cultivator, he couldn't possibly resist this senior.

But for his special physique, Eternal Vision, to not intrigue the senior, what abilities does he possess? Might he also have a special Life Chart?!

"What does the senior require of me?"

Li Changsheng couldn't help but ask.

"You need do nothing but grow quickly."

"This world faces great crisis, needing more top-tier cultivators."

"The more of you talented cultivators, the better."

Jiang Fan said seriously.

World facing a huge crisis?

Li Changsheng was puzzled, for to a small Foundation Establishment Cultivator, such words were grand and beyond his grasp.

Chapter 970: Guidance of the Heavenly Dao, Awakening the Longevity Life Chart (Part 2)

Sure, here is the translation of the provided Chinese text into English:

"Our meeting is fate."

"This is a special Communication Talisman, take it and refine it."

"After refining, you can connect with other cultivators who possess Life Charts."

"By the way, I've also crafted some Talismans, I'll give you some as your trump cards."

With a wave of his hand, Jiang Fan tossed a Space Ring to Li Changsheng.

His expression was odd, feeling like an old man handing benefits to a protagonist, providing early-stage assistance, a profoundly mysterious sensation.

However, he sensed that by doing so, the karma connection between him and Li Changsheng grew stronger.

In the unseen, his Destiny intertwined with Li Changsheng's Destiny.

This also increased the strength of his own Destiny quite a bit.

"Thank you, Senior."

Li Changsheng blinked.

He felt his luck today was unbelievably good.

Not only did he survive the demon calamity, but also received treasures from this mysterious senior.

Living for thirty years, it was his first time gaining such a great opportunity.

For a moment, he didn't know what to say.

"Of course, you don't need to worry about these cultivators knowing anything."

"Once I leave, they'll completely forget what happened just now."

"They won't remember I was ever here."

Jiang Fan waved his hand.

"May I know the name of the senior?"

Li Changsheng asked.

"Just call me Talisman Daoist."

With a flash, Jiang Fan quickly vanished from the place.

Boom~~

At this time, the enchanted Foundation Establishment cultivators started to wake one by one.

Their eyes revealed clarity.

"Unbelievable, they truly forgot about the senior."

Li Changsheng watched Jiang Fan's departing figure and noticed the surrounding Foundation Establishment cultivators all forgot what just happened, even their previous demon attack.

So let alone the mysterious senior Talisman Daoist.

Had he not remembered clearly, he would've doubted his own memory.

This shows that the mysterious senior Talisman Daoist is definitely not an ordinary cultivator, surely possessing extraordinary methods, otherwise accomplishing such a feat would be impossible.

"A Communication Talisman? After refining, I can connect with other cultivators possessing Life Charts?"

"If true, it is definitely a major opportunity for me."

"That senior's methods are unfathomable, if to harm me, he could've done so straightforwardly."

"No need for such roundabout ways."

Li Changsheng clenched his fist.

He decided to refine this karma Communication Talisman.

...

Simultaneously, Jiang Fan silently left the place and began exploring the Ten Thousand Treasures Spiritual Ruins.

"Tsk tsk, Ten Thousand Treasures Spiritual Ruins?"

"This is the most renowned Secret Realm of the Great Xuan Dynasty, containing countless treasures."

"Any Foundation Establishment cultivator would choose to explore the Secret Realm."

"Opened every ten years, each time attracting large numbers of Foundation Establishment cultivators."

"If so, Ten Thousand Treasures Spiritual Ruins is the best place to find other cultivators with Life Charts."

Jiang Fan clenched his fist, feeling very excited.

Earlier he pondered how to find more cultivators with Life Charts.

If searching city by city, he wouldn't know how long it'd take to succeed.

It'd be like finding a needle in a haystack.

But if these Foundation Establishment cultivators entered Ten Thousand Treasures Spiritual Ruins, it'll be entirely different.

He wouldn't need to go elsewhere; staying in this Secret Realm World would naturally bring these cultivators to him, allowing him to find many cultivators with Life Charts.

Building connections with more Life Chart cultivators.

Ten Thousand Treasures Spiritual Ruins is an unparalleled land of opportunity for him.

The benefits it contains are immensely vast.

"But suddenly arriving here, isn't it a guidance from the Heaven's Dao of Spirit Ruins Realm?"

Jiang Fan's heart moved, unable to resist considering this point.

Coincidentally arriving at Ten Thousand Treasures Spiritual Ruins, meeting someone with a Seven-Colored Life Chart, such coincidences aren't common, it must be fate's inevitability.

If he hadn't come to Ten Thousand Treasures Spiritual Ruins, Li Changsheng might very well have died.

Normally, Li Changsheng might not die, as someone with a Seven-Colored Life Chart possesses tremendous Destiny.

Yet the current situation isn't normal, the entire Spirit Ruins Realm was invaded, by demons and strange entities.

Destiny is incredibly chaotic.

This results in even Children of Fortune being easily killed during calamities.

Even if these Children of Fortune have remarkable talent, without growth, they are still merely weak.

"Spirit Ruins Realm is indeed a special Great Thousand Worlds, possessing so many unique Life Charts."

"Then what about Void Realm, how many unique Life Charts does it have?"

Jiang Fan grew increasingly curious about the Life Charts within Void Realm, formerly deemed Mortal World's top world, reputed closest to the Immortal Realm, once birthing countless strong figures.

Through long years, one can imagine Void Realm's strength.

Yet this also made Void Realm a target, suffering severe attacks.

This led to its current state.

Boom~~

At this moment, a message instantly entered Jiang Fan's consciousness deep ocean.

"Inside Ten Thousand Treasures Spiritual Ruins are abundant treasures, but the most precious ones reside in Ten Thousand Treasures Hall; unfortunately, it has been targeted by strange entities. They forbid these Immortal Realm treasures from reaching Spirit Ruins Realm, investing huge resources to infiltrate Ten Thousand Treasures Spiritual Ruins.

If not stopped, Ten Thousand Treasures Spiritual Ruins would fall, and its treasures would be tainted by strange entities, delivering a heavy blow to Spirit Ruins Realm."

"Destiny will provide a hint."

"Destiny Hint One: Knowing the crisis Ten Thousand Treasures Spiritual Ruins faces, you decide on heading to Ten Thousand Treasures Hall (click for specific location) to thwart the strange entities' plot.

Sadly, coming too early, not only facing hostility from strange entities, but also distrust from Ten Thousand Treasures Hall, you suffer a double blow, dying at the strange entities' hands."

"Destiny Hint Two: Fortune favors the timely, knowing Ten Thousand Treasures Spiritual Ruins faces a crisis, however knowing now isn't the best time to act.

Strange entities' infiltration of Ten Thousand Treasures Hall won't come easy because of the Artifact Spirit's presence, it'll block their intrusion with all efforts, sparking fierce conflict, inevitably leading to life and death.

Hence you can wait two months, assist once they're weakened, then not only easily resolving the strange entities but gaining control over Ten Thousand Treasures Hall, attaining the fisherman's advantage.

Indeed due to this, strange entities will despise you profoundly, deeming you Spirit Ruins Realm's top foe, simultaneously the name Talisman Daoist will resound throughout Spirit Ruins Realm, however this could be beneficial, for undisputed talent draws no envy."

"Destiny Hint Three: You may choose to disregard, returning to Ice Prison, avoiding danger, not clashing with strange entities directly.

But consequently, Ten Thousand Treasures Spiritual Ruins will be thoroughly occupied by strange entities, its treasures tainted, delivering significant damage to Spirit Ruins Realm."

Strange entity invasion?!

Perceiving the message, Jiang Fan's pupils contraction; he had long sensed Ten Thousand Treasures Spiritual Ruins brimming with ominous aura, unexpectedly tied to strange entities, no wonder he felt inexplicable crisis.

This may be why Spirit Ruins Realm's Heavenly Dao guided him here.

Acting rashly might encounter unknown dangers; proceeding cautiously is essential.

"Waiting two months, reaping the fisherman's advantage?"

"Looks like Ten Thousand Treasures Hall's Artifact Spirit isn't very friendly to human cultivators either."

"Since so, then let's wait."

"Perfect timing for breaking through to Sixth-Layer Divinity Transformation."

Jiang Fan stroked his chin.

He felt Ten Thousand Treasures Spiritual Ruins is also a good Cultivation Blessed Land, cultivating here would certainly enable rapid progress, quickly advancing his Cultivation.

Meanwhile, he can find more cultivators with Life Charts within Ten Thousand Treasures Spiritual Ruins.

This strategy offers dual benefits, numerous advantages.
